

METRO  
HOSPITALITY GROUP

# ANNUAL REPORT 2011

Transmetro Corporation Limited

ABN 45 001 809 043

## INTRODUCTION

Transmetro Corporation Limited is an Australian owned public company listed on the Australian Stock Exchange. Metro Hospitality Group, the trading division of the corporation, oversees the Metro Hotels chain, which has operated for a period spanning five decades.

Millions of corporate and leisure guests have stayed at the chain's national portfolio of Metro Hotels, Apartments, and Inns. The group's Paddy Maguire's, Yardhouse, and The Elephant pubs, continue to host tens of thousands of Australians and visiting tourists each year at establishments around the country.

Metro Hospitality Group currently provides a national accommodation network of 14 properties, with over 1000 rooms in key locations and major cities across Australia.

Metro Hospitality Group attracts clients from diverse socio-economic structures from middle management business travellers, sporting groups and budget travellers to leisure guests from both domestic and international markets.

In addition to the accommodation hotels network, the Metro Hospitality Group has interests in four theme pubs in Sydney, Adelaide, and Perth.

The pubs division has broadened the expertise of the group, and has enabled it to leverage its resources over a broader portfolio of interests. It has also brought cross-promotional benefits. Metro Hospitality Group's pub division notched up its fourteenth year, having been formed in 1997.

The flexibility and diversity of the Metro Hospitality Group, incorporating Metro Hotels and the theme pubs, gives Transmetro Corporation a high degree of confidence in its capacity to confront the present and future challenges of a dynamic marketplace.

## OUR OPERATIONS

Metro Hospitality Group currently provides a national accommodation network of 14 properties, with over 1000 rooms in key locations and major cities across Australia. The company is dedicated to building client relationships and offers a unique range of long-established, and well recognized brands.

### METRO HOTELS

Based in capital cities, or larger regional centres, Metro Hotels are generally four star properties catering mainly for corporate guests, inbound travellers, and holidaymakers. The fully-serviced hotels include restaurants, meeting rooms, and business facilities. Some properties include conference, and functions rooms.

### METRO APARTMENTS

The Metro Apartments complexes are located in major cities, and cater for corporate travelers, and leisure guests looking for longer-term stays. Properties are ranked in the 3.5 to 4.5 star bracket, and are fully equipped with kitchen facilities, crockery, cutlery, glassware, and utensils.

### METRO INNS

3 to 3.5 star properties in city and suburban locations, the Metro Inns provide comfortable, affordable accommodation, with spacious, easy access, complimentary on-site parking. Facilities such as swimming pools, and restaurants, vary from property to property.

### PUBS

A unique range of Theme pubs in capital cities, providing beverages, food, entertainment, and, in one of our Sydney locations, gaming. The division recently converted the Paddy Maguires Irish pub at Haymarket in Sydney to Yardhouse Sydney Bar and Brasserie, an Australian theme pub. The Paddy Maguires banner continues to be used at Subiaco in Perth, While in Adelaide the group operates The Elephant. The company also has an interest in The Elephant & Wheelbarrow in Northbridge, Perth.

## THE YEAR IN REVIEW

2010/2011 was a solid year for the Company as the hotels division of the Metro Hospitality Group continued to outperform. With the bulk of Metro's hotels in capital cities, trading remained buoyant as the level of corporate activity continued to rebound.

Sydney and Perth in particular put in strong performances, while Brisbane showed considerable improvement over recent years. Melbourne was a tad sluggish as that city continues to add rooms and serviced apartments to an already-oversupplied market. The mid-market sector in which we operate our Melbourne property is bearing the brunt of the additions, and hence the oversupply. Gladstone has had a record year in the wake of the rapid, and substantial, expansion of resources and infrastructure projects in the region. The Dugong Beach Resort had a stellar year, while the Ipswich and Albany markets were subdued. Tourist traffic from overseas has been patchy with our traditional markets, the U.S. and New Zealand in decline, but this is being largely offset by a remarkable increase in tourist traffic from China.

