

2 July 2010

**SOUTHERN URANIUM LIMITED BROADCAST**  
**on Boardroom Radio**

**New silver mineralised field identified on Eyre Peninsula**

**SOUTHERN URANIUM LIMITED (SNU)** provides the opportunity to listen to an audio broadcast with **Mr John Anderson, Managing Director** in an interview covering the company's release today.

**To listen**, copy the following details into your web browser: [brr.com.au/event/66634](http://brr.com.au/event/66634)

The announcement details are as follows:

- Strong silver and gold potential identified throughout large and newly recognized **Peterlumbo epithermal volcanic field** northwest of Kimba in South Australia.
- Scattered small outcrops of brecciated and mineralised rhyolite volcanics located over **5km square area** by mapping thus far.
- High silver values up to **102 ppm silver** returned from limited rock sampling.
- **Extensive silver and gold anomalies** in soil geochemistry over broader sand-covered areas between outcrops.

**Competent Person Statement:** *The information in this report that relates to Exploration Results is based on information compiled by John Anderson (BSc(Hons)Geol) who is a member of the Australasian Institute of Mining and Metallurgy and is bound by and follows the Institute's codes and recommended practices. Mr Anderson is a full-time employee of Southern Uranium Limited. He has sufficient experience which is relevant to the styles of mineralisation and types of deposits under consideration and to the activities being undertaken to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Anderson consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.*

***Southern Uranium Limited is a minerals explorer with a focus on the diverse resource opportunities for copper, gold, silver, uranium and iron ore in the southern Gawler Craton of South Australia.***

***The company's highest priority exploration projects are Ridgeback with Hillside-style and IOCGU targets on northern Yorke Peninsula; the Jungle Dam iron ore prospect and numerous targets including the emerging Peterlumbo epithermal field with silver and gold potential on Eyre Peninsula.***
