About Applabs:

Applabs Technologies is an ASX-listed company with the unique ability to offer app development, tech financing and a full range of services to clients of all descriptions. Its focus is on taking projects efficiently from A-to-Z and has a specialist team of creative professionals who can fulfil those requirements.

Experienced UX/UI and visual designers; experts in marketing, launch, and innovation strategies; investment advisors; and world-class programmers; provide customers with a service that's second to none. Applabs can make any vision a reality, Applabs Technologies works with customers throughout the entire process.

The skilful team first get to know the customer and establish the most effective strategy for their mobile needs. Using agile development processes, Applabs then presents striking design solutions, high quality programming and powerful roll-out plans to ensure the app's success. Applabs is dedicated to creating long-term relationships with clients, providing ongoing training and support. Whether an app is a promotion, a solution or a revenue-generator, its customers are only limited by their imagination.

Applabs Technologies also has expertise as a tech financing company. The investment team look at entrepreneurial ideas that pass a series of tests. Successful ideas will be funded and marketed by the team, and profits shared with the idea's owner. In addition to mobile app development; web design,SEO, server and cross- platform integration are also offered. On top of this, Applabs holds innovation workshops for customers, aiding them in generating and refining their ideas. Applabs has a strong history developing apps for clients across multiple industries: business services, consumer products, gaming, events, entertainment, government, real estate, education and health.
