## The Company

---

### Corporate history

1954 - Longreach Oil Limited was incorporated in NSW as an oil and natural gas exploration company. It is a public company listed on the Australian Securities Exchange. In 1988 the company changed its name to Longreach Gold Oil Limited.

1993 - subsidiary, South Pacific Pty Ltd, acquired an interest in an oil licence in Myanmar.

1994 - Longreach Oil applied for an Exploration Licence in Victoria, prospective for gold and also entered into a diamond exploration joint venture project in Russia.

1995 - Overseas Petroleum Investment Corporation (OPIC) farmed into the oil project in Myanmar for US\$5 million to earn a 50% interest. Joint venture terminated after two wells were drilled.

2001 - November - the company's name reverted to Longreach Oil Limited (ASX code remains LGO).

2001 - December - Longreach Oil acquires a 20% equity interest in Brisbane Petroleum N L.

2002 - Longreach Oil was involved in the drilling of the Carlston #1 well in the Carnarvon Basin, W.A. and earned an initial interest in three Exploration Permits.

2003 - Longreach Oil applied for an "hot rock" Licence in NSW, which was granted in early 2004.

2004 - October - Drilling by Enterprise Energy N L commenced on Yellowbank Creek #4 well - PL 18, QLD.

2004 - December - Application made for a further oil exploration area in the Surat Basin, QLD - granted - APT-755.

2005 - February - Exploration Permit 439, onshore Carnarvon Basin, W.A. - granted to joint venture.

2005 - May - A new subsidiary, Offshore Oil Pty Ltd, was incorporated for the purpose of acquiring overseas oil projects. Name changed in 2009 to Offshore Oil (China) Pty Ltd.

2006 - March - AusTex Oil Ltd incorporated for the purpose of re-working oil wells in the USA. Longreach's initial equity interest 25%.

2007 - January - Petroleum Exploration Permits in W.A. applied for - EP-460 and EP 461 granted to joint venture in early 2008.

2008 - January - LGO's shareholding in AusTex Oil Ltd (AOK) exceeded (10%) after IPO raised \$20 million and AOK was listed on the ASX.

2008 - February - 20% interest acquired in uranium joint venture project in Burkina Faso.

2008 - Star Finch #1 well, EP-460, and Lake Macleod #1 well, EP-461, W.A. drilled by farm-inees, which were plugged and abandoned.

2009 - Offshore Oil Ltd incorporated for the purpose of proceeding to an IPO; jointly promoted by Longreach Oil and Southern Cross Exploration N L.

2009 - EL-6212 - NSW - Hot Rocks area - Licence renewal application over part of southern portion of the lease.

2010 - EP-439 - W.A. (Carnarvon Basin) - Farm-in by Lion Petroleum Pty Ltd.

2010 - PL-280 - QLD (Surat Basin) - Petroleum Lease granted for 21 years.

2010 - November - EL-6212 (Hot Rocks - NSW) renewed till March 2013.

2011 - Longreach Oil acquires a 20% interest in Longreach Oil (International) Ltd.

### Corporate aims & objectives

The company's broad objectives are as follows:

1. To create shareholder wealth through capital growth.
2. To be a world explorer and a good corporate and world citizen; to play an effective role in exploring and developing oil, natural gas and energy projects in Australia and elsewhere in the world.
3. To take up investment opportunities by acquisitions, and to enter into joint ventures or mergers with entities having similar objectives.
4. To promote free enterprise; to assist the exploration and mining industry in the elimination of impractical regulations and controls which impact on development of essential resources.

## Directors' Report - 2011

---

Your Directors present the 58th Annual Report for the year ended 30 June 2011.

### Financial

The operations of the consolidated entity resulted in a loss of \$477,898 after including significant items of \$295,270.

After partially writing back a previous re-valuation of unlisted shares and writing down share investments in the Fair Value Reserve, the total comprehensive loss was \$2,818,538.

The Company's share capital increased by \$683,500 following the issue of 60 million shares.

There are currently 510 million shares on issue. Net Assets as at 30 June 2011 were \$3,748.169.

### Investments

Longreach held several strategic parcels in listed companies. A substantial shareholding is also held in the unlisted public company, Brisbane Petroleum Ltd, which holds Petroleum Leases in Queensland with significant oil resources.

Longreach holds 10,000,000 Founders' Shares in Offshore Oil Ltd.

### Energy Interests

Current oil and gas and renewable energy interests are described below and in the Exploration and Mining Interests Schedule.

