*Southern Uranium Limited is a copper, gold and uranium focussed resources company with a strong platform of active exploration properties and drill targets in the southern Gawler Craton of South Australia. The Company's highest priority targets are at the Ridgeback prospect on northern Yorke Peninsula.*

*The Company is also advancing opportunities for iron ore at Jungle Dam on Eyre Peninsula and for vanadium at Calvert Hills in the Northern Territory.*

*Southern Uranium aims to grow into a major explorer and developer by discovering new large resources that will compete for the anticipated shortfalls in global metal supply.*