The pubs division of Metro Hospitality Group has had a testing year with increased competition in the markets in which we trade. During the year we took the decision to drop the Irish theme of our major pub in Sydney, Paddy Maguires. The pub, which originally opened in 1886 as The Palace, re-opened in September as the Yardhouse Sydney Bar & Brasserie. A \$1 million refurbishment accompanied the change of profile.

The immediate and longer-term outlook for the Company remains positive with only limited new hotel developments planned or under construction in the cities in which we operate. We ourselves hope to add some 48 rooms to our Perth hotel in the near future, subject to us being able to cost it on a reasonable basis, which is somewhat challenging at the present time due to escalating construction costs in Perth as a result of the thriving economy there.

This year's profit result has been bolstered by contributions from our interests in the sale of the two Pitt Street hotels, which as we indicated last year we continue to manage. Nonetheless our performance has been excellent and for this we thank our many colleagues in the hotels and pubs we operate, and George Bedwani and our Executive team that oversees the operations. It is as a result of their efforts we are able to report the results we do. We thank our suppliers, and the hundreds of thousands of hotel guests and pub patrons who stayed with us or enjoyed our pubs in the course of the year. We thank our suppliers and all those we do business with, and of course we thank you our Shareholders for your continuing support.

## NEWS

### Historic Sydney hotel has place in Metro Hotels' history

In the 1880s the Hotel Metropole was built in Sydney. Costing 150,000 pounds the hotel opened its doors on 14 January 1890. It remained Australia's largest and most modern hotel well into the twentieth century. It also inspired the establishment of the Metro Hotels chain as we know it today. John McEvoy who started the group in the mid-1970s spent several nights at the Hotel Metropole, the first hotel he had ever stayed at, in 1969. The hotel closed its doors later that year to make way for the 40-level CAGA Centre office building, which was demolished in the late 1980s to make way for the Governor Phillip and Governor Macquarie Towers which stand on the site today. In 1976 the company acquired the Edgecliff Hotel and

subsequently picked up other Sydney suburban properties in Ryde, Miranda and Chippendale. As the group began to take shape it was decided to bring the hotels under the one name. "My first choice of name was Metropole," said McEvoy, "In light of my experience at Hotel Metropole. As the properties we had at the time were inns, and Metropole Inns was somewhat long and clumsy, it was decided to abbreviate the name to Metro Inns. Later as we added larger hotels to the group we dropped Metro Inns, and changed to Metro Hotels. There's no doubt though that that the name was inspired by the Hotel Metropole," he says.

# CORPORATE GOVERNANCE

TRANSMETRO CORPORATION LIMITED  
ABN 45 001 809 043

## CORPORATE GOVERNANCE

This statement summarises the Board's governance practices that were in effect during the financial year, which complied with the ASX Corporate Governance Council Recommendations except where stated.

### THE BOARD OF DIRECTORS

The skills, experience and expertise relevant to the position of each director who is in office at the date of the annual report are detailed in the directors' report.

The Board of directors is responsible for the leadership and direction of the company and more specifically establishing goals for management and monitoring the achievement of those goals; appointing and removing the Chief Operating Officer and Company Secretary; assessing management's proposals in regards to corporate strategy; approving major investment decisions; approving and monitoring financial and other reporting and risk management processes. This work is carried out primarily through regular board meetings and meetings with senior executives of the company.

The names of independent directors of the company are Alan Notley, David Lloyd and Susan Notley.

The consolidated group does not comply with ASX Principle 2.2 which recommends that the Chairman should be an independent director due to the Chairman being a substantial shareholder. The Board considers that the expertise and resources provided by the Chairman are directly relevant to the business. There are a majority of independent directors and procedures are in place for the disclosure and resolution of any matter which may give rise to an actual or potential conflict of interest.

Each director has the right, at the company's expense, to seek independent professional advice in relation to the execution of Board responsibilities. Written approval must be obtained from the Chairman prior to incurring any expense on behalf of the company.

As the company has a relatively small Board, the full Board is the Nomination Committee. The Constitution of the company requires one-third of the directors to retire from office at each Annual General Meeting. Directors cannot hold office for a period in excess of three years or later than the third Annual General Meeting without submitting themselves for re-election. Retiring directors are eligible for re-election by security holders.

