#### EXPLANATION OF RESULTS

Revenue for the year ended March 31, 2011 was approximately A\$1,463,000 (2010: Approximately A\$208,000). The significant increase in revenue was due to i) the new investment in the business of providing consultancy and management services to educational institutions since September 2010 in Zhuhai, China and ii) the continuous growth of its leasing and capital financing business in Beijing China.

Moreover, the loss attributable to the equity holder of the Company for the year ended March 31, 2011 was approximately A\$3,209,000 (2010: Approximately A\$2,633,000). The loss is mainly resulted from reduced fair value gain on financial assets through profit or loss and the share-based compensations granted to employees and consultants of the Company during the year ended March 31, 2011.

#### **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

##### **Note 3. Segment reporting**

The Group manages its business by divisions, which are organized by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has identified the following reportable segments:

- Investment holdings and administration
- Leasing and capital financing
- Property development
- Retailing
- Provision of service
- Provision of consultancy and management services to educational institutions

The management considers the business from both a geographic and product perspective. Geographically, the management operates the businesses in Hong Kong and Macao as investment holdings and the People's Republic of China (the "PRC"), which is further segregated into leasing and capital financing, retailing, property management, consultancy and management services to educational institutions.

The management assesses the performance of the operating segments based on the profit/loss for the year. This measurement basis excluded intra-group transactions and gain/loss on disposal of subsidiaries.

Segment assets include all tangible, intangible assets and current assets excluding the interests in subsidiaries, and inter-group current accounts.

Segment liabilities include all current and non-current liabilities excluding intra-group current accounts.

The segment information provided to the management for the reporting segments for the year ended March 31, 2011 is as follows:
