Appointment of Director

The Board of AnaeCo is pleased to announce the appointment of Mr Shaun Scott as a Non-executive director of the Company.

Mr Scott, a Chartered Accountant by profession, spent 6 years in senior executive roles, including a final term as Chief Executive Officer, with Arrow Energy prior to its acquisition in July 2010 by CS CSG (an entity owned jointly by Royal Dutch Shell and PetroChina). Prior to this he held a senior finance position with Energy Developments Limited. He has over 25 years of experience in upstream and downstream projects, mergers and acquisitions and finance in the resources and energy sector in Australia, Asia, and the United States.

Mr Michael Dureau, Chairman of AnaeCo said “Shaun’s experience with the rapid growth, commercialisation and highly successful development of Arrow Energy coupled with his knowledge of the waste treatment sector gained at EDL mean he is ideally suited to assist AnaeCo with its future development and commercialisation growth strategies.”

ENDS

About AnaeCo

AnaeCo delivers Alternative Waste Technology (AWT) facilities based on the patented DiCOM® bioconversion process. The system incorporates advanced sorting, recycling, anaerobic digestion and aerobic composting to recycle municipal solid waste (MSW) into renewable energy from biogas, agricultural grade compost and recyclables such as steel, aluminium, glass and plastics, thus ensuring maximum diversion from landfill and ensuring social, economic and environmentally sustainable management of MSW.

The DiCOM® process enables resource recovery intervention closer to source, with enhancement of existing waste transfer stations now a viable waste management option. AnaeCo's experienced team provides design, construction, commissioning, operation and maintenance services for DiCOM® AWT facilities, as well as management of all outputs including renewable energy, compost, recyclable materials and non-recyclable residuals.
