\* Granted Uranium Rights means those rights in respect of the exploration for uranium granted to Mega Redport pursuant to an agreement dated 30 June 2006 between Goldfields Consolidated Limited, Redport Limited (now known as Mega Redport) and Simmax Mining Pty Ltd (**Rights Agreement**) a copy of which has been provided to Toro and which rights will be assigned to Redport Exploration as part of the Restructure on the terms and conditions set out in the Rights Agreement.

\*Uranium Rights include, without limitation:

1. Binding interest in the relevant tenements in favour of the Sale Companies which will be registered by the owner of those tenements (**Owner**) (if capable of registration) and the applicable Sale Company may lodge and maintain a caveat to protect its interests.
2. Provisions granting the Sale Companies:
  - o the exclusive right to explore for, appraise and evaluate uranium deposits, develop uranium mines and to produce and extract uranium, the right to develop, construct, maintain, repair, utilise and operate from time to time stockpiles, waste dumps, processing facilities, roads, plant, equipment, facilities and infrastructure within those Tenements for those purposes;
  - o the right to do all such acts and things as may be necessary or incidental to the above purposes and the right to enter upon those Tenements with all necessary plant, equipment and labour for the above purposes; and
  - o rights of access to those Tenements required by the applicable Sale Company.
3. The Owner and the holder of the Uranium Rights will coordinate their respective activities to minimise conflict or interference with the activities of the other. Each will provide to the other information regarding its plans to enable such coordination. If there is a conflict regarding a potential which cannot be resolved by negotiation, then the conflict will be resolved by an expert where the principal criterion for resolving the conflict will be maximising the value and development potential of both the uranium and other principal resource of the tenement owner.
4. A right for the Sale Companies to all mining information relating to those Tenements and reliance on existing landowner agreements relating to those Tenements.

5. A right for the Sale Companies to segregate a uranium development area into a separate mining lease over the applicable area and the transfer of any related landholder and government approvals to the sale Companies.
6. Each party is responsible for obtaining and complying with any required governmental approvals, landowner agreements, tenement conditions, applicable legal requirements, royalties, bonds remediation, and insurances for its activities.
7. The Owner will maintain the Tenement in good standing, in full force and effect and will renew the Tenement as required by the applicable Sale Company. The applicable Sale Company will reimburse the Owner for a fair and equitable share of the outgoings, in proportion to the level of its respective activities on the Tenement compared to the activities of the Owner. The Owner will not surrender any portion of the Tenement unless required to do so by law, in which case the area to be surrendered will be agreed between the Owner and the applicable Sale Company.
8. The Owner will not transfer, assign or encumber the Tenement or any interest in the Tenement unless the intended assignee has first entered into an deed of covenant with the applicable Sale Company agreeing to be bound by these terms in place of the Owner in relation to the interest to be assigned or encumbered.
9. The Owner can surrender the Tenement at any time if it first offers to transfer the Tenement to the Sale Companies for \$1.00 and that offer is declined or not accepted within 30 business days after the offer.

MEGA URANIUM LTD.: "MGA" (TSX)

FOR IMMEDIATE RELEASE: August 12, 2013

**MEGA URANIUM TO SELL LAKE MAITLAND URANIUM PROJECT TO TORO ENERGY**

TORONTO, Ontario (August 12, 2013) - Mega Uranium Ltd. (TSX:MGA) ("Mega" or the "Company") is pleased to announce that it has entered into a binding term sheet with Toro Energy Limited ("Toro") (ASX:TOE) to sell its Lake Maitland Uranium Project ("Lake Maitland") in Western Australia to Toro for 415 million ordinary shares of Toro (the "Transaction"). Upon completion of the Transaction, Mega will own approximately 28% of the issued and outstanding shares of Toro.

Toro is an Australian uranium company listed on the Australian Stock Exchange. Toro's flagship and wholly-owned Wiluna uranium project is located 30 km southeast of Wiluna in Central Western Australia and approximately 90 km north-west of Lake Maitland. Toro has updated prefeasibility estimates and the process engineering phase of the definitive feasibility study complete for mining of two shallow calcrete deposits, Lake Way and Centipede, for which all government environmental approvals have been received.

