METAMIZER MM 240 SSS

Healthcare solutions company MediVac Limited [ASX:MDV] is pleased to release the following image of its new MetaMizer 240 SSS, clinical waste converter. Full functionality testing has now been completed successfully and the results have exceeded the company's expectations.

Key points:

- MetaMizer is a medical waste disposal unit, based on a concurrent steam-based sterilization and shredding process.
- Environmentally-friendly alternative waste management system for hospitals and quarantine facilities.
- Provides sterile, safe waste disposal on site, reducing waste to landfill by up to 90% and weight by 30%.
- The processed material is granular in nature and can be recycled or buried in landfills safely.
- Mechanism is fully automated and operating requirements in terms of human capital are minimal.
- MetaMizer is easy to shift and maintain and has a small footprint.
- MetaMizer doesn't produce any harmful emissions.
- MetaMizer is NATA and ISO Laboratory-validated and is a Health Department and EPA approved process.

Live footage of the new MetaMizer 240SSS in operation has now been incorporated into the Marketing Video for the new MetaMizer and can be viewed on the company's website under the MetaMizer tab or clicking on this link: <http://www.medivac.com.au/technology-in-waste-disposal.html>

Paul McPherson
Executive Chairman

About MediVac Limited: "MDV"

MediVac delivers cleaner, safer healthcare solutions.

MediVac Technology offers a best practice solution to the handling and remediation of clinical waste. The MetaMizer is an environmentally friendly alternative waste management system for hospitals and quarantine facilities, providing sterile, safe waste disposal on site and reducing waste to landfill by up to 90%.

SunnyWipes are a range of powerful hard surface wipes and hand sanitising gels produced with ingredients derived from natural sources. Using green chemistry, SunnyWipes provides a more natural solution for infection control and disinfection on topical skin and non-porous hard surfaces. SunnyWipes decrease human and environmental health risks.
