Dear Madam,

Presentation to Investors

I attached a PowerPoint presentation which is being delivered to investors.

For further information, contact Grant Kensington, Managing Director, on +61 2 9300 3310

Yours sincerely

Marcelo Mora
Company Secretary

pjn6098

AUGUR RESOURCES LTD

ABN 79 106 879 690

GLOBAL MINES PRESENTATION

July 2011

Justin Werner –Director

ASX: AUK

www.augur.com.au

Disclaimer

This material contains certain forecasts and forward-looking information, including regarding possible or assumed future performance, costs, production levels or rates, prices, resources, or potential growth of Augur Resources Ltd (Augur), industry growth, or other trend projections. Such forecasts and information are not a guarantee of future performance and involve unknown risks and uncertainties, as well as other factors, many of which are beyond the control of Augur.

Actual results and developments may differ materially from those expressed or implied by these forward-looking statements depending on a variety of factors.

No representation or warranty, expressed or implied, is made or given by or on behalf of Augur, any of Augur's directors, or any other person as to the accuracy or completeness or fairness of the information or opinions contained in this presentation and no responsibility or liability is accepted by any of them for such information or opinions or for any errors, omissions, misstatements, negligent or otherwise, or for any communication written or otherwise, contained or referred to in this presentation.

Accordingly, neither Augur nor any of the Augur directors, officers, employees, advisers, associated persons or subsidiary undertakings shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying upon the statement or as a result of any admission in, or any document supplied with, this presentation or by any future communications in connection with such documents and any such liabilities are expressly disclaimed.

Nothing in this material should be construed as either an offer to sell or a solicitation of an offer to buy or sell securities.

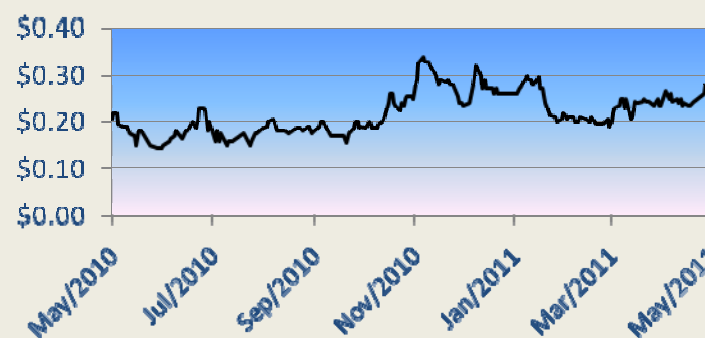

The information in this report that relates to Exploration Results or Mineral Resources is based on information compiled by Augur staff and approved by Mr Grant Kensington, geoscientist, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Kensington is a full-time employee of the Company who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Kensington has consented to the inclusion in this report of the matters based on his information in the form and context in which they appear.

Strategy

Commodity Focus:

Gold - Copper - Nickel

Area of Focus:

Indonesia

Strategy:

Explore and rapidly develop advanced projects with shallow, mineable resources in areas with favourable infrastructure.

Project Areas - Indonesia

Investment Highlights

Advanced Projects (Rapid Development)

- **Wonogiri:** 2,000m previous drilling; AUK 2,060m (10 holes) in 3 months (second rig mobilised)
- **Jampang:** 32,000m previous drilling; AUK 16,297m (140 holes) in a little over a year.

Excellent Logistics

- **Wonogiri:** 1hr flight from Jakarta to major city then 40 min by car (sealed road)
- **Jampang:** 4.5 hrs drive from Jakarta, 40km from major city/port

Shallow porphyry and epithermal targets

- **Wonogiri:** WDD01 – **59.1m** at **1.31 g/t Au** and **0.30% Cu** from **8.2m**
WDD05 – **105.5m** at **0.95 g/t Au** and **0.24% Cu** from **14.0m**
- **Jampang:** JARC51 - **7.0 m** at **2.51 g/t Au**, **6.04 g/t silver** and **0.39% Cu** from **9.0m**;
2.0 m at **8.63 g/t Au**, **1.05 g/t silver** from **32.0m**;
25.0 m at **3.92 g/t Au**, **5.2 g/t silver** and **0.40% Cu** from **83.0m**;
(incl **1 m** @ **66 g/t Au**, **22.5 g/t silver** & **1.76% Cu**);
8.0 m at **1.21 g/t Au** **7.3 g/t silver** and **0.68% Cu** from **124.0m**.

Strong board with excellent track record

- Discovered and developed numerous mine projects around the world
- Indonesian experience and track record