**Highlights of the Transaction**

- Consolidates quality Western Australian uranium assets and expands Mega's uranium interests into an enlarged Wiluna project development;
- Environmental permits for Toro's first two deposits at the Wiluna project, Centipede and Lake Way, have already been granted, which potentially shortens the development time-frame for Lake Maitland;
- Operational synergies potential across geologically similar projects;
- Opportunity for significant capital savings due to the requirement for only one central processing facility to treat ore from Lake Maitland and Toro's Wiluna deposits; and
- Potential further benefit for Mega as shareholder in the enlarged Toro.

Stewart Taylor, Mega's President said, "Mega is pleased to partner with Toro on the development of Wiluna. Given the proximities and similarities of the main deposits, the integration of Lake Maitland into the broader Wiluna Project is expected to unlock benefits for both Toro and Mega shareholders."

*The Uranium Leader™*

The Transaction is conditional upon the receipt of various approvals, including the approval of Toro shareholders, Mega's Project Partners (as defined below) consenting to and not exercising any pre-emptive rights that they may have in connection with the Transaction, and other customary closing conditions. The Transaction has the support of Toro's major shareholder, OZ Minerals Limited, which has a 39% equity interest in Toro, and which has confirmed that, subject to the independent expert report obtained by Toro indicating that the acquisition is fair and reasonable and no superior proposal emerging, it intends to vote in favour of the Transaction. On completion of the Transaction, OZ Minerals will hold a 28.5% interest in Toro.

Mega understands that following completion of the Transaction, Toro's focus will be to work towards implementation of the already approved Wiluna Project and to commence studies to optimise the inclusion of Lake Maitland within the overall Wiluna Project over time. This will include reviewing optimal mine planning and investigating the opportunity to expand the capacity of the Wiluna Project above Toro's currently planned 1.3 Mtpa processing capacity.

The Transaction does not impact upon Mega's previously announced proposed merger with Rockgate Capital Corp. (see June 6, 2013 press release), which the parties continue to work toward.

#### **Key Terms of the Transaction**

The Transaction is expected to be effected by Toro's subsidiary, Nova Energy Pty Ltd, acquiring 100% of the issued capital of Mega's subsidiary, Redport Exploration Pty Ltd ("**Redport**"). Redport, through its 100% owned subsidiaries, will own the relevant Lake Maitland tenements and associated assets and rights and at completion will have a surplus cash balance of \$1.5 million. Consideration for the Transaction is 415 million fully paid ordinary shares in Toro.

On completion of the Transaction, Mega will hold a 28% equity interest in Toro. Toro has agreed to grant Mega rights to appoint two nominees to the Toro board of directors for so long as Mega maintains at least a 22% interest in Toro. Initially, Mega's Executive Vice President – Corporate Affairs, Richard Patricio, and Executive Vice President – Australia, Richard Homsany, will join the board of Toro as non-executive directors. Mega has also agreed to a 12-month escrow of its Toro shares, with customary market exceptions, and to a standstill which limits Mega's capacity to acquire further Toro shares within the next 2 years.

#### ***Project Partners' Position Regarding Lake Maitland***

In June 2009, Mega entered into a series of agreements with JAURD International Lake Maitland Project Pty Ltd ("**JAURD**") and Itochu Minerals & Energy of Australia Pty Ltd ("**IMEA**") (together the "**Project Partners**"). Under those agreements, the Project Partners hold an option to acquire a 35% interest in Lake Maitland for approximately US\$49 million (of which US\$39 million remains payable) which can be exercised at any time up to a decision to mine on Lake Maitland. If the Project Partners

**The Uranium Leader™**

exercise their option to acquire an interest in Lake Maitland, they will be entitled to various rights over the development of, and offtake from, Lake Maitland and are obliged to contribute financing for their share of costs for the development of Lake Maitland in order to maintain their respective joint venture interests in Lake Maitland.

In addition, the Project Partners hold certain pre-emptive and consent rights that may apply to the Transaction.

