**ASX RELEASE****VECTION DELIVERS \$0.6m IN ADDITIONAL AI RECURRING REVENUE**

Vection Technologies Ltd (ASX:VR1, OTC:VCTNY), ("Vection" or the "Company"), the INTEGRATEDXR<sup>®</sup> company, is pleased to announce that The Digital Box S.p.A. ("TDB"), its recently acquired generative AI specialist, has secured an additional \$0.6m in new annual recurring contracts. This follows from the \$0.7m in previously announced AI-driven contracts, bringing TDB's total reported recurring revenue to \$1.3m.

**HIGHLIGHTS:**

- Vection secures a new \$0.6m annual recurring revenue, underscoring continued market confidence in its generative AI products.
- These contract wins follow an earlier \$0.7m in AI-related recurring deals, delivering a combined \$1.3m of additional recurring revenue since TDB's acquisition by Vection (ASX: 3 March 2025).
- \$0.36m of the new revenue will be recognised this financial year (FY25), with the remainder to flow in the early part of the next financial year.
- The new agreements involve 14 new clients, highlighting sustained interest in TDB's AI-centric solutions.

**OVERVIEW**

TDB's latest \$0.6m in recurring contracts further demonstrates its generative AI expertise and strong market traction.

As with the earlier round of contracts, these new wins underscore TDB's ability to convert AI into predictable, subscription-based revenue consistently. Vection's broader strategy, integrating advanced AI with extended reality, has proven successful, allowing the Company to address the digital transformation needs of diverse industries. The services provided to the new customers are each in the form of licenses to Vection software; professional services and support provided by Vection; and custom Kiosk solutions e.g. for Point of sale. The contracts have conditions which are typical for contracts of this nature, including a termination clause with 60 days' notice.

Among the newly finalised contracts, the largest agreement is with NexyLab, an Italian IT consulting firm, for approximately \$130k. The next largest contract, valued at around \$124k, is with Sella GenAI. Other notable engagements include leather goods manufacturer Gavazzeni (~\$97k), digital business management solutions company TeamSystem SPA (~\$80k), and the lower house of Italy's Parliament (~\$71k) where an intranet portal will be revamped with AI. The remaining contracts range from \$1,000 to \$40,000, reflecting the adaptability of TDB's and Vection's integrated AI and XR solutions across various industries and client needs.

Gianmarco Biagi, Vection's Managing Director, said: *"We are excited to share that TDB has secured an additional \$0.6m in recurring deals. We see this continued take-up in the market as a strong endorsement of our combined AI and XR strategy."*

*"We look forward to further integrating TDB's generative AI capabilities across Vection's global ecosystem, delivering transformative value to enterprises worldwide."*

**MATERIALITY THRESHOLD:**

This announcement is deemed material by the Board as it exceeds the Company's Announcement Materiality Threshold. The Announcement Materiality Threshold is for individual or multiple contracts cumulatively equating to more than \$500k in Revenue.
