## **Selected tenderer - Shoalhaven City Council Waste Project**

Anaeco is pleased to advise that it has been selected as a tenderer for a resource recovery facility to service Shoalhaven City Council in regional New South Wales. The facility is expected to manage between 65,000 and 90,000 tpa of mixed domestic waste.

Anaeco has been notified it is one of three successful applicants following an Expression of Interest Evaluation and that further details regarding the timeframe for the tender process will be advised in due course.

Commenting on this successful application Anaeco CEO David Lymburn said, "we are very pleased to be invited to bid for this project as a selected tenderer, and we take it as an endorsement of the level of interest and desire in Australian Local Government for an economically viable and highly sustainable modern solution for the diversion of waste from landfill."

ENDS

### **About AnaeCo**

AnaeCo delivers Alternative Waste Technology (AWT) facilities based on the AnaeCo™ System, incorporating the patented DiCOM™ bioconversion process. The AnaeCo™ System includes advanced sorting, recycling, anaerobic digestion and aerobic composting to recycle municipal solid waste (MSW) into renewable energy from biogas, agricultural grade compost and recyclables such as steel, aluminium, glass and plastics, thus maximising diversion from landfill and ensuring social, economic and environmentally sustainable management of MSW.

The AnaeCo™ System enables resource recovery intervention closer to source, with enhancement of existing waste transfer stations now a viable waste management option. AnaeCo's experienced team provides design, and commissioning services for AnaeCo™ AWT facilities.
