

## SALE OF EAST KIMBERLEY TENEMENTS

- East Kimberley tenement interests sold to Panoramic Resources for \$0.36M
- BRW continues to sharpen its focus on priority nickel and copper assets

Breakaway Resources Limited (ASX:BRW – **Breakaway**) is pleased to advise that it has signed a Sale Agreement with Pindan Exploration Company Pty Ltd (**Pindan** - a wholly owned subsidiary of Panoramic Resources Pty Ltd (ASX: PAN), whereby Pindan will purchase all of Breakaway’s tenement interests in the East Kimberley region of Western Australia for \$0.36M (cash) upon completion of the sale process.

It is expected that completion of the sale process will occur within 7 – 10 days from the date of this announcement.

Breakaway’s tenement interests subject to the Sale Agreement comprise an 80% interest in EL80/2836 (Keller Creek) and a 10% free carried interest in EL80/3673 (Sophie Downs). Keller Creek is located immediately west of Panoramic Resources’ Savannah Nickel Mine and has been previously explored for nickel by Breakaway under the auspices of the East Kimberley Joint Venture with partner Thundelarra Exploration Limited (ASX:THX). Sophie Downs is located north of Halls Creek and is being explored by Thundelarra for silver, lead and zinc mineralisation (see *Figure 1*).

The sale of the non-core tenement interests is consistent with Breakaway’s previously announced strategy of rationalising its extensive Australian minerals portfolio, and allows the Company to continue sharpening its focus on core nickel sulphide exploration projects located in the Leinster District, Western Australia and the Eloise copper exploration project located in the Cloncurry District, Queensland.

Breakaway will advise the market upon completion of the sale process.

### About Breakaway Resources Limited:

Breakaway Resources aims to become one of Australia's leading mining and exploration companies with exploration focussed at our priority Wildara and Miranda Projects (nickel) within the Leinster district of the North Eastern Goldfields of Western Australia and the Cloncurry District (copper – gold) of North West Queensland; two areas that we believe offers the most attractive opportunities for future success.

Our objectives are the discovery and development of a high-quality stand alone mineral deposit and maximisation of shareholder wealth for non-priority assets.
