ERA re-issues the Centauri 1 Power Station Electricity Licence to 2037

Highlights:

- **Eneabba is the proponent of the 168MW Centauri 1 gas-fired Power Station in Mid West Region of Western Australian, capable of meeting the power needs of the majority of larger mining projects in the Region,**

Australian energy company Eneabba Gas Limited (ASX: ENB) “ENB” or “the Company”) wishes to confirm to the market that the development of its proposed gas-fired 168MW Centauri 1 Power Station project (“Centauri-1”) near Dongara in Western Australia remains the sole focus of the company and continues to undertake activities designed to progress its development in a timely fashion. The Company is focussed initially to have the 168 MW power station be gas-fired and in future when the UCG project is established, seek to grow the energy capacity with a lower environmental fuel source.

Following a decision published by the Economic Regulation Authority (“ERA”) and under the licence amendments under section 22 of the Electricity Industry Act 2004, the ERA has re-issued the licence for the Centauri 1 Power Station, with an expiry date 11 March 2037.

About Eneabba Gas Limited

Eneabba Gas is focused on the development of the 168MW gas-fired Centauri 1 power station on Company-owned land near Dongara in the Mid West of Western Australia. Eneabba Gas proposes to market power from Centauri 1 to the fast growing Mid West Region of Western Australia.

The Company’s strategic position in the next 3-4 years to convert the coal in its highly prospective tenement package in the Mid West Region of Western Australia into UCG Syngas for fuel. While UCG is the gasification of burning coal underground, it is the Company’s intention to capture the resultant CO2 (geo-sequestration), which may potentially be injected into an existing geological formation. This process will significantly reduce the overall cost of energy fuel, energy costs and total carbon footprint of the project. Farming of land will remain relatively uninterrupted and water resources will be preserved.