#### - Oil & Gas

Longreach Oil has direct interests in oil and gas joint ventures. It also has indirect interests in oil exploration and production through its shareholdings in other companies.

A new company (with an old name), Offshore Oil Ltd (OLI) was incorporated in 2009 to acquire equity interests in Australian and overseas oil companies and to participate in oil and gas and energy joint ventures.

The raising of Seed Capital for Offshore Oil Ltd is now being refreshed at 10/20 cents a share, whilst the proposed I.P.O price remains at \$1.00.

In due course, it is intended that shareholders of the promoting companies, Longreach Oil and Southern Cross Exploration N L will have priority entitlement in the I.P.O.

### Exploration Projects

#### Oil & Gas

#### QUEENSLAND - Surat Basin (Onshore)

##### *Petroleum Lease 280*

P.L. 280 - which comprises 90 sq. kms (about 22,000 acres) - was granted by the Queensland Government on 1 August 2010 for a period of twenty-one years (21 years) to the joint venture comprising Brisbane Petroleum Ltd (BPL), an unlisted public company - 50%, and Longreach Oil - 50%.

Longreach Oil also holds a 20% equity interest in Brisbane Petroleum Ltd.

There have been several oil and gas producing wells in the area now covered by PL 280 and on the other leases held by BPL. Reports of estimated recoverable oil reserves have been updated in the last 2-3 years.

The oil discoveries were in the *McWhirter* field, with estimated recoverable oil of up to 600,000 barrels - and the *Beardmore* field, with up to 800,000 barrels of recoverable oil.

The McWhirter No. 1 well was shut-in some years ago, when oil production dropped to around 30 barrels/day, which was considered uneconomic as the oil price at the time was around \$15 per barrel.

Longreach Oil and Brisbane Petroleum plan to re-enter this well as soon as practicable. A 3D seismic survey on the area is proposed.

The granting of this Petroleum Lease was an important step for Longreach Oil, in view of the prospectivity of the Surat Basin generally and the potential for oil and gas discoveries in the specific area covered by PL 280, where commercial oil discoveries have already been made.

## Directors' Report - 2011

---

### Exploration Projects

#### Oil & Gas (cont'd)

##### **QUEENSLAND - Surat Basin (Onshore)**

###### ***Petroleum Leases No. 18 and No. 40***

Brisbane Petroleum Ltd holds 50% in each of these Petroleum Leases. Brisbane Petroleum has one oil well currently on production in P.L. 18 - which adjoins P.L. 280 - and during the year, 1,230 barrels of oil were produced from that well.

Both the Narrows-1 and Louise-2 wells in PL 40 remained shut-in for the whole year. As the wellsites have now finally dried out sufficiently after major flooding, a pump jack and storage tank are being moved back onto the Narrows-1 wellsite, to put this well on pump.

Previous material balance studies of the oil fields within these leases have indicated that there are in the order of 3.7 million barrels to 6.4 million barrels of Remaining Recoverable Oil Reserves.

##### **WESTERN AUSTRALIA**

###### ***Onshore Carnarvon Basin - EP-439, EP-460 and EP-461 - Oil and Shale Gas***

These permits, which are held in a joint venture with Empire Oil & Gas N L and several other companies, are still under-explored. Longreach Oil currently holds an 11.33% interest in EP-439 and EP-461 and an 11.69% interest in EP-460.

In April 2011 the joint venture was advised by a proposed farminee that it was not proceeding with the farm-in and the proposed drilling of a well in EP-439, as it had not received environmental approvals in a reasonable timeframe.

Exploration prospectivity for shale oil over the three areas is now being examined. Significant shale deposits have been identified in the Perth Basin which may extend into the South Carnarvon Basin.

Of course, any discovery, be it oil or shale gas, in any of the three permits could produce substantial benefits for the Company and all joint venturers.

### **Renewable Energy - New South Wales**

#### ***Hot Rocks (Group 8 Minerals) - Geothermal Substances - EL 6212 (Sydney)***

Exploration Licence 6212, located in the Southern part of the Sydney Basin covering an area of approximately 1,390 km<sup>2</sup> in the Campbelltown-Bowral-Wollongong region, was renewed in November 2010 until March 2013.

This Exploration Licence targets hot-rocks for potential electricity generation. The joint venture has already conducted gravity surveys and that data and other geological data is being reviewed to define possible drilling targets.

Longreach Oil has 50% of this Exploration Licence and Hot Rock Energy Pty Ltd holds the other 50% interest and is Operator.

#### **Uranium - Burkina Faso, West Africa**

Longreach Oil may still be entitled to an interest in two uranium Exploration Permits in Burkina Faso, West Africa. Expenditure on this project has been written off.

