

ASX ANNOUNCEMENT 3 AUGUST 2010

1

SYAMA OPERATIONS

Resolute Mining Limited advises that milling has recommenced at the Syama operation following the replacement of the Mill 1 pinion bearing.

The operation has been restarted with direct leach feed ore and is expected to continue using this ore source for the next six weeks. A number of repairs and modifications to the stack and scrubber, that were opportunistically started during the interruption, will be able to be completed during this time.
