Notes to the Financial Statements

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001.

The financial statements cover ECSI Limited. ECSI Limited is a listed public company, incorporated and domiciled in Australia.

Basis of Preparation

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International financial reporting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

Reporting Basis and Conventions

The financial statements have been prepared on an accruals basis and are based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Accounting Policies

(a) Income tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantially enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the

Notes to the Financial Statements

Accounting policies (cont'd)

(a) Income tax (cont'd)

timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(b) Foreign currency transactions and balances

Functional and presentation currency

The functional currency of the company is measured using the currency of the primary economic environment in which it operates. The financial statements are presented in Australian dollars which is the company's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies of foreign controlled operations are converted to functional currency at the rate of exchange ruling at the date of the transaction.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

The financial results and position of foreign operations whose functional currency is different from the company's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the company's foreign currency translation reserve in the balance sheet. These differences are recognised in the income statement in the period in which the operation is disposed.

(c) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(d) Financial Instruments

Recognition and Initial Measurement

Financial instruments, incorporating financial assets and liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

Financial instruments are initially measured at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit or loss immediately. Financial instruments are classified and measured as set out below.'

The company does not have any derivative instruments at 30 June 2010 (2009: nil).

De-recognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Classification and Subsequent Measurement

(i) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit or loss when they are held for trading for the purpose of short term profit taking, where they are derivatives not held for hedging purposes, or designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Subsequent to initial recognition, realised and unrealised gains and losses arising from changes in fair value are included in profit or loss in the period in which they arise.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost using the effective interest rate method.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the entity's intention to hold these investments to maturity. They are subsequently measured at amortised cost using the effective interest rate method.

(iv) Available for Sale

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

(v) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost using the effective interest rate method.

Impairment

At the end of each reporting period, the entity assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a significant or prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) Financial Instruments (Cont'd)

Fair Value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

(e) Trade and other payables

Liabilities for trade payables, accruals and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed.

(f) Impairment of Assets

At the end of each reporting period, the company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(g) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(h) Issued capital

Issued and paid up capital is recognised at the fair value of the consideration received by the company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(i) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest income

Interest income is recognised using the effective interest method.

All revenue is stated net of the amount of goods and services tax (GST).

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(j) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(k) Employee benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees up to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

The entity presently has no long service leave liabilities outstanding or accumulating.

(l) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the company commencing from the time the asset is held ready for use.

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When re-valued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(m) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(n) Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

2. FINANCIAL RISK MANAGEMENT

The entity's principal financial instruments consist of cash and cash equivalents and securities and accounts payable liabilities incurred in the course of operations as disclosed in the financial statements.

The company is primarily exposed to liquidity risk.

Treasury Risk Management

The entity management of treasury activities is centralised and governed by policies approved by the Board of Directors. The Board provides principles for overall risk management, as well as policies covering specific areas, such as identifying risk exposure, analysing and deciding upon strategies and performance measurement

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash reserves to meet the ongoing operational requirements of the business. It is the entity's policy to maintain sufficient funds in cash and cash equivalents. Furthermore, the entity monitors its cash requirements and raises equity funding as and when appropriate to meet such planned requirements.

Capital risk management

The entity objectives for managing capital are to:

- Ensure their ability to operate as a going concern
- Maximise returns to stakeholders by maintaining an optimal debt/equity structure via the issuance/redemption of debt or equity as appropriate

Net Debt consists of:

- Issued capital
- Retained earnings

At this stage of corporate development debt is not considered appropriate.