#### ***Conditions Precedent to Completion***

The conditions precedent to completion of the Transaction include, but are not limited to:

- Toro shareholder approval under ASX LR7.1 and s611 Item 7 of the Corporations Act;
- Any necessary FIRB approval required by Mega and Toro in relation to the transaction; and
- The Project Partners consenting to the Transaction and not exercising any pre-emptive rights that may apply.

#### ***Timing***

It is anticipated that a meeting of Toro shareholders will be held in early October 2013 at which Toro shareholders will be asked to approve the Transaction. It is expected that completion of the Transaction would occur soon thereafter, subject to the satisfaction or waiver of all conditions precedent to completion.

#### ***Break-Fees***

Reciprocal break fees of \$1.0 million are payable in certain circumstances by each of Mega and Toro.

#### ***Mega Advisors***

Dundee Capital Markets is acting as financial advisor to Mega.

**ASX RELEASE**

12 August 2013

**TORO ACQUIRES LAKE MAITLAND URANIUM PROJECT FROM MEGA URANIUM  
EXPANDS WILUNA REGIONAL RESOURCE BASE BY 42%**

Toro Energy Limited (ASX: **TOE**) is pleased to announce it has entered into a binding terms sheet to acquire the Lake Maitland Uranium Project in Western Australia from Mega Uranium Ltd (TSX: **MGA**) for 415 million fully paid ordinary shares in Toro.

As Toro continues to work on implementing its 100% owned Wiluna Uranium Project, ('**Wiluna**') within existing government approvals, this acquisition provides the opportunity to significantly increase the operational life of Wiluna.

**Highlights**

Lake Maitland is located 90 km south-east of the proposed site of the processing facility at Toro's 100% owned Wiluna Uranium Project. The acquisition is expected to provide a number of significant benefits for the development of Wiluna:

- **Significantly larger combined resource base:** The acquisition will expand Wiluna's JORC categorized total Mineral Resource base by 42% from 54Mlb of U<sub>3</sub>O<sub>8</sub> to 76Mlb of U<sub>3</sub>O<sub>8</sub> potentially sufficient for a minimum 20 year project life at Wiluna<sup>1</sup>;
- **Improvement in grade and potential to support Wiluna capacity expansion:** The Lake Maitland Mineral Resource includes high grade material comprising 6.4Mt @ 881ppm (500ppm cut-off) which is expected to improve the overall blended head grade from the Wiluna deposits, and the increased resources provide an opportunity to investigate an expansion to the planned Wiluna project, subject to government approvals;
- **Potential to improve Wiluna Project economics:** The increase in the Wiluna regional resource (both in tonnes and grade) has the potential to significantly improve the overall project economics, in particular through decreased operating costs particularly in the first 10 years of operations;
- **Benefit from pre-existing strategic partner relationship:** The existing Lake Maitland strategic partners - JAURD International Lake Maitland Project Pty Ltd ('**JAURD**') and Itochu Minerals & Energy of Australia Pty Ltd ('**IMEA**') - have an option to acquire a 35% interest in Lake Maitland and participate in the financing and development of that deposit. Toro will inherit the significant strategic and financial benefits of this pre-existing relationship; and

<sup>1</sup> Based on 1.3 Mtpa processing rate

- **A\$3.5 million of additional capital committed with the transaction:** A\$1.5 million of cash reserves are included in the Lake Maitland assets which will be acquired from Mega as part of the acquisition. In addition, OZ Minerals Limited and Pinetree Capital Ltd. have each committed to provide A\$1.0 million in equity subscriptions to Toro to provide further financial flexibility to meet transaction and ongoing costs.

“Lake Maitland adds significant scale to our Wiluna Project and further strengthens the Wiluna investment case. We believe the characteristics of the Lake Maitland deposit will provide significant operational and financing benefits to Wiluna. Upon successful completion of the acquisition we will welcome Mega as a strategic cornerstone investor in Toro and look forward to working closely with JAURD / IMEA as development of Wiluna and Lake Maitland is progressed to a final investment decision.” Toro’s Managing Director, Dr Vanessa Guthrie said today.

Mega’s President, Mr Stewart Taylor commented: “Mega is pleased to partner with Toro on the development of Wiluna and Lake Maitland. Given the proximities and similarities of the main deposits, the integration of Lake Maitland into the broader Wiluna Project is expected to unlock benefits for both Toro and Mega shareholders.”