WONOGIRI PROJECT

ABN 79 106 879 690

GLOBAL MINES PRESENTATION

July 2011

ASX: AUK

www.augur.com.au

Wonogiri – Project Highlights

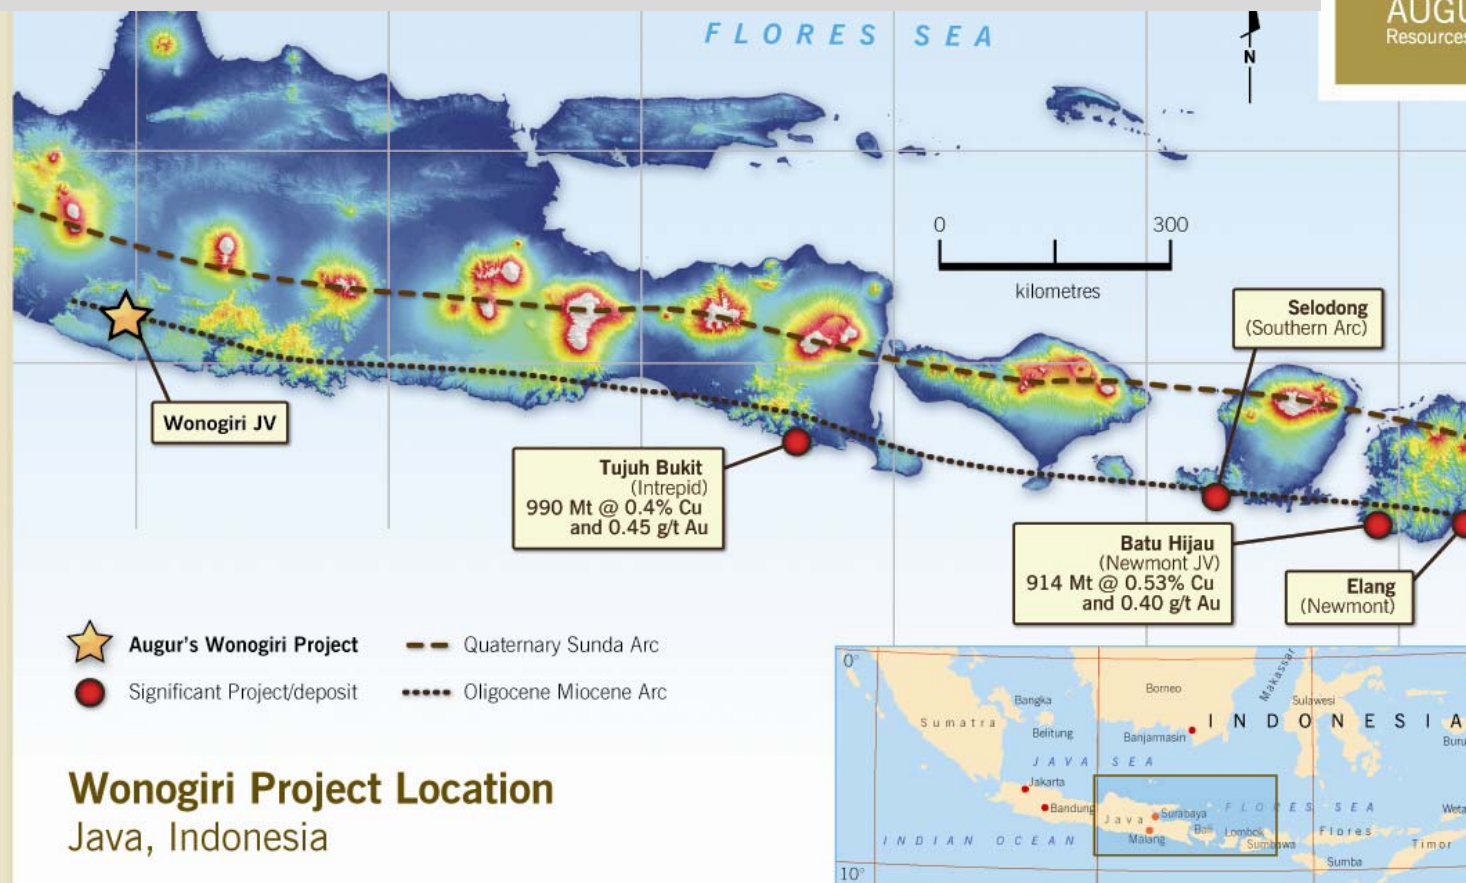

- **Advanced Exploration Project** - extensive database of recent work (2010) including:
 - geological mapping, geochemical sampling, ground magnetics and diamond drilling (5 holes)
- Previous drilling (PT Oxindo) intercepted **significant gold zones** including:
 - Hole DHH1 - **40m** at **1.12 g/t Au** and **0.29% Cu** and a further **15m @ 1.61 g/t Au** and **0.20% Cu**.
 - Hole DHH2 - **37m** at **1.77 g/t Au** and **0.24% Cu**
 - *Oxindo (MMG) were targeting porphyry copper mineralisation not gold*
- First AUK holes at Randu Kuning prospect intercepted **wide gold copper porphyry** intersections:
 - WDD01 – **59.1m** at **1.31 g/t Au** and 0.30% Cu from **8.2m**
 - WDD05 – **105.5m** at **0.95 g/t Au** and 0.24% Cu from **14.0m**
 - WDD08 – **218.5m** at **0.97 g/t Au** and 0.20% Cu from **40.0m**
- Randu Kuning prospect **remains open** to the **North, South, East** and at **Depth**.
- Over **2.3km of cumulative mineralised outcropping** with widths of up to **30m**, good potential to increase this length.

Wonogiri – Project Highlights

- Rock chip sampling by Augur has confirmed the presence of a large scale gold and copper system.
 - 18 samples from 52 rock chip samples returning greater than 1 g/t Au with **six samples** returning greater than **7 g/t Au**.
 - Maximum copper results of **2.89% Cu**.
 - Surface rock sampling by MMG returned up to **24.7g/t gold**
- **3,928 ha** of licence area with numerous prospects.
- **AUK can earn in 80%** through expenditure of **US\$3.5m** over 2 years, no up front payment.
- Excellent logistics approximately **30km from the major city** of Solo in Central Java
- Target: Shallow gold and copper-gold porphyry with peripheral high grade epithermal systems.