### **Coal**

#### ***New South Wales***

Longreach Oil has a shareholding interest of 20% in a private company which was applying for coal exploration areas in New South Wales. Due to changes in Government policy, decisions regarding the status of these exploration interests cannot be precisely determined at present and the Company has written down this investment in the Fair Value Reserve.

#### ***Indonesia***

In 2009, the Company invested in a coal mining project in Kalimantan via acquisition of an interest in an overseas company, with rights to share a fixed sum per tonne of coal sold after sales commenced.

For various reasons, mining operations and sales of coal have not commenced and participation in this project is being reviewed. The Company has made a provision in respect of this interest.

## Directors' Report - 2011

---

### Directors

On 7 October 2011, Ms Emma Mcpherson resigned as a Director and Mr Bruce David Burrell was appointed as a non-executive Director of the Company.

Mr Burrell is an experienced Company Director, Company Secretary, as well as an accountant. He is a long-serving Director and the Company Secretary of the ASX-listed company Sunvest Corporation Ltd. He is the Company Secretary of ASX-listed company Bucaneer Energy Ltd and the Executive Chairman of the unlisted public company, Starlight Holdings Ltd. Recently, he became a non-executive Director of Chapmans Ltd.

Mr Burrell holds a Master of Business Administration degree and is a Fellow of CPA Australia.

### International Operations

Longreach Oil also agreed to acquire a 20% interest in a private company, Longreach Oil (International) Ltd (incorporated in Hong Kong) with the objective to participate in resource joint ventures with companies from Hong Kong and mainland China.

### Future Operations

Longreach Oil proposes to develop its Queensland and Western Australian exploration interests and will continue to seek prospective exploration and/or mining projects in Australia and overseas, concentrating mainly on Coal, Oil and Gas and Energy.

### Proxy

A Proxy for the Annual General Meeting to be held on Tuesday 29 November 2011 is enclosed with this Annual Report. The continued support of shareholders will be appreciated.

B Ganke  
Director

Sydney

25 October 2011

## Directors' Statutory Report - 2011

---

Longreach has been listed as an oil and gas exploration company for more than 50 years (originally on the Sydney Stock Exchange).

### 1. Review of operations

The operations of the group were principally participation in the group's current joint venture exploration projects, as well as examining possible acquisitions of new projects for exploration and investment.

### 2. Results of operations

The operations of the consolidated entity during the year resulted in a loss of \$477,898.

### 3. Significant changes

Significant changes in the state of affairs of the consolidated entity were:

Investment in Brisbane Petroleum Ltd (BPL) has been written down by \$1,650,000 to Fair Value Reserve, based on the latest available share issue price of BPL shares of 20 cents, pending a re-valuation of interests in three Petroleum Leases in the Surat Basin, Queensland.

Investment in a private company written down by \$570,000 to Fair Value Reserve, pending confirmation of the status of its coal exploration interests in New South Wales.

Provision for loss of \$190,000 made regarding investment in an overseas private company with coal mining interests in Indonesia, pending confirmation of the status of its interests.

The issue of 60 million shares during the year at an average price of 1.14 cents per share.

### 4. Principal activities

The company's principal objectives have been to explore for oil, gas and energy resources.

An application for a Petroleum Lease in the Surat Basin, Queensland, was granted for 21 years to LGO in a 50/50 joint venture with Brisbane Petroleum Ltd. A renewal of an Exploration Licence in New South Wales for Hot Rocks (geothermal) was also granted to LGO, in a 50/50 joint venture with Hot Rock Energy Pty Ltd.

The Company's main focus remains on oil, gas and energy projects (with a small investment in uranium).

Longreach has acquired a 20% interest in a private company, Longreach Oil (International) Ltd (incorporated in Hong Kong) with the objective to participate in resource joint ventures with China-based companies.

Longreach has also been involved in promoting a new oil and gas exploration and investment company with an old name - Offshore Oil Ltd - which will be seeking a listing as soon as practicable.

### 5. Significant matters after balance date

The Directors are not aware of any matter or circumstance not otherwise dealt with in this Report that has arisen since the end of the year that has significantly affected or may significantly affect the consolidated entity's operations; the results of those operations; or the consolidated entity's state of affairs in future financial years.

### 6. Likely developments in operations and expected results

Likely developments in the operations of the consolidated entity and the expected results cannot be accurately predicted, as they will depend on the successful development of the Company's existing oil and gas and energy projects and realisation of its investments.