### ETHICAL STANDARDS

The company has adopted a Code of Conduct for employees. The Code of Conduct is aimed at ensuring that the highest ethical standards, corporate behaviour and accountability are maintained across the company.

### SECURITIES TRADING

The company's policy regarding directors and employees trading in its securities, restricts directors and employees from acting on material information until it has been released to the market and adequate time has been given for this to be reflected in the security's prices.

### AUDIT COMMITTEE

As the company has a relatively small Board, the full Board is the Audit Committee. The Board at each Board meeting focuses on issues relevant to verifying and safeguarding the integrity of the company's financial reporting and oversees the independence of the external auditors. The Group Financial Controller attends monthly meetings with the Board and makes presentations as considered appropriate and is available for questioning by directors.

# CORPORATE GOVERNANCE

## CONTINUOUS DISCLOSURE

The company is committed to complying with the continuous disclosure obligations of the Corporations Act and the Australian Stock Exchange Listing Rules.

## COMMUNICATION WITH SECURITY HOLDERS

Information is communicated to security holders through the distribution of the Annual Report which is distributed to all security holders (unless specifically requested otherwise). Information is not posted on the website however information is available and will be sent on request to any security holder.

The external auditor attends and is available to answer questions at the company's Annual General Meeting.

## RISK IDENTIFICATION AND MANAGEMENT

The Board uses various systems and controls to identify business risks, including:

A comprehensive insurance program including external risk management surveys; a well defined business structure with prescribed authority and expenditure limits; periodic budgeting and reporting systems to ensure monitoring of results against budgets and strategies and a formal due diligence procedure for the disposal and acquisition of material property assets including the use of external specialist professionals.

The company relies on its financial management team to perform internal audit functions, this being done with regular consultation with the external auditors but is independent of them.

## PERFORMANCE EVALUATION

The Board undertakes an annual review of its performance together with an assessment of the company's executive management in line with recommendations of the guidelines.

The Board provides induction programs for new directors and complies with all the recommendations in relation to independent professional advice, access to the Company Secretary, the appointment and removal of the company Secretary, and the provision of information, including requests for additional information.

Induction and training programs for key executives are designed and implemented under the supervision of the Managing Director.

## REMUNERATION

The remuneration policy of the company is to assess the appropriateness of the nature and amount of remuneration for directors and senior executives. This is achieved by reference to relevant employment market conditions with the overall objective of ensuring maximum benefit from the retention of high quality Board and staff members.

Details of the nature and amount of each element of the remuneration of each director of the company and each of the five executive officers of the company receiving the highest remuneration for the financial year are disclosed in the directors' report.

There are no schemes for retirement benefits other than statutory superannuation for non-executive directors.

# INDEPENDENT AUDIT REPORT

## STIRLING INTERNATIONAL CHARTERED ACCOUNTANTS

### INDEPENDENT AUDIT REPORT TO THE MEMBERS OF TRANSMETRO CORPORATION LIMITED

#### REPORT ON THE FINANCIAL REPORT

We have audited the accompanying financial report of Transmetro Corporation Limited (the company) and the consolidated entity, which comprises the balance sheet as at 30 June 2011, and the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

#### DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL REPORT

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards (IFRS) ensures that the financial report, comprising the financial statements and notes, complies with IFRS.

#### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### INDEPENDENCE

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, provided to the directors of Transmetro Corporation Limited Limited, would be in the same terms if provided to the directors as at the date of this auditor's report.

# INDEPENDENT AUDIT REPORT

## AUDITOR'S OPINION

In our opinion:

- a. the financial report of Transmetro Corporation Limited is in accordance with the Corporations Act 2001, including:
  - i. giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2011 and of their performance for the year ended on that date; and
  - ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
- b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 2.

## REPORT ON THE REMUNERATION REPORT

We have audited the Remuneration Report included in the report of the directors for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with s 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with the Australian Auditing Standards.

## AUDITOR'S OPINION

In our opinion the Remuneration Report of Transmetro Corporation Limited for the year ended 30 June 2011, complies with s 300A of the Corporations Act 2001.