3. ADOPTION OF NEW AND REVISED AUSTRALIAN ACCOUNTING STANDARDS

The AASB has issued new and amended accounting standards and interpretations that have mandatory application dates for the current and future reporting periods. The entity has decided to adopt these standards. None of the changes in these standards had a material impact on the financial statements of the entity.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ECSI LIMITED

ABN 68 004 240 313

Report on the Financial Report

We have audited the accompanying financial report of ECSI Limited (the "company"), which comprises the statement of financial position as at 30 June 2010, the statement of comprehensive income, statement of cash flows and statement of changes in equity for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the company.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards ("IFRS") ensures that the financial report, comprising the financial statements and notes, complies with IFRS.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have met the independence requirements of the Corporations Act 2001. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ECSI LIMITED

ABN 68 004 240 313 (*Continued*)

Auditor's Opinion

In our opinion:

- a) the financial report of ECSI Limited is in accordance with the Corporations Act 2001, including:
 - i. giving a true and fair view of the company's financial position as at 30 June 2010 and of its performance for the year ended on that date; and
 - ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
- b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Emphasis of Matter

Without qualification to the opinion expressed above, attention is drawn to the following matter. As a result of the matters described in note 19 *Business Combination after Balance Date*, there is a significant uncertainty as to whether or not the provisional values of assets and liabilities disclosed in the note to the financial statements, determined in accordance with the generally accepted accounting principles of the People's Republic of China, which are significantly different from the accounting policies set out in note 1 to the accounts, approximate their fair values as at acquisition date.

When the company finalises its business combinations accounting for the acquisition (within a year from the acquisition date of 16 July 2010) it is possible that the amounts acquired will not be comparable to the amounts represented in this subsequent event note disclosure.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2010. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of ECSI Limited for the year ended 30 June 2010 complies with section 300A of the Corporations Act 2001.

Corporate Governance Statement

1. Our approach to corporate governance

1a) Framework and approach to corporate governance and responsibility

The Board of ECSI Limited ('ECSI') is committed to maintaining the highest standards of corporate governance.

Corporate governance is about having a set of values that underpin the company's everyday activities – values that ensure fair dealing, transparency of actions, and protect the interests of stakeholders. The Board considers corporate governance forms part of a broader framework of corporate responsibility and regulatory oversight.

In pursuing its commitment to best practice governance standards, the Board will continue to:

- review and improve its governance practices; and
- monitor global developments in best practice corporate governance.

The Board's approach has been to be guided by the principles and practices that are in our stakeholders' best interests while ensuring full compliance with legal requirements.

The Corporate Governance statement has been updated to reflect the revised Principles and Recommendations required to be used in Annual Reports for the 1 July 2009 to 30 June 2010 Financial Year.

1b) Compliance with the ASX Corporate Governance Principles and Recommendations

The ASX Listing Rules require listed companies to include in their Annual Report a statement disclosing the extent to which they have followed the ASX Corporate Governance Principles and Recommendations in the reporting period.

Listed companies must identify the recommendations that have not been followed and provide reasons for the company's decision.

This Governance Statement describes ECSI's governance practices and notes where they do not comply with the ASX Corporate Governance Principles and Recommendations.

2. Date of this statement

This statement reflects our corporate governance policies and procedures as at 30 June 2010.

3. The Board of Directors

3a) Membership and expertise of the Board

The Board has a broad range of relevant financial and other skills, experience and expertise to meet its objectives. The current Board composition, with details of individual Director's backgrounds, is set out in the Directors Report on pages 2 & 3.

ASX Corporate Governance Principles and Recommendations: 2.5, 2.6

3b) Board role and responsibility

The Board is accountable to shareholders for ECSI's performance.

In summary, the Board's responsibilities include:

- providing strategic direction and approving corporate strategic initiatives;
- planning for Board and executive succession;
- selecting and evaluating future Directors, the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO");
- setting CEO and Director remuneration within shareholder approved limits;
- approving budget and monitoring management and financial performance;
- considering and approving Annual Financial Report (including the Directors' Declaration) and the interim and final financial statements);
- approving ECSI's risk management strategy, monitoring its effectiveness and maintaining a direct and ongoing dialogue with ECSI's auditors and regulators; and
- considering and reviewing the social and ethical impact of ECSI's activities, setting standards for social and ethical practices and monitoring compliance with ECSI's social responsibility policies and practices.