Wonogiri - Excellent Location

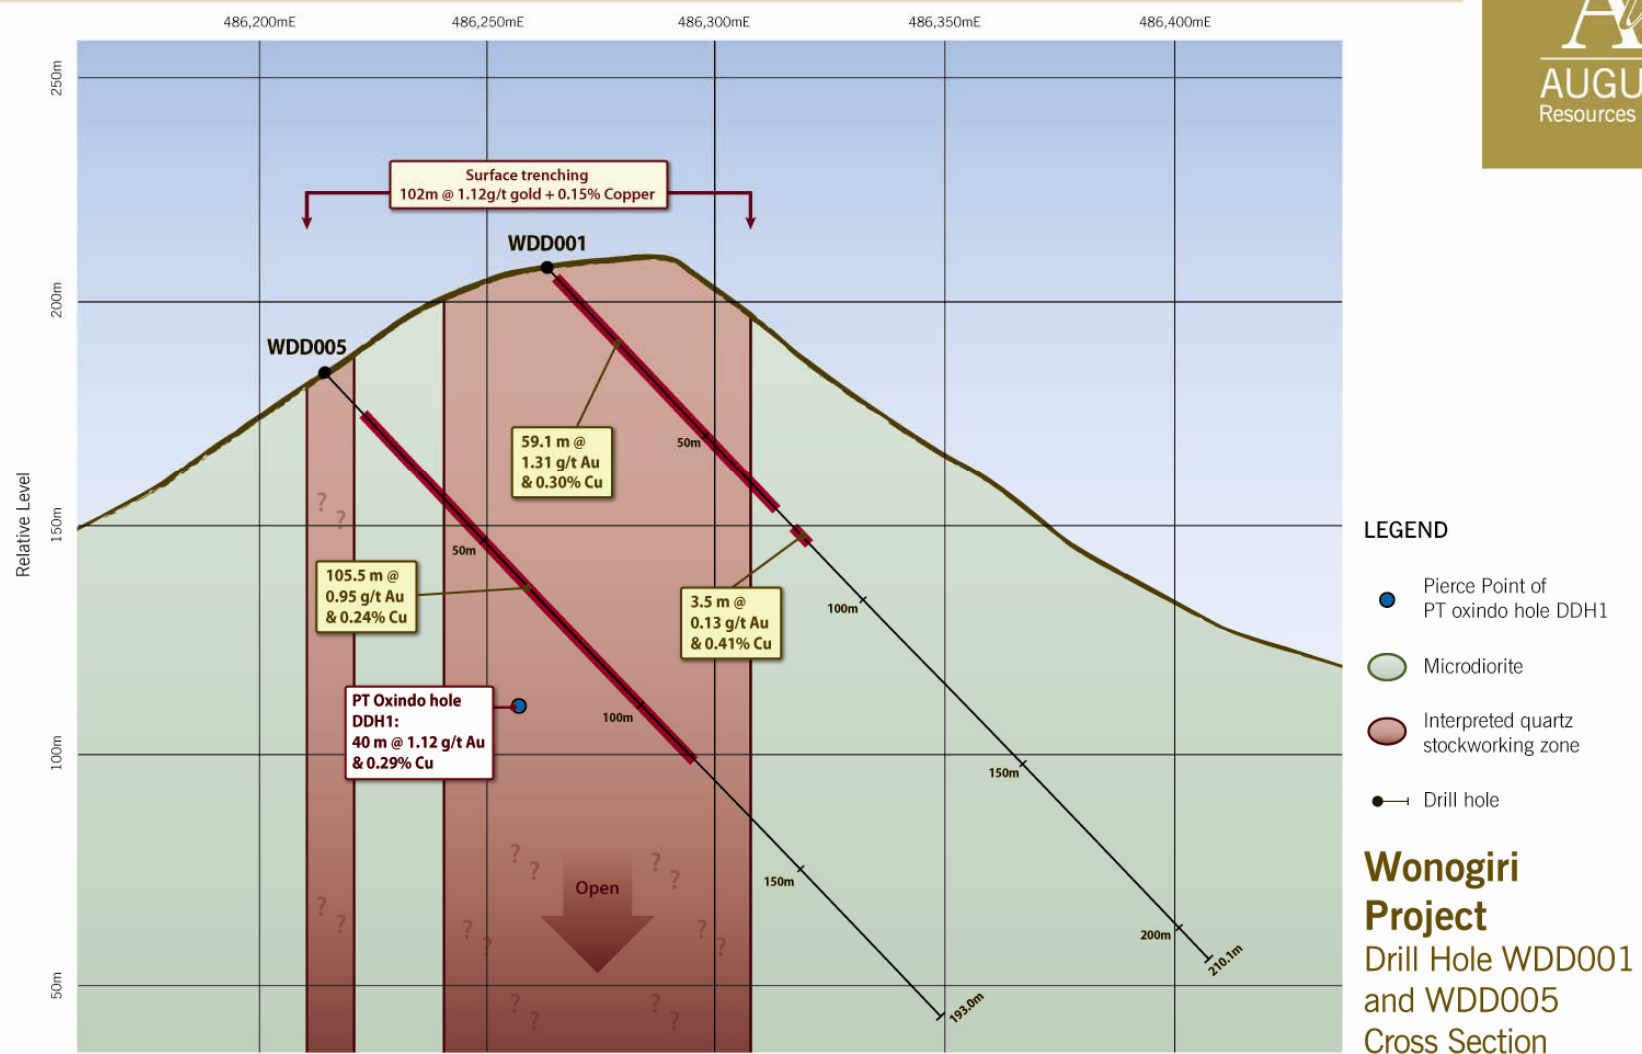

Erosion of Oligocene volcanic centres has resulting in the exposure of some near surface significant porphyry and epithermal systems in the Java to Sumbawa region