### 7. Environmental regulation

Longreach Oil is not aware of any particular environmental regulations in respect of which it would have to report on its performance.

### 8. Dividends

No dividends have been paid or declared since the commencement of the financial year and no dividends have been recommended.

### 9. Share Options

During the year 10,000,000 options over ordinary shares were granted exercisable at 1 cent each and expiring on 31 March 2013. None of these options have been exercised to date.

## Directors' Statutory Report - 2011 (cont'd)

### 10. Directors and Officers

The name of each person who has been a Director of the company at any time during or since the end of the year is as follows:

Boris Ganke - Director since 1981, Chairman since 1988. Director of a number of other public and private companies over a period of more than 30 years, including other listed companies: AusTex Oil Ltd - from 2006 to March 2009; Chapmans Ltd - since 1974 (Chairman); Southern Cross Exploration N L - since 1976 (Chairman).

Peter Hetheron - Director since 1985; Secretary since 1993. Director of other listed company - Chapmans Ltd - since 1983.

Emma McPherson - Director - since 19 December 2008. Investment Banker. M. Com. Sydney University.

Details of Directors' interests in the securities of the company are set out in Note 18.2 to the Financial Report.

### 11. Directors' meetings

The following table sets out the number of meetings of Directors held during the year ended 30 June 2011 and the number of meetings attended by each Director:

	<u>Meetings held</u>	<u>Meetings attended</u>
B Ganke	2	2
P Hetheron	2	2
E McPherson	2	2

There were also 9 circular resolutions in respect of various transactions.

### 12. Remuneration report

The consolidated entity does not have any salaried Directors or executives.

All Directors are non-executive and do not receive any remuneration except Directors' Fees, which are less than the fees approved by shareholders in 1996.

Directors' Fees		2011	2010
Name	Position	\$	\$
B Ganke	Chairman (non-executive)	8,000	8,000
P Hetheron	Director (non-executive)	8,000	8,000
E McPherson	Director (non-executive)	8,000	8,000
<b>Total remuneration</b>		<u>24,000</u>	<u>24,000</u>

No Director received nor was any Director entitled to receive any shares or options as part of remuneration during the year. Directors' remuneration is currently below the aggregate amount which was previously approved by shareholders and has been fixed at a nominal amount.

As disclosed in the accounts, a director-related entity received management fees of \$150,000 (2010 - \$150,000) for providing all accounting, administration, management, secretarial and capital raising services.

### 13. Non-Audit Services

No non-audit services were provided to the group during the year by HLB Mann Judd (NSW Partnership).

### 14. Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under Section 307C of the Corporations Act 2001 is set out on page 8.

### 15. Indemnification of Officers and Auditors

During the financial year the company paid the premium to insure one Director against claims while acting as a Director of the Company.

No indemnity has been granted to the Auditor of the Company.

This Report is made and signed in accordance with a Resolution of the Directors.

B Ganke  
Director

Sydney

4 October 2011

## **Auditor's Independence Declaration**

---

### **To the Directors of Longreach Oil Limited:**

As lead auditor for the audit of Longreach Oil Limited for the year ended 30 June 2011, I declare that, to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Longreach Oil Limited and the entities it controlled during the period.

<b>NEW SOUTH WALES - <i>Sydney Basin</i></b>					
<b>Exploration Licence 6212</b>		1,388	138,800	342,836	50
This Exploration Licence was renewed in November 2010 until March 2013.					

## **Corporate Governance Statement as at 10 October 2011**

---

Pursuant to Australian Securities Exchange (ASX) listing rule 4.10.3, this statement outlines the main corporate governance practices that were in place throughout the period from 1 July 2010 to the date of this Report.

The Directors' mode of management of the company's affairs, as embodied in the Corporate Governance Policies and Procedures shown below, has been in place in most respects for many years before any such provisions were formally required. The specific comments on each principle are shown below.

### **1. Lay solid foundations for the Board and Management**

The Board of Directors has the over-all responsibility for the management and governance of the company. The Board sets and implements the objectives and strategy of the company. The management company assists in carrying out these tasks and provides day to day accounting, administration and management services.

The Board reviews the reports of the management company on the operational and financial performance of the company. There are no formal statements as to the delegated authority of management. However the Board reviews all operations of the company and monitors and manages business risk, and ensures adherence to appropriate ethical standards.

### **2. Structure of the Board**

Directors' qualifications and experience are outlined in the Directors' Report. No members of the current Board are considered independent by current definitions. There are no executive Directors at present, nor do any Directors draw any salary. Consultants are retained as and when required.

