ASX Announcement – Konekt Ltd – Full year Results

Financial Results for 2009 - 10

Konekt Limited (ASX: KKT) announces its unaudited financial results for the full year to 30 June 2010.

Konekt is pleased to announce record revenue and profits.

The trading result was an EBIT profit of \$2,210k. This was an \$863k improvement on the prior year, equating to a 64% improvement. The pre-tax profit was \$2,126k, compared with a net profit of \$1,174k in the previous year, representing an 81% improvement. After tax profit of \$3,880k was positively impacted by a \$2,430k tax credit from recognition of prior year tax losses and temporary differences offset by current year tax expense of \$676k.

The 2010 financial year was one that saw continued improvements delivering a higher level of efficiency, and higher margins as well as good revenue growth coming from differentiation through service delivery and technology.

There was a significant positive cashflow of \$2,868k resulting in clearance of bank debt and having funds on deposit of \$1,129k at year end.

Revenue

Revenue growth for the year was 12% with full year revenues of \$36.2m. Revenue growth was all organic as a result of continued growth of our customer base.

Outlook

We enter the 2011 financial year confident that our business is well placed to continue to deliver organic revenue and profit growth. We are looking at new offerings targeted at Corporates to significantly grow revenues. We anticipate further growth from our insurer customers as we differentiate ourselves and win additional value-add services.

In addition to organic growth Konekt expects to reignite its acquisition strategy subject to availability of suitable targets on economic terms.

6. INCOME TAX

During the current financial year the consolidated entity has recognised prior year tax losses and other temporary differences for the first time. The following is an analysis of the income tax credit for the financial year;

	30 June 2010
	\$000s
Prior year tax losses recognised	1,555
Prior year temporary differences recognised	875
Income tax expense on current year earnings	(676)

Net income tax credit	1,754

A further \$2,929,973 of pre-acquisition tax losses have not been recognised as the available fraction that can be utilised to apply these tax losses is such that it will probably take considerable time after utilisation of the existing group losses for these additional losses to be utilised.

7. INTEREST BEARING LIABILITIES

The consolidated entity has an approved debt finance facility to a maximum amount of \$5,000,000. At 30 June 2010 based on debtor balances this could have been drawn to \$3,324,000 of which \$ nil was actually utilised as at 30 June 2010.
