### **cBox secures \$1 Million per Annum deal to provide marketing services to a large US based public company**

cBox Pty Ltd, a subsidiary of MVH will provide a marketing fax distribution service in Australia and New Zealand for a large US company (Name withheld due to confidentiality and competitive advantage requirements).

As stated by Mr Jitto Arulampalam, (Executive Chairman MVH) "This fantastic opportunity was secured by cBox as a result of its already expanding global marketing offering. The deal in itself is in the vicinity of \$1 Mill per annum, however the really exciting prospect for us is having secured another large US client".

After the recent success with winning the tender for Business Wire (A Berkshire Hathaway Holdings Company) with the media distribution arm, cBox has kept the momentum going with the marketing side of the business and acquired many global databases to ensure all opportunities are captured and facilitation of international clients requirements are met.

The Business Wire media deal in September, coupled with this new US client has allowed cBox to cement its position as a leading marketing distribution provider in Australia.
