***Memorandum of Understanding signed with eight institutions***

ViaGold Capital Limited (ASX code VIA) advises that its wholly owned subsidiary ViaGold International Education Management Group Limited (the “ViaGold Education Group”) was invited to participate in the Forum of Development and Reform of the National Privately Owned Higher Education Institutions in Hangzhou, China on 5th November 2010. The Forum hosted about 100 selected privately owned higher education institutions throughout China.

After discussion and screening, ViaGold Education Group has signed Memorandum of Understanding to implement our education management model across each of eight (8) privately owned higher education institutions from Beijing, Tianjin, Jiangsu, Shanxi, Jiangxi, and Shaanxi provinces respectively. Together, these eight privately owned higher education institutions have over 40,000 students.

We will keep the market informed as we undertake these substantial implementations and continue to roll out the education management model to other institutions.