Corporate Governance (continued)

3. The Board of Directors (continued)

3b) Board role and responsibility (continued)

The Board would normally delegate to management responsibility for:

- developing and implementing corporate strategies and making recommendations on significant corporate strategic initiatives;
- maintaining an effective risk management framework and keeping the Board and market fully informed about material risks;
- developing ECSI's annual budget, recommending it to the Board for approval and managing day-to-day operations within the budget; and
- managing day-to-day operations in accordance with standards for social and ethical practices which have been set by the Board.

However the current circumstances require all these functions to be exercised by the Board Members or the Company Secretary. The company does not currently have a performance evaluation method due to the current size and limited nature of operations.

ASX Corporate Governance Principles and Recommendations: 1.1, 1.2, 1.3, 2.5

3c) Board size and composition

The Board determines its size and composition, subject to the limits imposed by ECSI's Constitution. The Constitution requires a minimum of three and a maximum of 10 Directors. In addition, at least two of the Directors shall ordinarily reside within Australia. Currently the Board consists of three directors, two of which are Australian residents.

3d) The selection and role of the Chairman

The Chairman is selected by the Board from the Non-executive Directors.

The Chairman's role includes:

- providing effective leadership on formulating the Board's strategy;
- representing the views of the Board to the public;
- ensuring that, when all Board members take office, they are fully briefed on the terms of their appointment, their duties and responsibilities;
- ensuring that the Board meets at regular intervals throughout the year, and that minutes of meetings accurately record decisions taken and, where appropriate, the views of individual Directors;
- guiding the agenda and conduct of all Board meetings; and
- reviewing the performance of Board Directors.

The company does not currently comply with the requirement that the Chairman be an independent director, as he is a substantial shareholder. However, the current Chairman, James ("Jim") Green is a non-executive Director, appointed 26 October 2001, and the board believes that it is appropriate given his skills and experience and the size and structure of the board.

ECSI complies with the requirement that the roles of Chairman and CEO be separate, with Graeme Allan Green as the company's CEO.

ASX Corporate Governance Principles and Recommendations: 2.2, 2.3

3e) Directors' independence

The Board assesses each of the Directors against specific criteria to decide whether they are in a position to exercise independent judgement. Directors are considered to be independent if they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement. Materiality is assessed on a case-by-case basis by reference to each Director's individual circumstances rather than general materiality thresholds. In assessing independence, the Board considers whether the Director has a business or other relationship with ECSI, either directly, or as a partner, shareholder or officer of a company or other entity that has an interest, or a business or other relationship, with ECSI or another ECSI group member. Dr ('Ben') Huang Xu is an independent director in accord with this definition of independence.

Corporate Governance (continued)

3. The Board of Directors (continued)

As both James Green (non-executive Chairman) & Graeme Green (CEO) are related (brothers) and substantial shareholders, they are not considered to be independent. Consequently the board does not have a majority of independent directors and does not comply with the requirement to have a majority of independent directors. Notwithstanding this, the board believes that its current composition of directors is appropriate for ECSI, given the skills and experience of the directors.

ASX Corporate Governance Principles and Recommendations: 2.1, 2.5, 2.6

3f) Avoidance of conflicts of interest by a Director

In accordance with the Corporations Act 2001, any Director with a material personal interest in a matter being considered by the Board must not be present when the matter is being considered and may not vote on the matter.

3g) Meetings of the Board and their conduct

The Board meets formally at least four times a year. In addition, it meets whenever necessary to deal with specific matters needing attention between the scheduled meetings. This year the full Board has met 4 times. The Chairman and the Company Secretary establish meeting agendas to ensure adequate coverage of financial, strategic and major risk areas throughout the year. The Directors and Company Secretary also maintain informal communications via email and phone.

3h) Succession planning

The Board plans succession of its own members taking into account the skills, experience and expertise required and currently represented, and ECSI's future direction. The Board is also responsible for CEO and CFO succession planning.

3i) Review of Board performance

The Board does not formally review its overall performance or the performance of individual Directors. The performance of non-executive Directors (including the Chairman) is not subject to any formal review process due to the current size of the board.

ECSI does not comply with ASX recommendations on this issue.

