Thursday 6 March 2014

The Manager  
Australian Stock Exchange Limited,  
Company Announcements Platform  
PO Box H224  
AUSTRALIA SQUARE NSW 1215

**Techniche Limited ABN 83 010 506 162 - ASX Code TCN**

## **Market Update**

Earlier today the company lodged a market update which was incorrect and comprised the detail previously announced on 6 February 2014.

The company regrets this error and following is the text of the correct announcement of today 6 March 2014.

“Techniche Limited is pleased to advise that the company expects to report a full year net profit after tax for 2013/14 in the range of \$1.9 to \$2.1 million dollars, subject to there being no major currency fluctuations.

The company further advises that the breakdown of this profit is based on a trading profit of approximately \$1.5 to \$1.7m, with the balance being exchange gains.

Techniche’s subsidiary companies, ERST and Urgent Technology, had a number of projects that were brought forward into the first half of this financial year. These projects contributed to a better than budgeted result to December 31, 2013, and are not expected to be repeated in the second half.”

## **About Techniche**

Headquartered in Brisbane Australia, Techniche delivers value to shareholders by investing in profitable technology companies that improve business performance. We employ an active management approach by working with and incentivizing management, to successfully grow the businesses organically and via strategic acquisitions.

Techniche has offices in Hamburg, Germany, Milton Keynes, UK, Chicago, USA, Melbourne, Australia, and a support and development team based in New Delhi, India and currently owns the following businesses;

- ERST Technology GmbH creates software for reliable high speed data transfer solutions, helping companies to transfer mission critical data, on time, anywhere, in any format.  
<https://www.erst-technology.com/>

- Urgent Technology Ltd provide a highly configurable Facilities Management infrastructure and field service management software to over 30,000 sites worldwide. These sites are typically managed and maintained by over 1 million third party contractors, with the software providing tight financial and regulatory control, while improving performance and encouraging behavior through industry best practice. <http://www.urgtech.com/>
- Statseeker designs, develops, markets, distributes and supports a network infrastructure monitoring (NIM) software tool to blue chip enterprises around the world. Statseeker is currently deployed in over 500 customer sites spanning many industries including Government, Military, Banking, Education, Manufacturing, Aviation, Telecommunications, Retail, Publishing, Automotive and Health. Further information on Statseeker can be read at [www.statseeker.com](http://www.statseeker.com).

For further information please contact Mr Karl Jacoby on 1300 556 673.