# NOTES - FINANCIAL STATEMENTS

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

### 1. REPORTING ENTITY

Transmetro Corporation Limited is a company domiciled in Australia. The consolidated financial statements of the Company as at and for the year ended 30 June 2011 comprise the Company and its controlled entities (together referred to as the Consolidated Entity). The Consolidated Entity is primarily involved in the hospitality sector.

### 2. BASIS OF PREPARATION

**a. Statement of compliance**

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Interpretations) adopted by the Australian Accounting Standards Board and the Corporations Act 2001. The financial report of the Consolidated Entity and the financial report of the Company comply with International Financial Reporting Standards and Interpretations adopted by the International Accounting Standards Board.

**b. Basis of measurement**

The consolidated financial statements have been prepared on the historical cost basis.

**c. Functional and presentation currency**

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

**d. Use of judgments and estimates**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is described in the following areas:

- Provisions and Employee benefits

### 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and have been applied consistently by all entities in the Consolidated Entity.

**a. Basis of Consolidation**

**Controlled entities**

Controlled entities are entities controlled by the Company. Control exists when the Company has power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of controlled entities are included in the consolidated financial statements from the date that control commences until the date that control ceases. Investments in controlled entities are carried at their cost of acquisition in the Company's financial statements.

**Transactions eliminated on consolidation**

Intra-group balances and any unrealised gains and losses or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

## NOTES - FINANCIAL STATEMENTS

### **b. Income Recognition**

Revenue from the rendering of a service is recognised upon the delivery of the service to the customer. All revenue is stated net of the amount of goods and services tax (GST).

#### **Sales revenue**

Sales revenue comprises revenue earned (net of returns, discounts and allowances) from the provision of service. Revenue from the sale of goods is recognised upon dispatch of goods to customers.

#### **Other income**

Other income is recognised on a systematic basis over the periods necessary to match it with the related costs for which it is intended to compensate or, if the costs have already been incurred, in the period in which it becomes receivable. The income is deemed to be receivable when the entitlement is confirmed. Income from subsidiaries and associates are recognised by the parent when the distributions are declared.

### **c. Goods and Services Tax**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense. Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the relevant taxation authority is included as a current asset or liability in the balance sheet. Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the relevant taxation authority are classified as operating cash flows.

### **d. Foreign Currency**

#### **Foreign currency transactions**

Transactions in foreign currencies are translated to the respective functional currencies of controlled entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary transactions denominated in foreign currencies that are stated at historical cost are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at the foreign exchange rates ruling at the date the fair value was determined. Foreign exchange differences arising on translation are recognised in the income statement.

### **e. Cash and cash equivalents**

Cash and cash equivalents comprise cash balances and call deposits with an original maturity of three months or less.

### **f. Provisions**

A provision is recognised in the balance sheet when the Consolidated Entity has a present legal or constructive obligation as a result of a past event that can be measured reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

#### **Amortisation**

Amortisation is recognised in the income statement on a straight-line basis over the estimated useful lives of the intangible assets from the date they are available for use unless such lives are indefinite. Intangible assets with an indefinite useful life are systematically tested for impairment annually.

## NOTES - FINANCIAL STATEMENTS

g. **Impairment**

The carrying amounts of the Consolidated Entity's assets, other than inventories (see accounting policy (m)) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated (see below). An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement unless the asset has previously been revalued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation with any excess recognised through the income statement. Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash generating unit or a group of units and then, to reduce the carrying amount of the other assets in the unit or a group of units on a pro-rata basis.

**Calculation of recoverable amount**

**Receivables**

The recoverable amount of the Consolidated Entity's investments in receivables carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted. Impairment of receivables is not recognised until objective evidence is available that a loss event has occurred. Significant receivables are individually assessed for impairment. Impairment testing of significant receivables that are not assessed as impaired individually is performed by placing them into portfolios of significant receivables with similar risk profiles and undertaking a collective assessment of impairment. Non-significant receivables are not individually assessed. Instead, impairment testing is performed by placing non-significant receivables in portfolios of similar risk profiles, based on objective evidence from historical experience adjusted for any effects of conditions existing at each balance date. The allowance for impairment is calculated with reference to the profile of debtors in the Consolidated Entity's sales and marketing regions.