The acquisition is conditional upon a number of approvals including the receipt of shareholder approval of Toro, and JAURD / IMEA not exercising any pre-emptive rights that they may hold over the Lake Maitland assets. Toro’s major shareholder, OZ Minerals Limited, has confirmed that, subject to the independent expert report obtained by Toro indicating that the acquisition is fair and reasonable and no superior proposal emerging, it intends to vote in favour of the acquisition.

On completion of the acquisition OZ Minerals will own a 28.5% interest and Mega a 28% interest in the issued capital of Toro.

Dr Guthrie said that following completion of the acquisition, Toro’s focus will continue to be on bringing the already approved Wiluna Project into production during 2016 depending on improving uranium market conditions and securing of project financing.

Details of the Lake Maitland Uranium Project are included in Annexure A. Further information regarding the acquisition and a summary of key terms is included in Annexure B.

## Annexure A

### Information About Lake Maitland

The Lake Maitland Project is located 90km south-east of Toro's Wiluna Uranium Project, which is on track to become Western Australia's first uranium mine. Toro will acquire 8 exploration licences, 2 exploration licence applications, 3 prospecting licences, a granted mining lease and 5 miscellaneous licences plus uranium rights in respect of a further 6 tenements.

Map Showing Lake Maitland Project in Relation to Broader Wiluna Project

The Lake Maitland deposit was first identified in a regional aeromagnetic survey in 1967. Between discovery and the early 1980s five companies were active in evaluating the project. Redport began drilling in 2005 and Mega commenced evaluating the project in 2006.

### Geology and Resource

The Lake Maitland deposit lies within the Yandal Greenstone Belt of the Archean Yilgarn Craton.

The deposit is associated with calcrete, hosted in a package of sediments within a playa lake. The flat lying deposit is on average 1.7 m thick and lies only 1-2 m below the surface. The mineralisation has a large aerial extent, its crescent shape extends some 5 km in length (N-S) and around 2 km in width (E-W) with 3 arms extending to the west. The primary mineral, carnotite [K<sub>2</sub>(UO<sub>2</sub>)<sub>2</sub>(V<sub>2</sub>O<sub>8</sub>)•3(H<sub>2</sub>O)], is found within voids in cementations of calcium carbonate (calcrete) and as disseminations within sands, silts and clays.

Mega has published a Mineral Resource estimate of 20.8Mt @ 486ppm for 22.3Mlb contained U<sub>3</sub>O<sub>8</sub> (200ppm cut-off).

Cut-off (PPM)	Measured and Indicated			Inferred			Total		
	Tonnes M's	Grade PPM	MLB's U <sub>3</sub> O <sub>8</sub>	Tonnes M's	Grade PPM	MLB's U <sub>3</sub> O <sub>8</sub>	Tonnes M's	Grade PPM	MLB's U <sub>3</sub> O <sub>8</sub>
100	28.8	376	23.8	3.6	274	2.2	32.4	365	26.0
200	18.9	497	20.7	1.9	374	1.6	20.8	486	22.3
500	6.1	888	11.8	0.3	759	0.6	6.4	881	12.4

The current resource drill hole database comprises 1,441 holes for a total of 17,451 metres. Drillhole coverage at 100 mN by 100 mE spacing and 200 mN x 100mE spacing has been achieved for the majority of the resource area. All holes have been geo-physically logged using calibrated total gamma probes and the results converted to equivalent U<sub>3</sub>O<sub>8</sub> (eU<sub>3</sub>O<sub>8</sub>) grades.

### **Metallurgy and Process Design**

A significant amount of metallurgical testwork has been completed on samples from Lake Maitland. The work recorded comparable extractions and metallurgical performance to similar testwork on samples from Toro's Centipede, Millipede and Lake Way deposits which demonstrated that ore mineralogy is very similar across each of the deposits. The independently selected processing flowsheet developed for Lake Maitland is very similar to the processing facility design that has been progressed for the Wiluna Project.

