ELECTRONIC LODGEMENT

Dear Sir or Madam

Notice of Award of Sino Iron Contract

Southern Cross Electrical Engineering Ltd (ASX:SXE) is pleased to announce it has been awarded its fourth electrical and instrumentation contract for the Sino Iron project for work at Area F of the process plant and the construction of an additional power line. SXE Managing Director, Simon High said "SXE is highly supportive of the Sino Iron Project and over the last two years SXE has built a very strong relationship with MCC and CPM who are the owners and operators for this project."

Work on Area F will be undertaken on a reimbursable framework basis. This framework agreement has the potential for additional works to be included by mutual agreement between SXE and MCC. Construction of the additional power line will be on a lump sum basis.

With the inclusion of this contract SXE's order book for FY12 stands at over \$75 million which is significantly greater than 12 months ago when the order book stood at \$27 million. Simon High said "The recent announcements by civil and structural contractors working on major Australian resource projects are key leading indicator for our business. These announcements combined with the growth in our order book give me great confidence that SXE is on track for strong growth over the coming years".

-ENDS-