**Other Assets**

The recoverable amount of other assets is the greater of their fair value less costs to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generate cash flows from continuing use that are largely independent of the cash flows of other assets or groups of assets (cash generating units). The goodwill acquired in a business combination, for the purpose of impairment testing is allocated to the cash generating units that are expected to benefit from the synergies of the combination. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

**Reversals of Impairment**

An impairment loss in respect of a receivable carried at amortised cost is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

h. **Property, Plant and Equipment**

**Owned assets**

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses (see accounting policy (g)).

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings.

## NOTES - FINANCIAL STATEMENTS

Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement.

### **Leased assets - Operating leases**

Payments made under operating leases are expensed on a straight-line basis over the term of the lease, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased property. Minimum lease payments include fixed rate increases.

### **Depreciation**

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

### **The depreciation rates used for each class of depreciable assets are:**

Buildings	- 50 years
Leasehold improvements, office equipment, furniture, fittings, plant and equipment	- 4 to 10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

### **i. Investments in Associates**

Investments in associate companies are recognised in the consolidated financial statements by applying the equity method of accounting. The equity method of accounting recognised the group's share of post-acquisition reserves of its associates. The parent entity's investment in associates are classified as available-for-sale financial assets and brought to account using the cost method.

### **j. Interests in joint ventures**

The economic entity's interests in joint venture entities are brought to account using the equity method of accounting in the consolidated financial statements. The parent entity's interests in joint ventures are brought to account using the cost method.

### **k. Goodwill**

Goodwill and goodwill on consolidation are recorded initially at the amount by which the purchase price for a business or for an ownership interest in a controlled entity exceeds the fair value attributed to its net assets at date of acquisition. The balances are reviewed annually for impairment.

## NOTES - FINANCIAL STATEMENTS

**l. Theme Pubs Acquisition Costs**

Theme pubs acquisition costs are stated at cost. Carrying values are reviewed annually and an asset's carrying value is written down immediately to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

**m. Inventories**

Inventories comprise food, beverages, linen and consumables, all of which are valued at cost.

Cost includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location.

**n. Employee Benefits**

Provision is made for the company's liability for employee entitlements arising from services rendered by employees to balance date. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries and annual leave which will be settled after one year have been measured at their nominal amount. Other employee entitlements payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those entitlements.

Contributions made by the economic entity to employee superannuation funds are charged as expenses when incurred.

**o. Receivables**

Trade and other receivables are stated at amortised cost less impairment losses (see accounting policy (g)).

**p. Taxation**

Income tax expense in the income statement for the periods presented comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is calculated using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not provided for the initial recognition of goodwill and other assets or liabilities in a transaction that affects neither accounting nor taxable profit, or differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based upon the laws that have been enacted at reporting date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised. Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity or on a different tax entity but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**q. Payables**

Trade and other payables are stated at amortised cost.

**r. Financial Instruments**

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

## NOTES - FINANCIAL STATEMENTS

### **Financial Assets at Fair Value through Profit and Loss**

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB 139: Recognition and Measurement of Financial Instruments.

### **Loans and Receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

### **Available-for-sale financial assets**

Available-for-sale financial assets include any financial assets not included in the above categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to equity.

### **Financial Liabilities**

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal repayments.

### **s. Finance income and expense**

Interest income is recognised as it accrues in the income statement using the effective interest method.

### **t. Earnings per share**

The Consolidated Entity presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the net profit attributable to equity holders of the parent for the financial period, after excluding any costs of servicing equity (other than ordinary shares) by the weighted average number of ordinary shares of the Company.

### **u. Segment Reporting**

The Consolidated Entity determines and presents operating segments based on the information that internally is provided to the Board of Directors, who are the Consolidated Entity's chief operating decision maker.

An operating segment is a component of the Consolidated Entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Consolidated Entity's other components if separately reported and monitored. An operating segment's operating results are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Board of Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate head office results.