### **Environment and Community**

In October 2010 the Environmental Protection Authority of Western Australia approved the Environmental Scoping Document (ESD) for Lake Maitland. The ESD identifies the key potential environmental impacts of the project and defines the scope of investigations and studies needed to complete the Environmental Review and Management Programme (ERMP) as the next stage in the government assessment and approval process. The ERMP is at an advanced stage of preparation.

There are no registered Aboriginal heritage sites inside the Lake Maitland mining lease. Consultation with the traditional owners of the area has included heritage surveys in and around the project area to ensure the protection of culturally significant areas during on-going land disturbance work. A protocol has been signed with the traditional owners for the negotiation of a mining agreement.

## Annexure B

### KEY TERMS AND A SUMMARY OF THE ACQUISITION

*A summary of the key terms of the Acquisition are set out below. This is a summary only and does not contain all of the terms of the agreement reached between the parties.*

#### **Acquisition by Toro**

Toro Energy Limited ("**Toro**") and Mega Uranium Ltd. ("**Mega**") have entered into a binding term sheet for Toro to acquire the Lake Maitland Uranium Project ("**Lake Maitland**") in Western Australia (inclusive of A\$1.5 million of cash reserves) from Mega ("**Acquisition**").

The Acquisition will be effected by Toro's 100% owned subsidiary, Nova Energy Pty Ltd, acquiring 100% of the issued capital of Mega's 100% owned subsidiary Redport Exploration Pty Ltd ("**Redport**")<sup>2</sup>.

Redport, through its 100% owned subsidiaries, will own the relevant Lake Maitland tenements, associated assets, rights, mining information, interests and a surplus cash balance of A\$1.5 million (collectively, the "**Lake Maitland Assets**").

#### **Consideration**

Consideration for the Acquisition is 415 million fully paid ordinary shares in Toro. On completion of the Acquisition, Mega will hold a 28% shareholding interest and OZ Minerals Limited ("**OZ Minerals**"), Toro's founding shareholder, a 28.5% shareholding interest in Toro.

#### **Board representation**

Toro has agreed to grant Mega rights to appoint two nominees to the Toro Board of Directors as long as Mega maintains a minimum of 22% interest in Toro. Initially, Mega's Executive Vice President - Corporate Affairs Mr. Richard Patricio and Executive Vice President - Australia Mr. Richard Homsany will join the Board of Toro as non-executive directors.

#### **Escrow and Standstill**

Mega has also agreed to a 12 month voluntary escrow on its ordinary shares in Toro, with customary market exceptions and for 2 years after completion agreed:

- not to increase its interest in Toro above 28% or acquire additional Toro shares other than if that interest increases through a pro-rata participation in an entitlement offer by Toro;

---

<sup>2</sup> If the parties agree, Mega and Toro will cooperate in structuring the Lake Maitland Acquisition, which may vary from the share purchase structure proposed in the terms sheet, to achieve the most efficient structure for each party in light of tax, securities, corporate law and other relevant considerations.

- not to requisition a Toro shareholders meeting, solicit proxies or seek to influence or control the composition of the Toro Board or decisions about Toro's financial and operating policies during that period; and
- if Pinetree Capital Ltd. acquires additional Toro shares taking the combined Mega/Pinetree Capital Ltd. holding above 28.8%, to suspend its voting rights for an equivalent number of the Toro shares it holds.

### ***Project Partners' Position Regarding Lake Maitland***

In June 2009, Mega entered into a series of agreements with JAURD and IMEA (together the "Project Partners").

Under those agreements, the Project Partners hold an option to acquire a 35% interest in Lake Maitland for approximately US\$39 million which can be exercised at any time up to a decision to mine on Lake Maitland. The Project Partners are not required to contribute any further funds to earn this option or contribute to further feasibility work. If the Project Partners exercise their option to acquire an interest in Lake Maitland, they will be entitled to various rights over the development and offtake of Lake Maitland and are obliged to contribute financing for their share of costs for the development of Lake Maitland in order to maintain their respective joint venture interests in Lake Maitland.

In addition, the Project Partners hold certain pre-emptive and consent rights that may apply to the Acquisition.

