### **ABOUT TROY RESOURCES**

Troy Resources (TSX, ASX: TRY) is a dividend-paying junior gold producer, with a clear growth strategy. The company has two producing gold operations; Andorinhas mine in Para State, Brazil and the Casposo gold and silver mine, in San Juan province, Argentina.

Troy has an experienced Board and management team with a track record of successful, fast-track mine development and low-cost operations.

Troy has an annual exploration budget in excess of A\$15 million and a proven track record in exploration discoveries and strategic acquisitions.

Following the development of the Casposo project in Argentina, Troy has entered a renewed growth phase which has lifted the company's annual gold production above 100,000oz of gold per annum.

The Company is well positioned to continue its path of strong growth and profitable operations, and on track to achieve its vision of becoming a highly profitable mid-tier gold producer with a portfolio of quality long-life assets.

The Company maintains a robust balance sheet and forecasts continued strong cash flow from its current assets. Troy's gold production is unhedged; allowing its shareholders access to the full benefit of current and future gold price upside.

Troy is a responsible corporate citizen, committed to the best practice of health and safety, environmental stewardship and social responsibility.