### **v. Share Capital**

#### **Ordinary shares**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any income tax benefit.

### **w. Presentation of Financial Statements**

The Consolidated Entity applies revised AASB 101 Presentation of Financial Statements (2007), which became effective as of 1 January 2009. As a result, The Consolidated Entity presents in the statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the statement of comprehensive income. This presentation has been applied in this Financial Report at and for the year ended 30 June 2011.

### **x. New standards and interpretations not yet adopted**

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2011 reporting period. None of these are expected to have a significant effect on the consolidated financial statements of the Consolidated Entity except for AASB 9 Financial Instruments, which becomes mandatory for the Consolidated Entity's 2014 consolidated financial statements and could change the classification and measurement of financial assets. The Consolidated Entity does not plan to adopt this standard early and the extent of the impact has not been determined.

# NOTES - FINANCIAL STATEMENTS

## 4. FINANCIAL RISK MANAGEMENT

### Overview

The Company and Consolidated Entity have exposure to the following risks from the use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's and the Consolidated Entity's exposure to each of above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout these consolidated financial statements. The Board of directors has overall responsibility for the establishment and oversight of the risk management and monitors operational and financial risk management throughout the Consolidated Entity. Monitoring risk management includes ensuring appropriate policies and procedures are published and adhered to. The Management reports to the Board of directors.

The Board aims to manage the impact of short-term fluctuations on the Company's and the Consolidated Entity's earnings. Over the longer term, permanent changes in market rates will have an impact on earnings.

The Company and the Consolidated Entity are exposed to risks from movements in exchange rates and interest rates that affect revenues, expenses, assets, liabilities and forecast transactions. Financial risk management aims to limit these market risks through ongoing operational and finance activities.

Exposure to credit, foreign exchange and interest rate risks arises in the normal course of the Company's and the Consolidated Entity's business. Derivative financial instruments are not used to hedge exposure to fluctuations in foreign exchange rates.

The Board of directors oversees the adequacy of the company's risk management framework in relation to the risks faced by the Company and the Consolidated Entity.

### Credit Risk

Credit risk is the risk of financial loss to the Company or the Consolidated Entity if a customer, controlled entity or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's and the Consolidated Entity's receivables from customers.

### Trade and other receivables

The Company's and Consolidated Entity's exposure to credit risk is influenced mainly by the characteristics of individual customers. The Consolidated Entity does not have a significant concentration of credit risk with a single customer.

Policies and procedures of credit management and administration of receivables are established and executed at a regional level. Individual regions deliver reports to management and the Board on debtor ageing and collection activities on a monthly basis.

In monitoring customer credit risk, the ageing profile of total receivables balances is reviewed by management by region on a monthly basis. Regional management are responsible for identifying high risk customers and placing restrictions on future trading, including suspending future services and administering service on a prepayment basis.

The Company and the Consolidated Entity have established an allowance for impairment that represents their estimate of incurred losses in respect of trade and other receivables.

### Liquidity Risk

Liquidity risk is the risk that the Consolidated Entity will not be able to meet its financial obligations as they fall due. The Consolidated Entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Consolidated Entity's reputation.

The Consolidated Entity monitors cash flow requirements and produces cash flow projections for the short and long term with a view to optimising return on investments. Typically, the Consolidated Entity ensures that it has sufficient cash on demand to meet expected operational net cash flows for a period of at least 30 days, including the servicing of financial obligations.

This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

## NOTES - FINANCIAL STATEMENTS

### Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Company's and the Consolidated Entity's net profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

### Currency Risk

The Consolidated Entity is exposed to currency risk on financial instruments that are denominated in a currency other than the respective functional currencies of the controlled entities, primarily Australian dollars (AUD), but also United States dollars (USD) and Euros (EUR). The currencies in which these transactions primarily are denominated are AUD, USD and EUR.

Risk resulting from the translation of these financial instruments into the Consolidated Entity's reporting currency is not hedged.

### Interest Rate Risk

The Consolidated Entity is exposed to interest rate risks in Australia.

