RC DRILLING PROGRAM UPDATE AT ZANTHUS NI-CU PROJECT

Buxton Resources Limited (ASX: BUX & BUXO) has completed its maiden RC program at its Zanthus Project in the Fraser Range nickel province.

All drill hole samples have been despatched for laboratory analysis. Results will be released as soon as all assays have been received.

The low cost RC drill program was partly funded by the West Australian Government's Royalty for Regions Exploration Incentive Scheme which will contribute a maximum of \$150,000 towards the costs of the drilling program.