The Board comprises the minimum number of Directors, due to the size of the company and for reasons of cost-effectiveness.

Whenever appropriate, the size and composition of the Board may be reviewed to achieve the company's longer term aims and objectives.

It has not been considered necessary to establish a Nomination Committee, due to the size of the company. The company has neither special procedures nor policy in place in respect of the appointment or retirement of Directors, apart from the provisions of the company's constitution.

The Board has not established any committees to evaluate the performance of Directors and has not adopted formal performance enhancement evaluation procedures, due to the size of the company.

There are no set procedures for Directors to seek independent professional advice at the company's expense but each Director would be able to seek independent advice and any request for payment of such costs would be treated on a case by case basis.

### **3. Promote ethical and responsible Decision-making**

The Board expects all Directors to perform their duties in a manner which is ethical, responsible and objective and at all times endeavour to maintain and improve the performance and reputation of the company. A code of conduct as recommended in best practice recommendation 3.1 has not been formally established as the Board consistently ensures that all members of the Board have a clear understanding of their duties, responsibilities and their accountability to the company, its shareholders and stakeholders for their conduct.

The company has issued a policy guideline concerning trading in company securities by Directors, officers and consultants which imposes certain restrictions on trading and which, inter alia, requires the person to pose the question: "Is it right to deal at this stage?"

### **4. Safeguard integrity in financial reporting**

Auditors of the company can be nominated by shareholders. There are no other procedures in place at present. There is no formal Audit Committee, as the majority of Directors are involved in performing the functions of an Audit Committee and reviewing the adequacy of existing audit arrangements.

### **5. Make timely and balanced disclosure**

The Board, through its continuous disclosure policy, the maintenance of a web site, and the holding of annual meetings, where shareholders are encouraged to participate, seeks to keep shareholders fully informed of significant developments in an efficient and timely manner.

The company aims to provide relevant and timely information to its shareholders and the broader investment community in accordance with its continuous disclosure obligations under the ASX Listing Rules.

## Corporate Governance Statement *(cont'd)*

### 5. Make timely and balanced disclosure *(cont'd)*

The Board has established policies and procedures to ensure compliance with ASX Listing Rules disclosure requirements and accountability at Director and management level for that compliance. The Board believes that the formalisation of these policies and procedures in a written form per best practice recommendation 5.1 is not necessary as the Board is satisfied that all Board members are acutely aware of the importance of making timely and balanced disclosure.

The Chairman and/or the Company Secretary have been nominated as the persons responsible for communications with the ASX. This role includes responsibility for ensuring compliance with the continuous disclosure requirements in the ASX Listing Rules and overseeing and co-ordinating information disclosure to the ASX and the public.

### 6. Respect the rights of shareholders

The Board encourages the participation of shareholders at Annual General Meetings to ensure a sound rapport between shareholders and the company. The Board ensures that the Auditor attends Annual General Meetings. On request, information is made available to shareholders by e-mail, facsimile or post.

### 7. Recognise and manage risk

Usual standards of identifying significant business risks are applied by the Board. Exploration for oil and gas can be viewed as high risk/high reward speculative activity. The Directors' collective experience and knowledge are relied upon in managing significant risks in such a way as to ensure that no single project would jeopardise the company's total operations.

Specific areas of risk are identified in view of the inherently risky exploration industry and depending on the sovereign risk of any specific country in which the company may be operating.

Appropriate confirmations were received from the Chairman and the Alternative Chief Financial Officer that the financial reports are based on sound systems of risk management and internal controls and policies developed by the Board.

Relative to its operations and size, the Board has not established a risk management committee but believes that the company has adequately identified potential business risks and continues to operate effectively in material respects in relation to financial reporting risks.

### Business risk

The Board monitors and receives advice as required on areas of operational and financial risk, and considers appropriate risk management strategies. Specific areas of risk that are identified are regularly considered at Board meetings. Included in these areas are performance of activities, continuous disclosure obligations, asset protection and financial exposures.

### 8. Remunerate fairly and responsibly

Disclosure of remuneration policy and procedures:

- 8.1 The Board is responsible for determining and reviewing the remuneration for themselves, within parameters approved by shareholders, and of executives and consultants when appointed. At this stage no performance hurdles have been imposed as there are no executive Directors.
- 8.2 As described in the Directors' statutory report, the Board is comprised of non-executive Directors. The administration is outsourced and the company retains the services of experienced consulting Geologists as required at competitive rates.
- 8.3 Directors, without a Remuneration Committee, have agreed that the present modest remuneration of \$8,000 per Director per annum should remain in place, which is below the aggregate amount approved by shareholders.
- 8.4 Although the Chairman often acts in an executive capacity, he receives no remuneration for that function. Remuneration of executives and consultants, when appointed, would be determined by market conditions. No equity based payments or other benefits were paid to Directors or consultants during the year under review.