### Capital Management

The Consolidated Entity's objectives when managing capital are to safeguard its ability to continue as a going concern, to provide returns to shareholders, to provide benefits to other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Board aims to maintain and develop a capital base appropriate to the Consolidated Entity. In order to maintain or adjust the capital structure, the Consolidated Entity can issue new shares. The Board of directors undertakes periodic reviews of the Consolidated Entity's capital management position to assess whether the capital management structure is appropriate to meet the Consolidated Entity's medium and long-term strategic requirements. Neither the Company nor any of its controlled entities are subject to externally imposed capital requirements. There were no significant changes in the Consolidated Entity's approach to capital management during the year.

## NOTES - FINANCIAL STATEMENTS

### (b) Compensation Practices

The Board's policy for determining the nature and amount of remuneration for Board members and senior executives of the consolidated group is as follows:

The remuneration of Board members is reviewed annually and subject to approval at the Annual General Meeting.

The remuneration structure for executive officers is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the company. The contracts for service between the company and specified directors and executives are on a continuing basis the terms of which are not expected to change in the immediate future. All executives receive a base salary plus the 9% superannuation guarantee contribution required by the government. Upon retirement specified executives are paid employee benefit entitlements accrued to date of retirement.

The company does not have an executive share option scheme. Directors and senior executives do not receive share options.

### 9. OPERATING SEGMENTS

The Consolidated group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of service offerings and operating segments are therefore determined on the same basis. Transmetro Corporation Limited's operation during the year related to operation of Hotels, Serviced Apartments, Inns and Theme Pubs.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics.

#### Basis of accounting for purposes of reporting by operating segments

##### Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

##### Unallocated items

The following items of income and expense are not allocated to operating segments as they are not considered part of the core operations of any segment:

- Distribution from trust;
- Depreciation and amortisation;
- Finance costs; and
- income tax expense.

The company has authorised share capital amounting to 50,000,000 ordinary shares of no par value.

Ordinary shares participate in dividends and the proceeds on winding up of the company in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

### a. Capital Management

Management controls the capital of the group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the group can fund its operations and continue as a going concern.

The group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

There have been no changes in the strategy adopted by management to control the capital of the group since the prior year. This strategy is to ensure that the group's gearing ratio remains between 30% and 60%.

The gearing ratios for the year ended 30 June 2011 and 30 June 2010 are as follows:

	<b>19</b>	<b>6,500,000</b>	<b>11,500,000</b>

Balance at the beginning of the year	(32,043)	(38,222)
Impairment loss (recognised)/utilised	4,625	6,179
<b>Balance at the end of the year</b>	<b>(27,418)</b>	<b>(32,043)</b>

Impairment losses recognised in the year relate to significant individual customers, which have been assessed as impaired under the consolidated group's accounting policy as detailed on Note 1(g).

Based upon past experience, the consolidated group believes that no impairment allowance other than as provided in these accounts is necessary in respect of trade receivables not past due.

The allowance accounts used in respect of trade receivables are used to record impairment losses unless the consolidated group is satisfied that no recovery of the amount owing is possible; at that point, the amount considered non-recoverable is written off against the financial asset directly.

- Increase in price of other listed securities by 5%	-	41,949
- Decrease in price of other listed securities by 5%	-	(41,949)

## NOTES - FINANCIAL STATEMENTS

The above interest rate and foreign exchange rate and price risk sensitivity analysis has been performed on the assumption that all other variables remain unchanged.

In managing interest rate and currency risks, the consolidated group aims to reduce the impact of short-term fluctuations on the consolidated group's earnings. Over the longer term however, permanent changes in foreign exchange and interest rates will have an impact on the result.

### Fair Values

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet are as follows:

Consolidated	2011 \$		2010 \$	
	Carrying amount	Fair value	Carrying amount	Fair value
Cash and equivalents	4,775,790	4,775,790	1,549,045	1,549,045

<b>Total</b>	<b>(2,194,589)</b>	<b>(2,194,589)</b>	<b>(9,770,755)</b>	<b>(9,770,755)</b>

### Basis for determining fair values

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments reflected in the table above.

### Non-derivate financial assets and liabilities

The fair value of cash, receivables, payables and short-term borrowings is considered to approximate their carrying amount because of their short maturity. The directors consider the carrying amount of long term borrowings recorded in the financial statements approximated their fair value.