Wonogiri Project Location
Java, Indonesia

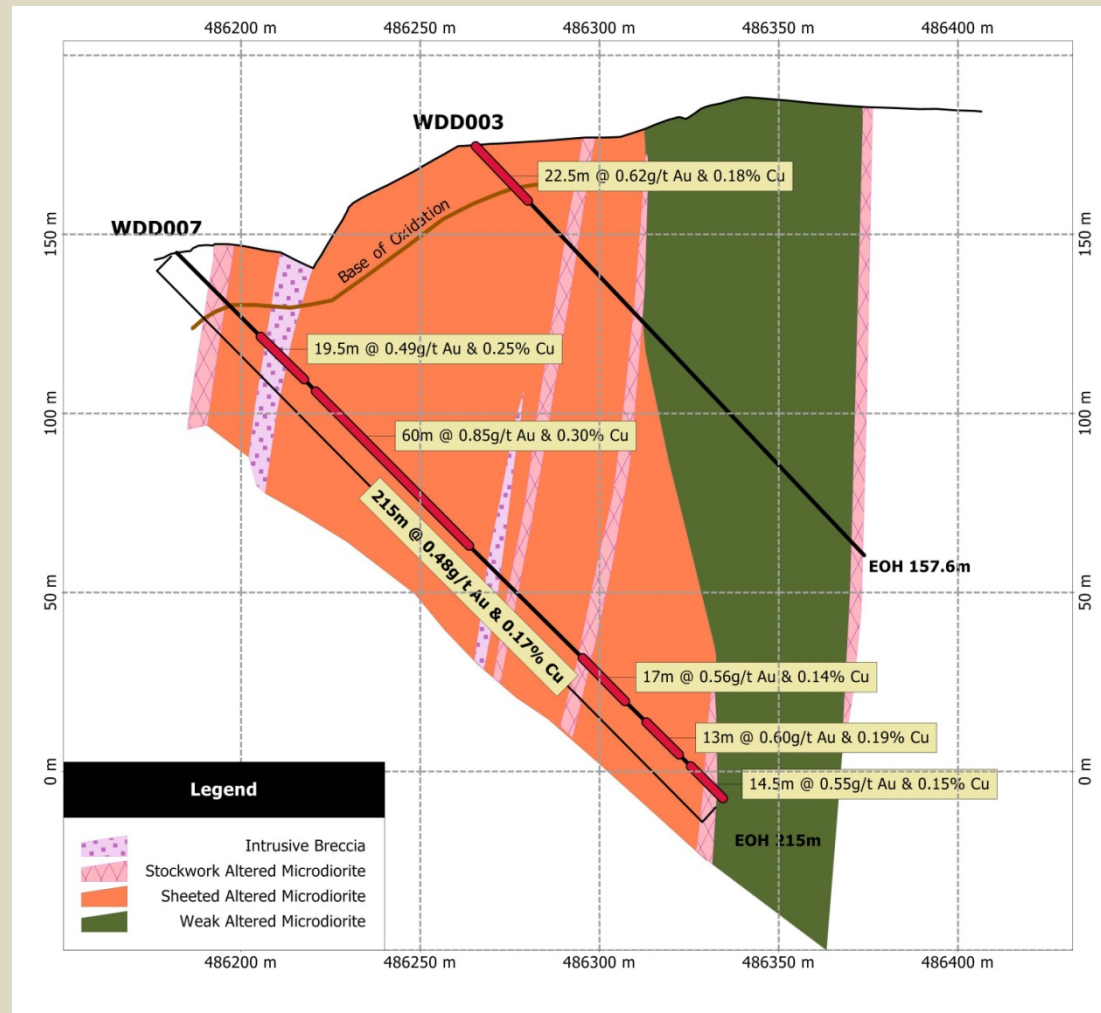

Wonogiri – Cross Section

Shallow vertical gold-copper porphyry body at Randu Kuning

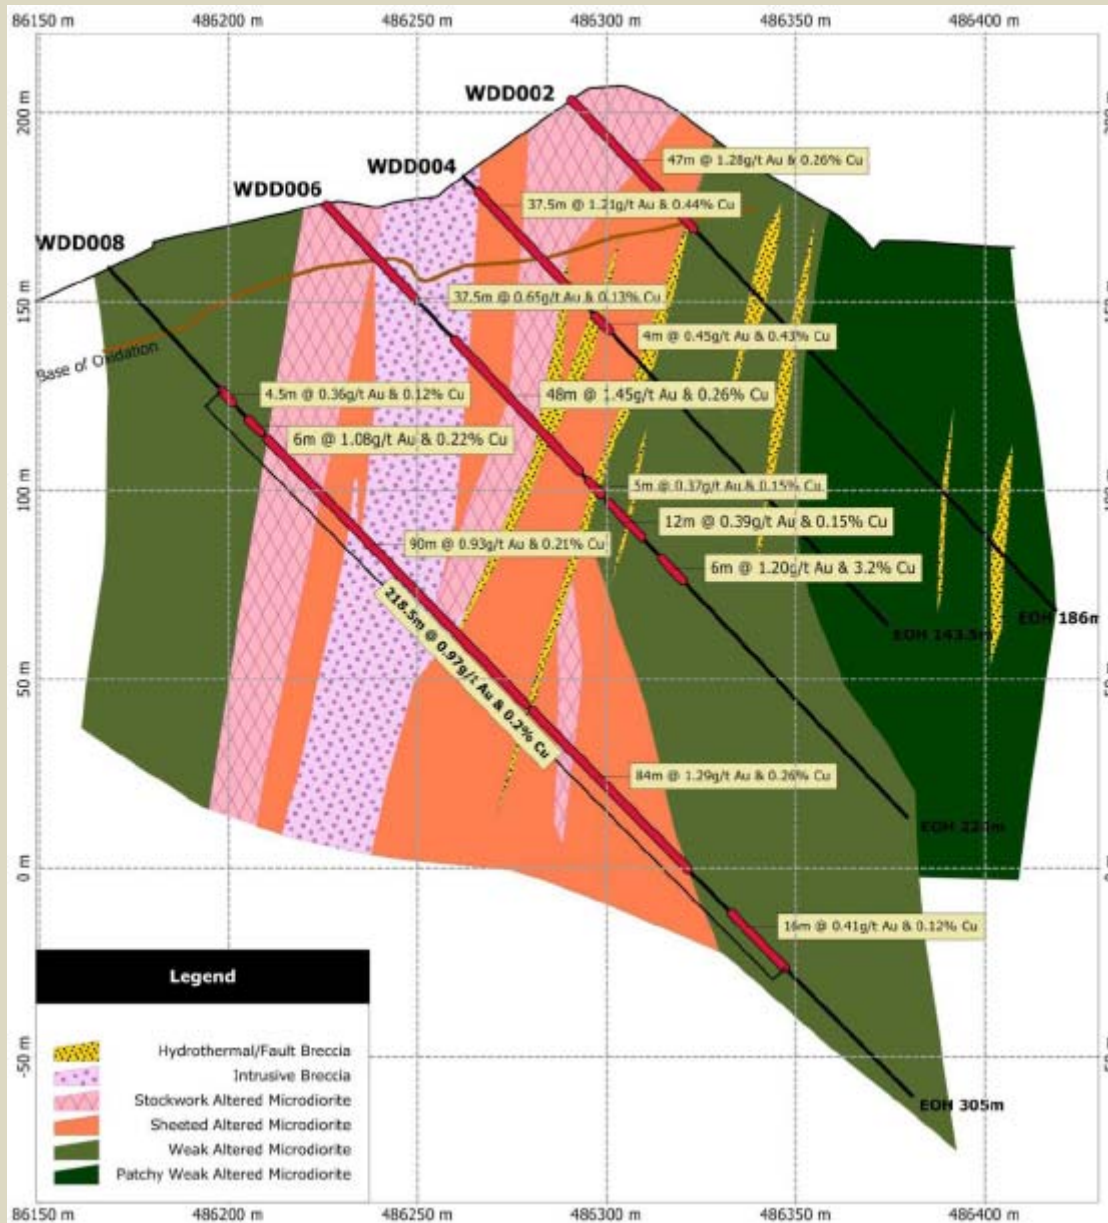

Wonogiri – Cross Section

Recent drilling indicates widening with depth

Wonogiri – Cross Section

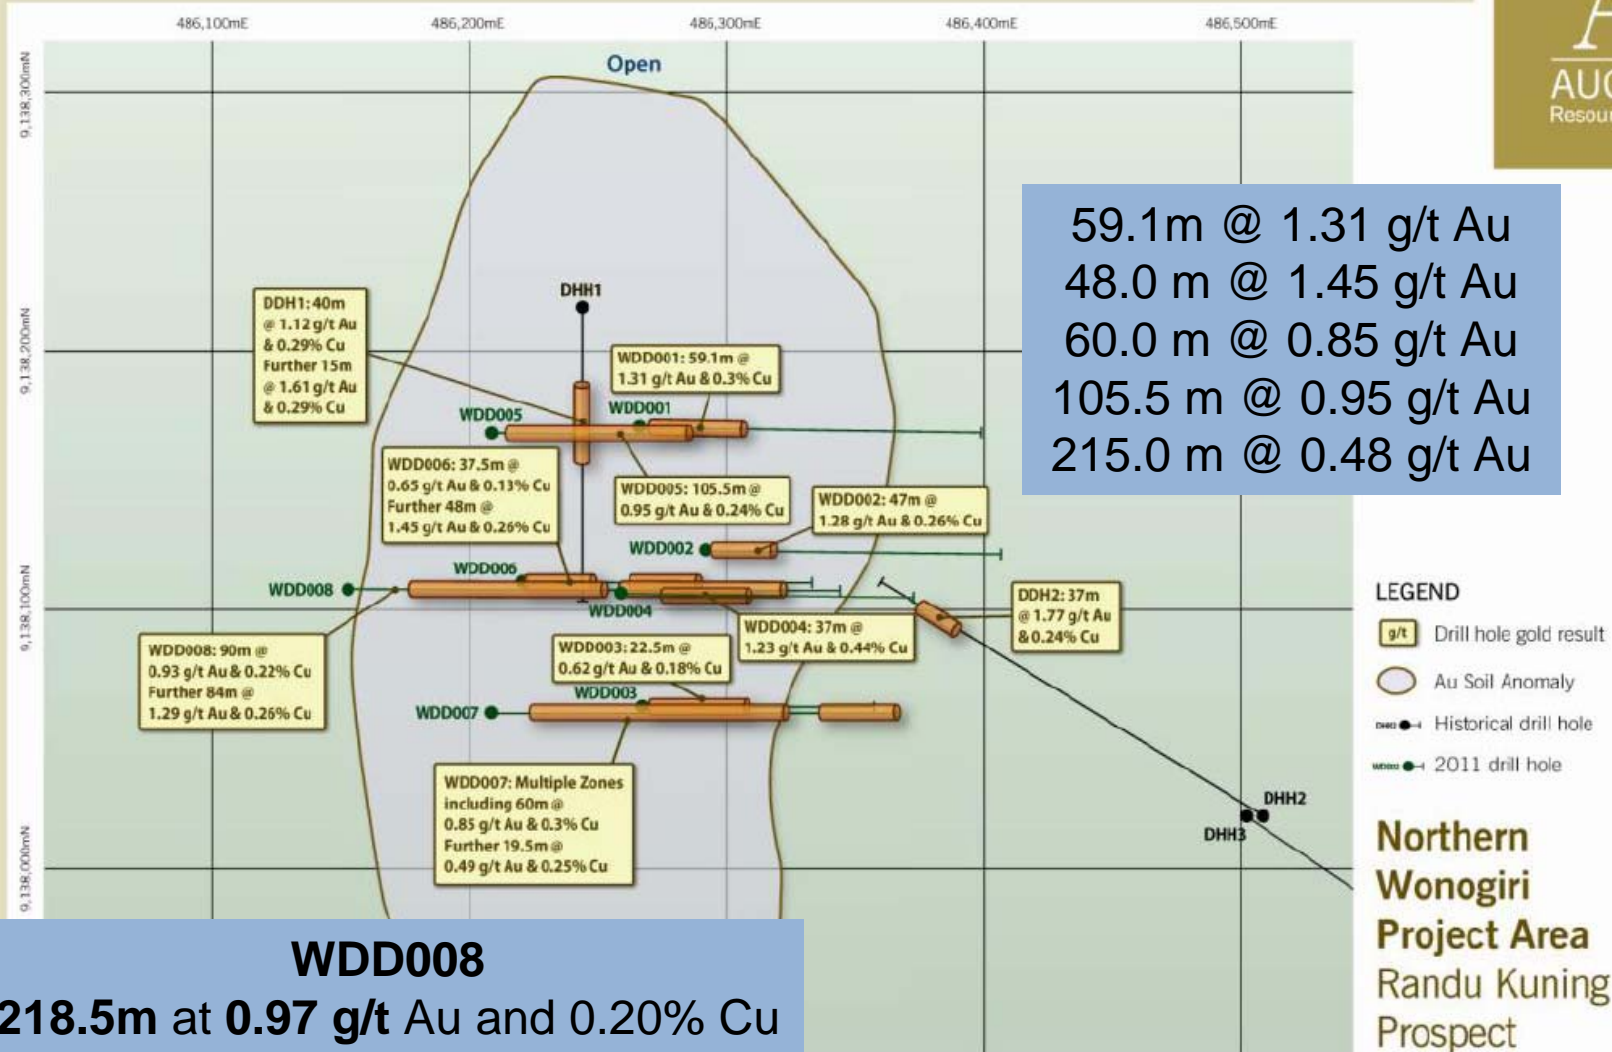

Recent drilling indicates widening with depth

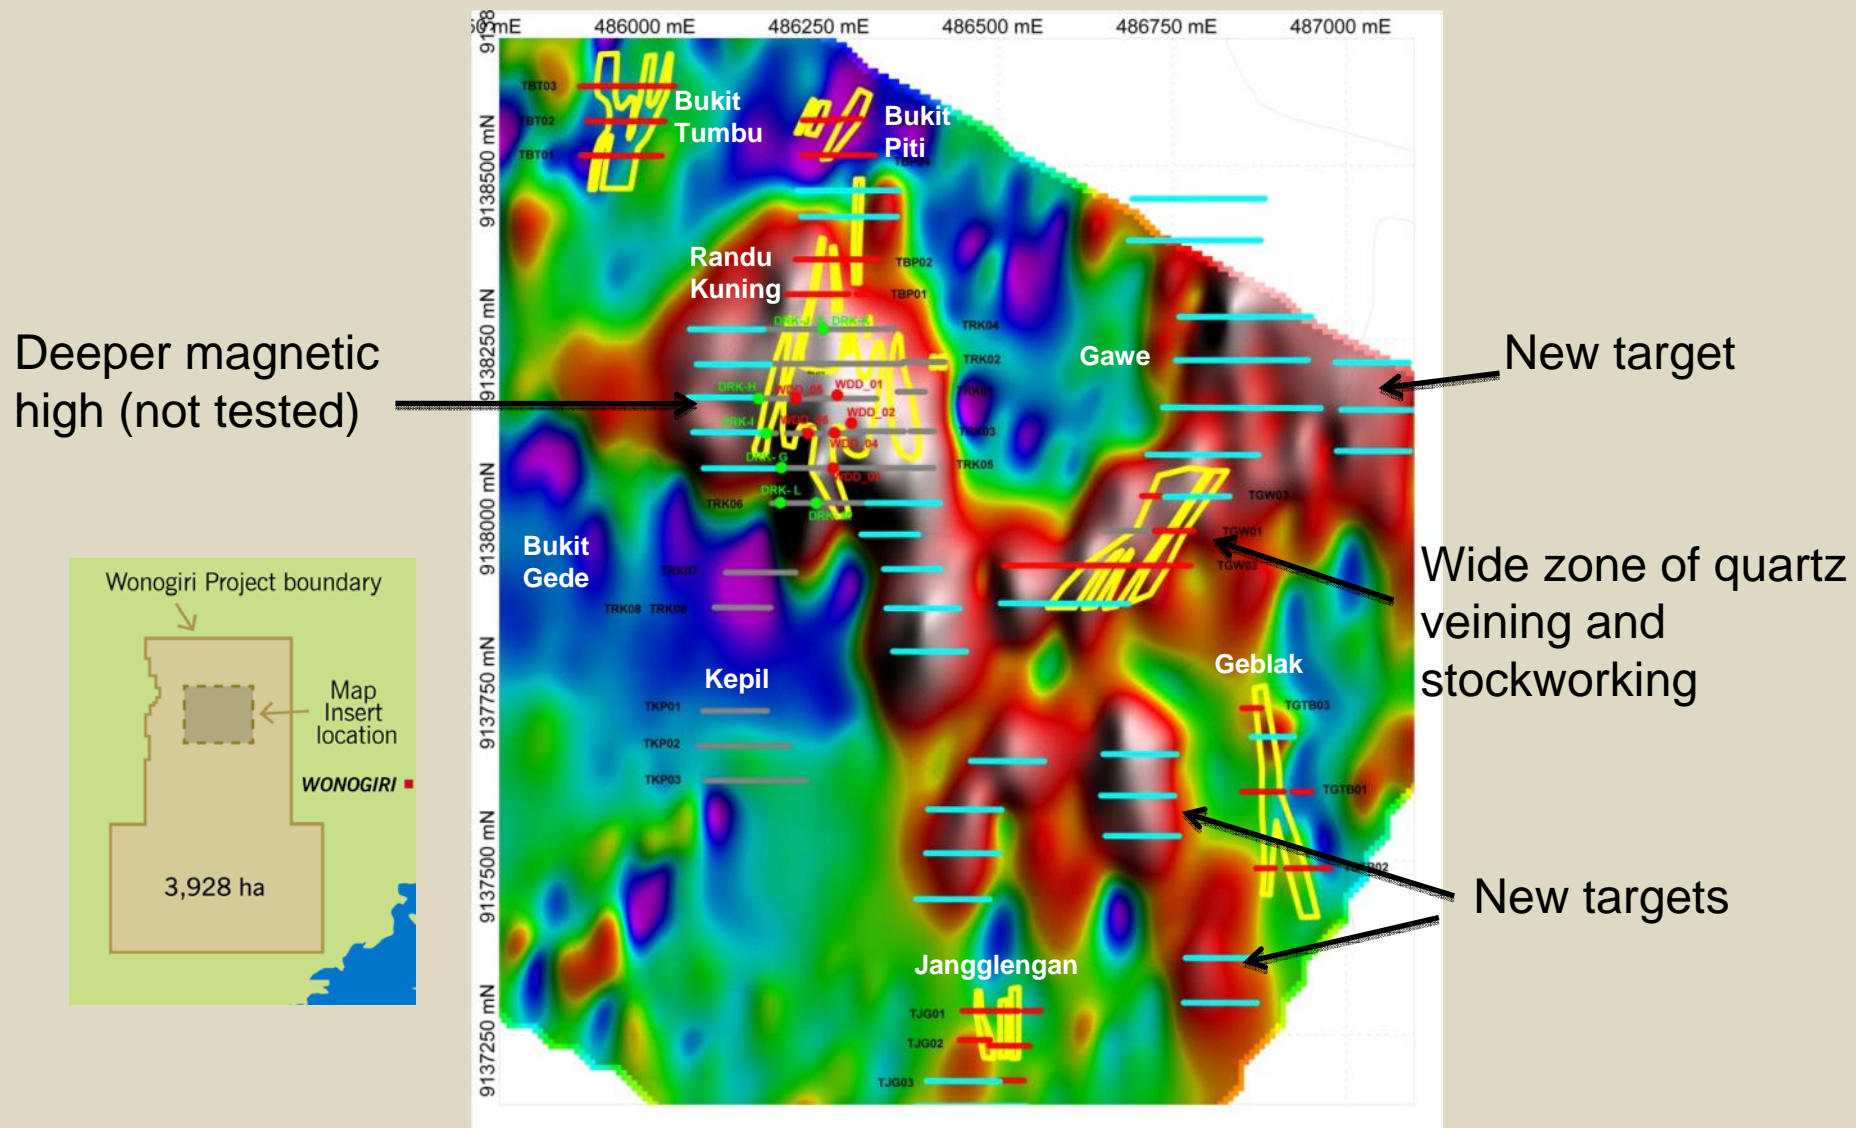

Cross section holes WDD002 ,
WDD004 , WDD006 and WDD008.

JAMPANG PROJECT

ABN 79 106 879 690

GLOBAL MINES PRESENTATION

July 2011

ASX: AUK

www.augur.com.au

Jampang - Location

Jampang Project - Highlights

- **Advanced** exploration project Mispec (Canadian listed company) undertook a significant drill program (**+32,000m**; 246 holes) between 1996-1998 and came up with an internal resource of 660,000oz, all zones were still open and a number of anomalies were untested (pulled out due to Bre-X).