ASX Corporate Governance Principles and Recommendations: 2.5, 2.6

3j) Nomination and appointment of new Directors

Recommendations for nominations of new Directors are made by the Board as a whole. Those nominated are assessed by the Board against a range of criteria including background, experience, professional skills, personal qualities, whether their skills and experience will augment the existing Board and their availability to commit themselves to the Board's activities. If the Board appoints a new Director during the year, that person will stand for election by shareholders at the next annual general meeting. Shareholders are provided with relevant information on the candidates for election. It does not comply with the requirement to have a Nomination Committee. This is due to the current size of the board – 3 members – the Board does not consider there is any advantage to shareholders in creating a Nomination Committee in a Board consisting of 3 Directors.

ASX Corporate Governance Principles and Recommendations: 2.4, 2.5, 2.6

3k) Retirement and re-election of Directors

ECSI's Constitution states that one-third of our Directors must retire each year. The maximum time that each Director can serve in any single term is three years. Any Director who has been appointed during the year must retire at the next annual general meeting. Eligible Directors who retire each year may offer themselves for re-election by shareholders at the next annual general meeting.

3l) Compulsory retirement of Directors

The Board has no limit on the number of terms of office which any Director may serve.

3m) Board access to information and advice

All Directors have unrestricted access to company records and information and receive regular detailed financial and operational reports. ECSI Limited Company Secretary provides Directors with ongoing guidance on issues such as corporate governance, ECSI's Constitution and the law. The Board collectively, and each Director individually, has the right to seek independent professional advice at ECSI's expense to help them carry out their responsibilities. While the Chairman's prior approval is needed, it may not be unreasonably withheld and, in its absence, Board approval may be sought.

ASX Corporate Governance Principles and Recommendations: 2.5, 2.6

Corporate Governance (continued)

3. The Board of Directors (continued)

3n) Securities Trading Policy

Directors and employees are subject to the Corporations Act restrictions on trading securities in the Company if they are in possession of inside information. This is regarded as any information that is non-public and, if it were public that a reasonable person would expect to have a material effect on the price of the Company's securities.

In addition, the company has established a policy on the trading in ECSI's securities, which applies to all Directors and employees. Key aspects of this policy are as follows:

- Directors and employees are encouraged to be long-term holders of the company's securities and are discouraged from any short-term trading;
- Directors and employees may trade shares for 4 weeks following announcement of the annual results, half-year results and the annual general meeting, provided the market has been fully informed. However a trading embargo of 2 days applies immediately after any significant announcement;
- Directors and employees need to ensure that the market is fully informed before they trade and to protect themselves should discuss the intended share trading with the Chairman or Company Secretary;
- Trading outside of the four-week period is required to be approved by the Chairman, prior to any transaction occurring. Generally, if the market is fully informed, the approval will be granted.
- Directors are required to notify the Company Secretary within 2 days of a change in their beneficial interest in the company's shares.
- Directors interest in the companies securities have not changed materially in the last 24 months.

ASX Corporate Governance Principles and Recommendations: 3.2, 3.3

3. Board committees

4a) Board committees and membership

There are currently no Board Committees. ECSI does not comply with ASX recommendations on Board committees as ECSI's current board size (a total of 3 Directors) and the limited number of independent Directors does not allow for separate Board Committees to be effective or to add value. All issues are considered by all the Directors, unless a Director is unable to exercise independence.

ASX Corporate Governance Principles and Recommendations: 2.4, 4.1, 4.2, 4.3, 4.4, 4.5, 8.1, 8.3

4b) Audit Committee

ECSI does not have an Audit Committee and it does not comply with the respective recommendations regarding Audit Committees for the reasons outlined above.

ASX Corporate Governance Principles and Recommendations: 4.1, 4.2, 4.3, 4.4, 4.5

4c) Board Risk Oversight Committee

ECSI does not have a Board Risk Oversight Committee and it does not comply with this recommendation for the reasons outlined above.

