

ASX announcement

Share Purchase Plan

MELBOURNE 5 August 2011. Further to information provided at last week's EGM, Intermoco Limited (ASX:INT) (**Company**) is pleased to formally announce the establishment of a Share Purchase Plan (SPP).

Intermoco's current business focus and structure involves development of its Embedded Network (EN) business, and, until recently, it has achieved steady success in establishing new EN's. The Company has previously advised shareholders that the pipeline for potential EN's was robust and growing, and, as can be seen by recent announcements, Intermoco is securing and is likely to secure new EN contracts at a rapid rate as it converts opportunities.

This success requires Intermoco to invest cash in establishing new EN's, which is recovered over time. The expected rapid sign up of new EN's will lead to a depletion in cash and for prudence Intermoco wishes to raise cash now, and give all shareholders the opportunity to participate in that raising.

Details of the SPP are as follows.

The price at which shares will be issued under the SPP will be a 12.5% discount to the volume-weighted average closing price for the five days of trading of Shares preceding the Offer Closing Date, subject to a minimum price of 0.3c/share.

Key dates of the SPP are as follows:

Record date for determining entitlement to Offer	4 August 2011
Dispatch of Offer Documents - Offer opening date	16 August 2011
Offer Closing Date (subject to Board discretion to extend, shorten or cancel Share Purchase Plan)	30 August 2011
Issue of Shares to shareholders	7 September 2011