# Australian Securities Exchange

## Notes to and forming part of the financial statements for the year ended 30 June 2011

---

### **Note Summary of significant accounting policies**

**1.**

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report comprises the consolidated entity consisting of Longreach Oil Limited and its subsidiaries.

#### **1.1 Basis of preparation**

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (including Australian Accounting Interpretations adopted by the Australian Accounting Standards Board) and the Corporations Act 2001.

These consolidated financial statements have been prepared under the historical cost convention, except for available-for-sale financial assets that have been measured at fair value. Unless otherwise indicated the accounting policies have been applied consistently in all periods presented in these financial statements.

#### **1.2 Statement of compliance**

The financial report complies with Australian Accounting Standards, as issued by the Australian Accounting Standards Board and the International Financial Reporting Standards as issued by the International Accounting Standards Board.

#### **1.3 Consolidation**

##### *Subsidiaries*

The financial statements of subsidiaries are included in the consolidated financial statements from the date control commences until control ceases.

Inter-company transactions, balances and unrealised gains and losses on transactions between group companies are eliminated.

#### **1.4 Impairment of assets**

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment and whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. Assets that are subject to amortisation are tested for impairment whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. An impairment loss is recognised in profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

**Note 1. Summary of significant accounting policies (cont'd)**

**1.5 Investments and other financial assets**

*Available-for-sale financial assets*

Available-for-sale financial assets comprising holdings in equity securities quoted on Stock Exchanges and non-listed companies are included in non-current assets unless they are intended to be disposed of within 12 months of the balance date.

Listed investments are initially recognised at fair value plus transaction costs. The investments are subsequently measured at their fair values. Unrealised gains and losses arising from changes in the fair value are recognised in equity in the Fair Value Reserve.

Unlisted investments are initially recognised at cost where the fair value cannot be measured reliably. Where unlisted investments are subsequently revalued, the fair values are determined after considering the underlying net asset values of the companies and estimated values based on their strategic holdings.

The fair value of financial instruments is measured in accordance with the following levels:

- |         |  |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets for identical assets;   |
| Level 2 | Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly ( i.e. as prices) or indirectly ( i.e. derived from prices) ; and |
| Level 3 | Inputs for the asset that are not based on observable market data (unobservable inputs).   |

Considerations such as a significant or prolonged decline in the fair value of investments below their cost are used in determining whether investments are impaired. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments are included in profit or loss as gains and losses from investment securities. Impairment losses are recognised as a reduction of the available for sale investments Fair Value Reserve to the extent of any previous revaluation and otherwise in profit or loss.

**1.6 Trade and other receivables**

Trade and other receivables are non-derivative financial assets with fixed or determinable payments and are included in current assets, except for maturities greater than 12 months after the balance sheet date which are included in non-current assets. Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment is established for amounts due that are not likely to be collected according to the original terms of the receivables. The amount of the provision is recognised in profit or loss.

**1.7 Cash and Cash Equivalents**

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

**1.8 Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Borrowings are classified as current liabilities unless the settlement is not required for at least 12 months after the balance sheet date.

**1.9 Revenue Recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and that it can be reliably measured.

*Dividends*

Dividends are recognised on receipt.

*Interest*

Interest is recognised as it accrues.

**Note 1. Summary of significant accounting policies (cont'd)**

**1.9 Revenue Recognition (cont'd)**

*Sale of Financial Assets*

The net gain (loss) on sales are included as revenue (expenses) at the date control passes to the buyer, usually when an unconditional contract of sale is signed. The net gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

**1.10 Exploration and Evaluation Assets**

Exploration costs are accounted for under the "Area of Interest" method, whereby costs are carried forward provided that rights to tenure of the area of interest are current and either there is a reasonable probability of recoupment through successful development and exploitation or by their sale, or exploration activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable mineral reserves and active and significant operations in, or in relation to, the area are continuing. The ultimate recoupment of costs carried forward in respect of areas of interest still in the exploration or evaluation phases is dependent upon successful development and commercial exploitation, or alternatively, sale of the respective areas. Exploration & Evaluation Assets are assessed for impairment when facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

**1.11 Joint ventures**

The company's joint ventures with other parties are primarily in exploration activities and the share of its interest in the assets and liabilities of each joint venture is brought to account by including in the respective classifications, where material.