ASX Corporate Governance Principles and Recommendations: 7.1, 7.3

4d) Board Nominations Committee

ECSI does not have a Board Nominations Committee and any appointment would be considered by all directors. It does not comply with this recommendation for the reasons outlined above.

ASX Corporate Governance Principles and Recommendations: 2.4, 2.5

4e) Board Remuneration Committee

ECSI does not have a Board Remuneration Committee and does not comply with ASX recommendations on this issue for the reasons outlined above.

Directors have been paid a fixed remuneration in the past, however currently no director's fees are being paid or are being accrued. Directors would in past years have been paid a directors fee for attending Board Meetings, as well as being able to claim for out-of-pocket expenses and any time spent on special issues.

Corporate Governance (continued)

4. Board committees (continued)

ECSI remuneration principle is that payments to non-executive Directors (as detailed in the Financial Statements) are fixed remuneration, reimbursement of expenses and time spent on specific issues. The executive Directors are paid for their executive duties at a negotiated rate in line with their qualifications and experience. Full details regarding remuneration are contained in the audited Remuneration Report in the Director's Statement of the Annual Report.

ASX Corporate Governance Principles and Recommendations: 8.1, 8.2, 8.3.

4. Audit governance and independence

5a) Approach to audit governance

The Board is committed to these basic principles:

- ECSI must produce true and fair financial reports; and
- its accounting methods are comprehensive and relevant and comply with applicable accounting rules and policies.

5b) Engagement and rotation of external auditor

ECSI's independent external auditor is Anderson Roscoe.

5c) Discussions with external auditor on independence

The Board requires the external auditor to confirm that they have maintained their independence.

5d) Relationship with external auditor

ECSI's current policies on employment and other relationships with our external auditor are:

- the audit partners and any audit firm employee on the ECSI audit are prohibited from being an officer of ECSI;
- an immediate family member of an audit partner or any audit firm employee on the ECSI audit is prohibited from being a Director or an officer in a significant position at ECSI;
- a former audit firm partner or employee on the ECSI audit is prohibited from becoming a Director or officer in a significant position at ECSI for at least five years and after the five years, can have no continuing financial relationship with the audit firm;
- members of the audit team and firm are prohibited from having a business relationship with ECSI or any officer of ECSI unless the relationship is clearly insignificant to both parties;
- the audit firm, its partners, its employees on the ECSI audit and their immediate family members are prohibited from having a direct or material indirect investment in ECSI;
- officers of ECSI are prohibited from receiving any remuneration from the audit firm;
- the audit firm is prohibited from having a financial interest in any entity with a controlling interest in ECSI; and
- the audit firm engagement team in any given year cannot include a person who had been an officer of ECSI during that year.

5e) Restrictions on non-audit services by the external auditor

The external auditor is not restricted in the provision of non-audit services to ECSI except as required by the Corporations Act or the ASX Listing Rules.

5f) Attendance at Annual General Meeting

ECSI's external auditor attends the annual general meeting and is available to answer shareholder questions.

6. Controlling and managing risk

6a) Approach to risk management

Taking and managing risk are central to business and to building shareholder value. ECSI's approach is to identify, assess and control the risks which affect its business. The intention is to enable risks to be balanced against appropriate rewards. The risk management approach links ECSI's vision and values, objectives and strategies, and procedures and training. Due to the current size of the Company and its limited operations it is not appropriate to maintain a formal risk management structure.

ASX Corporate Governance Principles and Recommendations: 7.1

Corporate Governance (continued)

6. Controlling and managing risk (continued)

6b) Risk management roles and responsibilities

The Board is responsible for approving and reviewing ECSI's risk management strategy and policy. The Company Secretary is responsible for implementing the Board-approved risk management strategy and developing policies, controls, processes and procedures to identify and manage risks in all of ECSI's activities.

ECSI does not comply with ASX recommendations on these issues as it does not have a formal verifiable system of risk management or any employees to implement such a system as it does not view this to be appropriate at the current time. It relies on the oversight of the Directors and the Company Secretary, together with the periodic verification of the external auditor.

