## **Contract award of Queensland Alumina Ltd**

24<sup>th</sup> April 2013

**ASX Limited**

### **QUEENSLAND ALUMINA LIMITED (QAL) – CONTRACT AWARD OF INDUSTRIAL SERVICES CONTRACT**

- **Provision of Industrial Cleaning Services to QAL in Gladstone, Queensland**
- **Three year contract**
- **Estimated revenue of up to \$30 Million**

Tox Free Solutions Limited ('Toxfree' or 'Company') is pleased to announce the Company has been successful in the winning of a contract for industrial services for Queensland Alumina Limited's Alumina Refinery in Gladstone, Queensland. The contract award is subject to signing of a contract between the parties which is expected to occur in the coming days.

The contract scope includes the provision of industrial cleaning and maintenance services, including:

- Hydro blasting and vacuum loading;
- Heat exchanger cleaning;
- Mechanical descaling;
- Tank cleaning;
- Drain cleaning.

The three year contract is expected to commence on 1 May 2013. Subject to the actual volume of work the estimated revenue can be up to \$30m over the term of the contract with capital expenditure of \$3.25m over the same period. Toxfree has a number of experienced personnel within its industrial services team, some of whom have significant experience working with QAL and Rio Tinto in Gladstone. The contract will employ approximately 30 personnel.

This is another significant achievement for Toxfree as the company continues to secure further waste management and industrial services contracts.

Steve Gostlow said "The award of the QAL industrial services contract is an excellent achievement. The Company has been investing in our Gladstone business for some time and this contract will provide a solid foundation for its future. We have an excellent team in Gladstone who will be doing their very best to ensure the safest, most reliable and sustainable solutions for Rio Tinto in the region"

#### **About Queensland Alumina Ltd:**

Queensland Alumina Limited (QAL) commenced operations in March 1967. Today QAL is one of the world's largest alumina refineries, producing some 3.95 million tonnes of the world's best smelter grade alumina per year.

The refinery covers 80 hectares of a 3050 hectare site on the south-east outskirts of the city of Gladstone. Adjacent to the plant is a wharf and storage facility on South Trees Island, which is connected to the mainland by a causeway bridge.

Toxfree continues to remain focussed on its corporate strategy. This contract is an excellent example of our business development focus. The Company has a number of tenders pending and hopes for some further positive news in the near term.

Yours faithfully

STEVE GOSTLOW  
Managing Director
