

ASX Announcement

INFOMASTER LAUNCH OF “OPENCOUNCIL™”

8 December 2011

8 December 2011. InfoMaster Pty Ltd (“InfoMaster”), a wholly-owned subsidiary of Sirius Corporation Limited (ASX code: SIU), has today announced the launch of “OpenCouncil™”, the first comprehensive eServices solution for Australian councils; attached is a copy of the announcement issued by InfoMaster earlier today.

Sirius Corporation Limited Chairman, Raju Parrab commented that “the launch of OpenCouncil™ is the successful culmination having identified and integrated many differing functions to produce this suite of eService solutions for Australian councils and Andrew Lutterbuck and the team at InfoMaster are to be congratulated on their achievements”

About Sirius Corporation Ltd

Sirius is a long established software and services company that underwent a change in focus in 2006/07. Its focus is on providing software and services to large enterprises. The company operates via a federated or hub-and-spoke model which involves Sirius acting as a holding company (hub) for a number of software and service companies. The company is pursuing an acquisition-led growth strategy, which envisages strong growth and profitability over the next few years. www.sirius.com.au.

TM

InfoMaster launches OpenCouncil eServices Suite.

InfoMaster is a wholly owned subsidiary of listed company Sirius Corporation Limited [ASX code: "SIU"]

8 December, 2011: InfoMaster the leading supplier of technology solutions and services to councils, announced today the launch of OpenCouncil™, the first comprehensive suite of eServices solutions for Australian councils. The suite was unveiled at the Annual National Local Government Customer Service Network (CSN) Seminar held on the 7th December, at The Hills Shire Council.

InfoMaster OpenCouncil™ was developed in direct response to feedback from councils highlighting the need for a robust platform that provides a range of online services to constituents and other customers while integrating smoothly with existing Corporate Systems and Council processes.

As Australians have embraced online commerce and communication, OpenCouncil™ expands a Council's ability to offer a range of online services that drive both efficiency and customer service improvements. The solution includes:

- DA tracking;
- Online payments;
- Facility and services bookings;
- Certificate generation and payment;
- Permit processing and payment; and
- CRM visibility to customers.

Each module requires minimal set up, but is customisable and able to be tailored according to each Council's systems and processes.

Andrew Lutterbeck, CEO of InfoMaster stated, "OpenCouncil™ was developed in direct response to the challenges and needs identified by the CSN. Coupled with InfoMaster's deep integration expertise, OpenCouncil™ handles the complexity of integration across the broad range of Corporate Systems, delivering a broad range of new customer service delivery options. This represents an exciting step in bringing to councils all the interoperability, user-centred design, collaboration and flexibility promised by Web 2.0, and will extend the councils reach to external stakeholders."

The OpenCouncil™ suite is available now - **for further information please contact: Ken Donohoe on (02) 9339 6300**