6c) Company Secretarial assurance

The Board receives periodic reports about the financial condition and operational results of ECSI. The CEO & the CFO periodically provide formal statements to the Board that in all material respects:

- the company's periodic financial statements present a true and fair view of ECSI's financial condition and operational results for those reporting periods, and
- that risk management and internal compliance and control systems are sound, appropriate and operating efficiently and effectively.

ASX Corporate Governance Principles and Recommendations: 7.1, 7.2, 7.3, 7.4

7. Remuneration framework

7a) Overview

Director's remuneration is approved and fixed by shareholders. ECSI does not currently pay its Directors and Company Secretary a fixed remuneration. These Officers can claim reimbursement of out-of-pocket expenses incurred on behalf of ECSI and time spent on specific issues. The Company Secretary is paid for all his time on an hourly basis.

7 b) Officers Share Options

There are no Officers Share Options (OSO) granted over un-issued shares to directors or executives as part of their remuneration. The issue of any options would require approval by Shareholders.

Officers Share Options are designed to:

- further align the interests of officers and shareholders; and
- motivate officers to drive growth over the long-term for sustainable shareholder value.

ASX Corporate Governance Principles and Recommendations: 8.1, 8.2, 8.3

8. Corporate responsibility and sustainability

8a) ECSI's approach to corporate responsibility and sustainability

ECSI's aim is to manage its business in a way that produces positive outcomes for all stakeholders and maximises economic, social and environmental value simultaneously. In doing so, ECSI accepts that the responsibilities flowing from this go beyond both strict legal obligations and just the financial bottom line. Transparency, the desire for fair dealing, and positive links into the community underpin our everyday activities and corporate responsibility practices.

ASX Corporate Governance Principles and Recommendations: 3.1

8b) ECSI's Code of Conduct

ECSI's currently does not have in operation a formally adopted Code of Conduct that applies to all Directors, executives and employees without exception. The intention of such a Code is to govern workplace and human resource practices, risk management and legal compliance, and ensure alignment to the Shareholders interests.

The Directors of ECSI's believe their core values of teamwork, integrity and performance ensure ethical outcomes and the alignment of the shareholders and Boards interests.

The ASX recommendations require that the Code of Conduct is reviewed periodically, specifically to reflect the ASX Corporate Governance Principles and Recommendations.

Corporate Governance (continued)

8. Corporate responsibility and sustainability (continued)

ECSI does not comply with ASX recommendations on this issue as the Board does not believe that a formal Code of Conduct is appropriate for the company at the current time. The Board however, endeavours to act ethically at all times, in line with its obligations under the Corporations Act and the ASX Listing Rules.

ASX Corporate Governance Principles and Recommendations: 3.1, 3.3

8c) Insider trading policy and trading in ECSI shares

Both Directors and employees of a Corporation are subject to restrictions under the law relating to dealing in certain financial products, including securities in a company (including ECSI), if they are in possession of inside information.

Inside information is information that is not generally available and, if it were generally available, a reasonable person would expect it to have a material effect on the price or value of the securities of the company.

ASX Corporate Governance Principles and Recommendations: 3.2, 3.3

8d) Market disclosure policy and practices

The Company Secretary has responsibility for ensuring compliance with the continuous disclosure requirements in the ASX Listing Rules, and overseeing and co-ordinating information disclosure to the ASX, analysts, brokers, shareholders, the media and the public.

ECSI is committed to giving all shareholders comprehensive and equal access to information about our activities, and to fulfil continuous disclosure obligations to the broader market. ECSI policy is designed to ensure compliance with ASX Listing Rules continuous disclosure requirements. It ensures any information that a reasonable person would expect to have a material effect on the price of ECSI's securities is disclosed.

ECSI currently does not maintain its own web site and relies on communication in this medium on the ASX Company Announcements platform carrying all the relevant information. In this respect it does not comply with Principle 6, but as all information it would carry on a Company web-site is carried on the ASX site it does not believe its stakeholders are disadvantaged.

ASX Corporate Governance Principles and Recommendations: 5.1, 5.2, 6.1, 6.2