**1.12 Income tax**

Deferred income tax is provided on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences and the carry forward of unused tax losses can be utilised. Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

**1.13 Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Balance Sheet.

Cash Flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

**Note 1. Summary of significant accounting policies (cont'd)**

**1.14 Accounting Standards Issued Not Yet Operative**

Certain new accounting standards and interpretations have been issued that are mandatory for periods after 30 June 2011. The Group's assessment of the impact of these new standards and interpretations is that they will have little or no impact on the recognition and measurement practices of the Group, and may change some disclosures.

**1.15 Accounting Estimates and Judgement**

The Group makes estimates and judgements concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying nature of assets are as follows:

- (i) Estimated fair values of unlisted investments, and investments in mining projects.

The group carries some unlisted investments at cost, and some at fair value. Cost is sometimes determined by an evaluation of the value of shares issued by the group to acquire the investments. The Directors update their assessment of the fair value and the recoverable amount of unlisted investments at least annually. The group carries its investments in mining projects at cost, subject to annual review for impairment.

## Note 21. Going concern

The Balance Sheet of the Company as at 30 June 2011 shows Net Assets of \$3,748,169 and an excess of current assets over current liabilities of \$538,795. The Statement of Comprehensive Income for the year ended 30 June 2011 shows a loss of \$477,898 and total comprehensive loss for the year of \$2,818,538. The Statement of Cash Flows for the year ended 30 June 2011 show cash outflows from operating activities of \$316,146.

These factors may appear to cast significant doubt on the consolidated entity's ability to continue as a going concern. The ability of the company to collect its receivables and realise its financial assets is dependent upon future events and market conditions. This may constitute a material uncertainty.

Directors believe that the company will be able to continue as a going concern based on the company collecting its receivables and realising its financial assets to enable the company to pay its debts as and when they become due and payable. Directors expect that the company will be able to raise additional capital, as it has done at various stages over many years, as and when it was required.

	2011	Consolidated 2010
<b>Note 22. Earnings per share</b>		
Basic and diluted earnings (loss) per share (cents)	(0.10)	(0.02)
Weighted average number of ordinary shares on issue used in the calculation of basic earnings per share	469,643,836	409,383,562

## Note 23. Segment information

### Business Segment

The segment in which the company operates predominantly is the exploration industry, exploring for metals and other minerals and primarily for oil, gas and other energy resources, either directly and/or through equity investments in exploration companies.

### Geographical

	Total Consolidated Assets		Mining and Exploration	Other	Mining and Exploration	Other
	2011	2010	2011	2011	2010	2010

(Loss) for the year	<u>(475,684)</u>	<u>(91,276)</u>

**Note 26. Risk**

- (a) Market risk: The group's investments in available for sale financial assets are subject to fluctuations in market conditions.
- (b) Interest rate risk: There is no significant exposure to interest rate risk as the group's borrowings and deposits are on fixed rates.
- (c) Credit risk: The carrying amounts of Receivables net of any provisions represent the maximum exposure to credit risk.
- (d) Liquidity risk: The Directors are responsible for management of the short, medium and long term liquidity requirements.
- (e) Exploration risk: The oil and gas exploration industry is inherently risky. Such risk is carefully assessed on a case by case basis.
- (f) Capital risk: The Directors' objectives when managing capital are to safeguard the group's ability to continue as a going concern, so that it can provide returns to shareholders. The group has adequate assets and ability to raise equity capital to maintain its normal operations. Acquisition of exploration projects and other associated expenditure can often be satisfied by the issue of equity securities. The group's gearing has remained quite low in accordance with the Board's policy and it is not proposed to make any changes in that respect.

**Note 27. Reconciliation of cash flows from operating activities**

	<b>Consolidated</b>	
	<b>2011</b>	<b>2010</b>
	<b>\$</b>	<b>\$</b>
Loss for the financial year	(477,898)	(94,574)
Adjustments for:		
Profit on sale of investments	(74,848)	(447,460)
Exploration expenditure written off	75,270	-
Transfer from Reserves - impairment losses	-	193,000
Impairment losses - unlisted shares	20,000	60,000
Provision for loss-Mining Project	190,000	-
Other non-cash items	<u>110,638</u>	<u>135,852</u>
	(156,838)	(153,182)
Change in trade and other receivables	(362,475)	(94,043)
Change in trade and other payables	<u>203,167</u>	<u>(79,996)</u>
Net cash flows from/(used in) operating activities	<u>(316,146)</u>	<u>(327,221)</u>
<b>Non cash financing and investing activities</b>		
Issues of shares for investments	250,000	455,000
Issues of shares as payments to consultants, creditors and prepayments	<u>232,500</u>	<u>100,000</u>