### ***Capital Raising***

In conjunction with the Acquisition, Toro has entered into separate share subscription agreements with each of OZ Minerals and Pinetree Capital Ltd., for A\$1.0 million each. The settlement of these subscriptions will be conditional upon the completion of the Acquisition and all necessary consents and approvals being obtained.

OZ Minerals and Pinetree Capital Ltd. have agreed that the subscription will be A\$0.08 per share provided that if Toro conducts a capital raising before the completion of the Acquisition, the issue price will be the same as the price of that capital raising. Completion under the subscription agreement will occur shortly after completion of the Acquisition.

The funds received from OZ Minerals and Pinetree Capital Ltd. will be applied to Toro's costs of acquiring Lake Maitland and general working capital.

### ***Conditions Precedent to Completion***

The Acquisition is conditional on:

- Toro shareholder approval under ASX LR7.1 and s611 item (7) of the Corporations Act in relation to the Acquisition;
- the Project Partners not electing to exercise any pre-emptive rights and providing any consent in relation to the Acquisition to the extent required;

- no material adverse change in the Redport and its subsidiaries and the Lake Maitland assets or breach of warranty given by Mega;
- no material adverse change in Toro occurring;
- Redport and its subsidiaries being restructured to hold all of the Lake Maitland Assets to the reasonable satisfaction of Toro;
- Any necessary FIRB approval required by Mega and Toro in relation to the transaction;
- approval under Toro's Macquarie Bank facility and any consents required to include the include certain Lake Maitland Assets as the security under that facility;
- Toro being satisfied that completion of the share subscription by Pinetree Capital Ltd. and Oz Minerals will occur (the Acquisition and the share subscription by Pinetree Capital Ltd. and Oz Minerals Limited collectively being the "Transaction").

The end date for satisfaction of the conditions is Friday 29 November 2013.

The Acquisition is not subject to due diligence by either party or any funding condition. Mega has advised that no approval by Mega shareholders is required.

#### ***Timetable, Transaction Implementation and Support***

Mega and Toro have agreed to do all things necessary to implement the Acquisition and if required by either party, to negotiate more detailed agreements which reflect the terms and conditions agreed in the terms sheet with such other terms as are mutually agreed by Toro and Mega.

Toro expects to hold a meeting of Toro shareholders to approve the Transaction in early October 2013. A Notice of Meeting convening the meeting is to be sent to Toro shareholders in the coming weeks. Satisfaction or waiver of all conditions precedent to completion is expected to be achieved by early October 2013 with completion to occur soon thereafter.

Toro and Mega have agreed not to take any action which will impede or delay the implementation of the Acquisition. This does not prevent Mega progressing with its merger with Rockgate Capital Corp., details of which have been announced by Mega, or undertaking certain restructuring activities in connection with the Acquisition.

Subject to a usual fiduciary duties exemption, the Mega Directors have unanimously approved and agreed to support the Acquisition and the Toro Directors unanimously recommend shareholders approve the Acquisition, subject to no superior proposal emerging or the independent expert report ("IER") to be obtained by Toro indicating that the Acquisition or the Transaction is not fair or is not reasonable provided that if the IER indicates that the Acquisition or the Transaction is not fair but is reasonable, the Toro Directors may only change their recommendation if they reasonably believe that the Acquisition or the Transaction is not in the best interest of Toro shareholders.

---

Mega will pay Toro a break fee of \$1 million if Toro terminates the Acquisition due to a material breach by Mega or if Mega Directors fail to approve and support the Acquisition or if the Project Partners exercise any rights of pre-emption or other rights to acquire a further interest in any Lake Maitland Assets or fail to give any consent required under the Lake Maitland Farm In to enable the Acquisition to proceed.

Toro will pay Mega a break fee of \$1 million if Mega terminates the Acquisition due to a material breach by Toro or if Toro Directors cease to recommend the Acquisition, other than where the IER indicates that the Acquisition is not fair and not reasonable or not fair but reasonable where the Board considers the Acquisition is not in the best interest of shareholders in the circumstances.

**General**

Other standard provisions apply including pre-completion restrictions on conduct of business, warranties and indemnities, limitations on claims, parent guarantees and confidentiality obligations.