- Augur currently completed 40 diamond drill holes and 100 Reverse Circulation holes (16,297m) , confirming previous Mispec results in the Lipi zone.
- **Multiple** parallel mineralised zones with **significant copper** intersected in holes such as JARC51:
 - **7.0 metres** at **2.51 g/t gold**, **6.04 g/t silver** and **0.39% copper** from 9 metres depth and a further;
 - **2.0 metres** at **8.63 g/t gold**, **1.05 g/t silver** from 32 metres depth and a further;
 - **25.0 metres** at **3.92 g/t gold**, **5.2 g/t silver** and **0.40% copper** from 83.0 metres depth (including **1 metre** at **66 g/t gold**, **22.5 g/t silver** and **1.76% copper**) and a further;
 - **8.0 metres** at **1.21 g/t gold** **7.3 g/t silver** and **0.68% copper** from 124 metres.

Jampang Project - Highlights

- **Wide** Intersections up to **40m width** from **shallow depths** such as JADD40:
 - **43.0 metres** at **1.62g/t gold** and **0.84% copper** from just 27m
- The Lipi zone remains **open** to the **North, South** and at **depth**, current drilling over 600m in strike length, potential to increase to over 1,000m
- Geophysics has identified **10** anomalies with only **3** of these being previously tested.
- Recent broad spaced drilling of the West Lipi anomaly only 150 meters to the west of the Lipi zone has intersected strong zones of gold +/- copper including:
 - JARC068: **14.0 metres** at **1.18 g/t gold** and **0.98% copper** and **22.8 g/t silver** from 84.0 metres.
 - JARC054: **6.0 metres** at **3.75 g/t gold** and **0.13% copper** from 84.0 metres, ending in mineralisation.
- Excellent logistics and infrastructure only 150km south of Jakarta, sealed road access, 20km from Pelabuhan Ratu where a new power station is being built.