**Note 28. Income tax**

The income tax (expense)/benefit on the pre-tax accounting (loss) reconciles to the income tax expense in the accounts as follows:

	<b>Consolidated</b>	
	<b>2011</b>	<b>2010</b>
	<b>\$</b>	<b>\$</b>
(Loss) before income tax	<u>(477,898)</u>	<u>(94,574)</u>
Income tax expense/(benefit) calculated at 30% (2010 30%) on the loss from ordinary activities	(143,369)	(28,372)
Non-deductible expenses	57,000	-
Deferred tax assets (brought)/not brought to account	<u>86,369</u>	<u>28,372</u>
Income tax expense	<u>-</u>	<u>-</u>

Deferred tax assets estimated in excess of \$2,000,000 have not been brought to account. The deferred tax assets will only be utilised if:

- (a) the consolidated entity derives future assessable income of a nature and of sufficient amount to enable the deferred tax assets to be realised;
- (b) the consolidated entity continues to comply with the conditions for deductibility imposed by law; and
- (c) legislation will not change in a manner which would adversely affect the consolidated entity's ability to realise the deferred tax assets.

**Note 29. Events after balance date**

There were no significant events after balance other than as disclosed in the Report.

**N.B.** *The Financial Report was authorised by the Directors on 4 October 2011. The company has the power to amend and re-issue the financial report.*

## Independent Auditor's Report

### INDEPENDENT AUDITOR'S REPORT

To the members of Longreach Oil Limited:

#### Report on the Financial Report

We have audited the accompanying financial report of Longreach Oil Limited ("the company"), which comprises the balance sheet as at 30 June 2011, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for the consolidated entity. The consolidated entity comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

#### *Directors' Responsibility for the Financial Report*

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In Note 1.2 the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, that the consolidated financial report complies with International Financial Reporting Standards.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we

comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Independence*

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, provided to the directors of Longreach Oil Limited on 4 October 2011, would be in the same terms if provided to the directors as at the time of this auditor's report.

## Independent Auditor's Report (cont'd)

### ***Basis for Qualified Auditor's Opinion***

As stated in Note 9, an investment in a non-listed company, Brisbane Petroleum Limited, which has a cost of \$110,910 (2010: \$110,910), has been measured at a fair value as at 30 June 2011 of \$850,000 (2010: \$2,500,000), with the decrease in fair value of \$1,650,000 (2010: \$Nil movement) debited (2010: No movement) to the Fair Value Reserve. In 2007 this investment had been revalued to a fair value of \$5,000,000 with the increase of \$4,889,090 recorded in the Fair Value Reserve. In 2008, it was remeasured to a fair value of \$2,500,000, a reduction of \$2,500,000, recognised as a reduction in the Fair Value Reserve. Directors have not demonstrated that their assessment of fair value is reliable. The inclusion in the financial report of the investment at fair value constitutes a departure from Australian Accounting Standard AASB 139: *Financial Instruments: Recognition and Measurement*, which requires such investments to be measured at cost if fair value cannot be reliably measured.

Had the Directors stated the investment at cost, the investment would have been recognised at \$110,910, a further reduction of \$739,090; total assets and net assets would have decreased by \$739,090; Loss on write back revaluation of unlisted investments, Total Comprehensive Loss and Fair Value Reserve debit balance would have increased by \$739,090.

The audit report for the year ended 30 June 2010 included a qualification in relation to this investment, that at that time we were unable to satisfy ourselves that the Directors' assessment of fair value at 30 June 2010 was reliable.

### ***Qualified Auditor's Opinion***

In our opinion, except for the effect on the financial statements of the matter referred to in the preceding paragraphs:

- (a) the financial report of Longreach Oil Limited is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and

- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.2.

### ***Emphasis of Matter***

Without qualifying our opinion, we draw attention to Note 21 to the financial report, which indicates that the company incurred a total comprehensive loss of \$2,818,538 during the year ended 30 June 2011. These conditions, along with other matters as set forth in Note 21, indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern, and therefore the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.

### ***Report on the Remuneration Report***

We have audited the Remuneration Report included on page 2 of the directors' report for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

### ***Auditor's Opinion***

In our opinion the Remuneration Report of Longreach Oil Limited for the year ended 30 June 2011 complies with section 300A of the *Corporations Act 2001*.