Jampang – Results

HOLE	From (m)	To (m)	Interval (m)	Gold (g/t)	Silver (g/t)	Copper %
JADD2	63 79	66 86	3 7	5.99 3.09	2.52 16.1	0.25

Jampang – Geophysical Targets

Puteran Simpang

(includes from historical drilling)

JRC183 133m @ 1.85 g/t Au

JRC219 118m @ 3.16 g/t Au

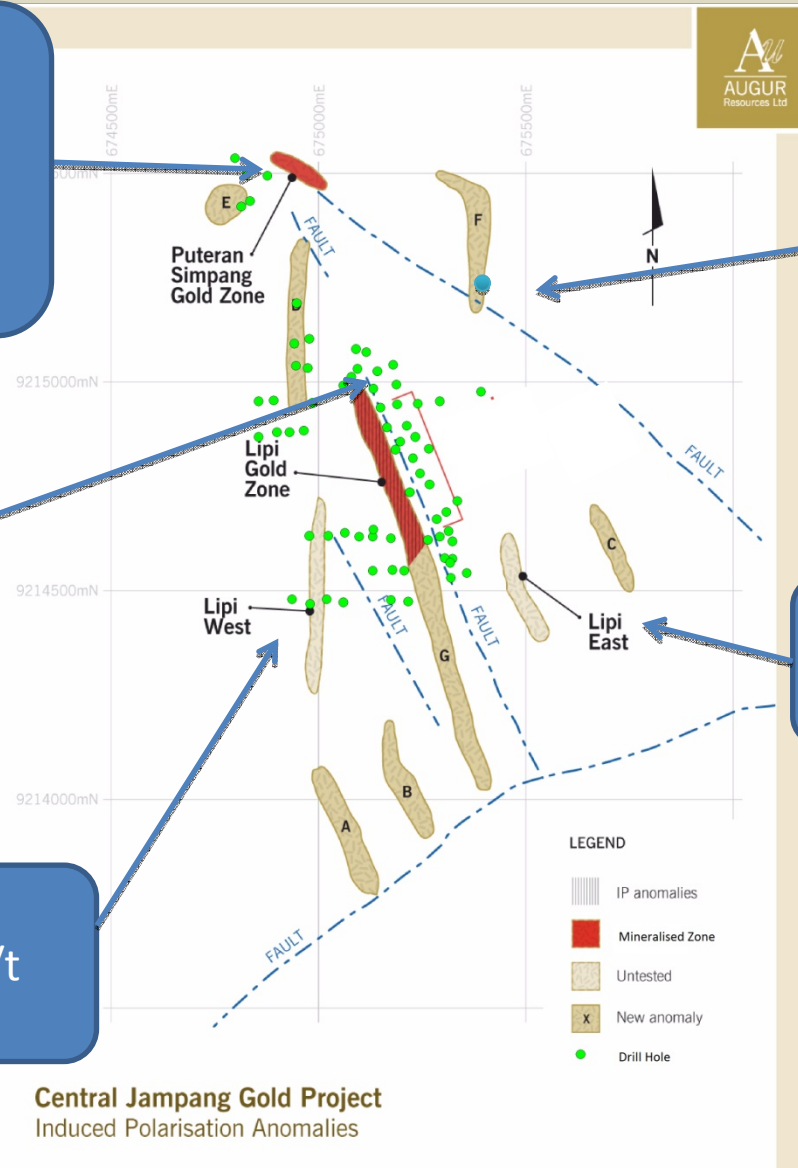

JRC91 28m @ 1.44 g/t Au

Lipi North
Augur discovery
10m at 7.47 g/t
gold

Lipi West
8m @ 5.6 g/t
gold

Rock chip
3.5 g/t gold

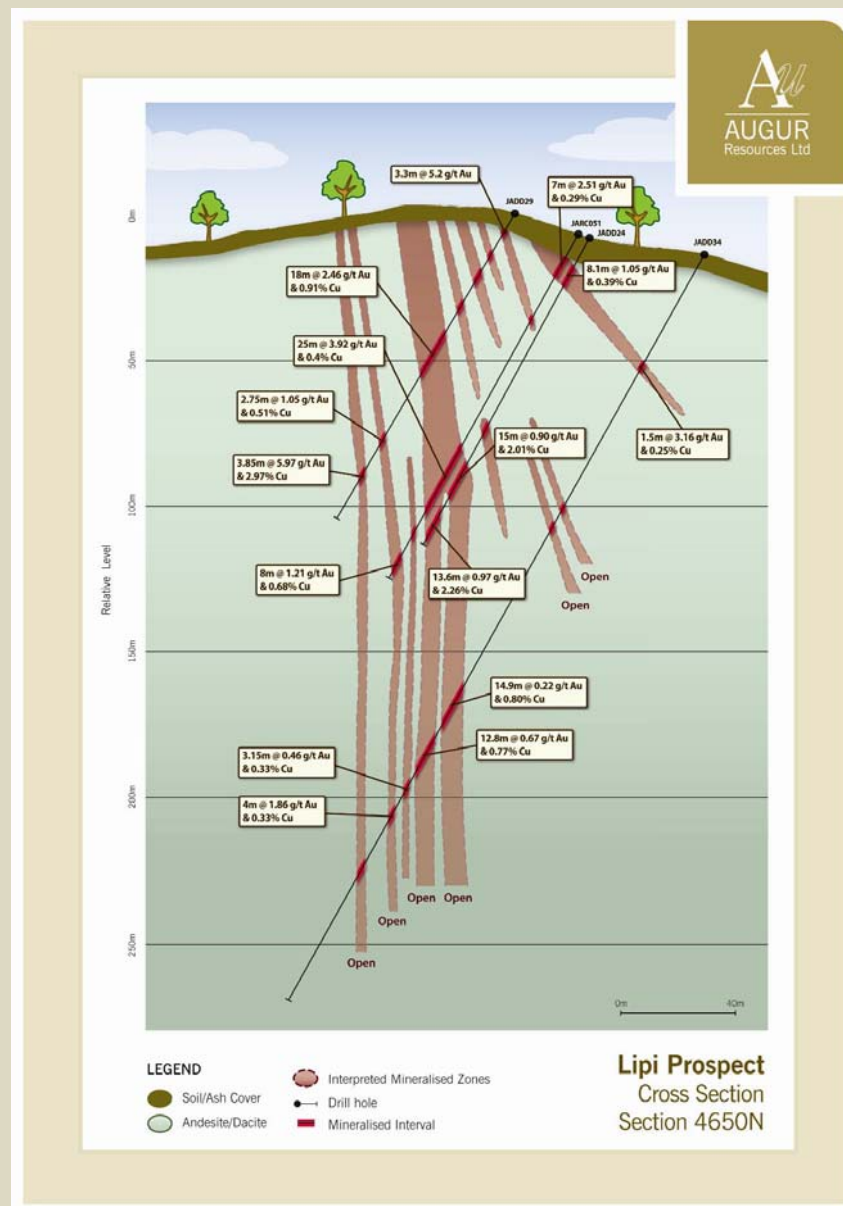

Lipi East
Only 1 hole drilled
3m @ 1.02 g/t gold

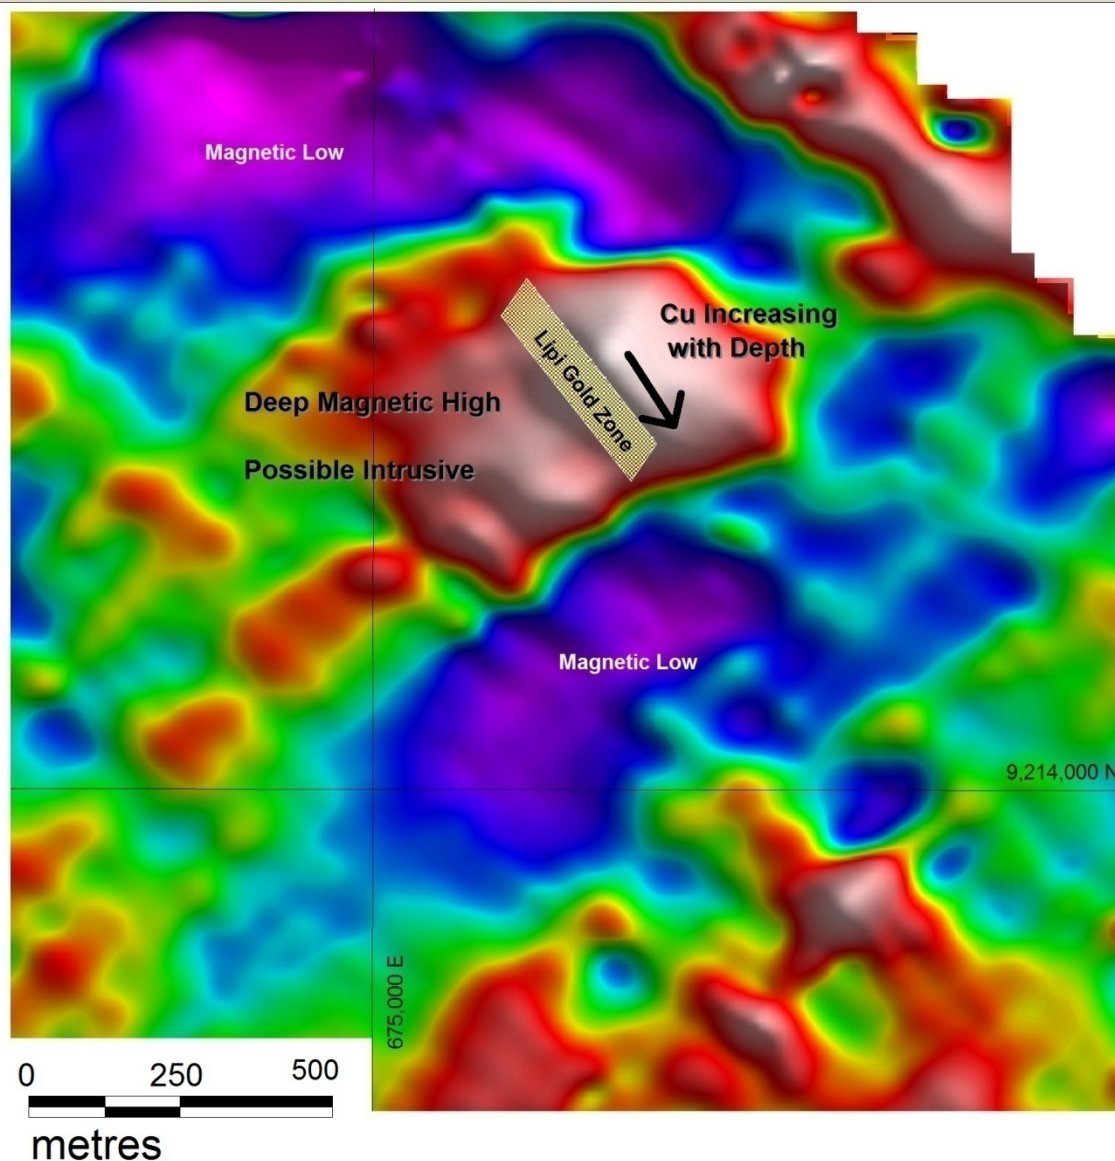

Jampang – Additional Targets

- Gold mineralisation at Jampang is reported to be coincidental with geophysical anomalies.
- Regional drill testing of geophysical targets underway.
- Lipi West best results to date:
 - **14m at 1.18 g/t gold and 0.98% copper**
 - **8m at 5.6 g/t gold**
 - **6m at 3.75 g/t gold**
- North Lipi best results to date:
 - **10m at 7.47 g/t gold**
- Potential for increase in resource.

Jampang – Cross Section

JAMPANG – Additional Targets

Jampang – Deposit Area

Near Surface (zones <10m from surface)
Thick supergene gold mineralisation
Copper credit expected

Lipi Gold Zone

No Forestry Issues
Mining Licence covering
Lipi in place

Jampang – Deposit Area

LIPI NORTH ZONE

Gold bearing zone at surface

Drilling near this zone JADD8 10m @ 7.47 g/t gold from 73m

Jampang - Infrastructure

ASX: AUK

www.augur.com.au

AUK – Moving Forward

WONOGIRI

- 40% completion of a 17.19 km² geomagnetic survey targeting magnetic highs which may be indicative of further mineralisation
- Second diamond drill rig mobilised to continue resource definition drilling at Randu Kuning prospect
- RC program developed with aim of commencing drilling of epithermal targets by mid 2011
- Representative core samples sent to lab in Perth for initial metallurgical test work

JAMPANG

- Completion of RC program August 2011 and review of results
- Final metallurgical results
- Negotiation and acquisition of surrounding prospective properties

AUK – Why Invest ?

- Early entry into two advanced gold +/- copper projects in significant mineralised belt in Indonesia
- Shallow mineralisation
- Diversified projects
- Actively advancing projects. Two drill rigs on Wonogiri and drilling additional targets at Jampang
- Under the radar company with undervalued projects
- Projects well supported by infrastructure and not impacted by protected forest issues
