2. Year in Perspective

2012 started with low loose pearl prices due to the Company's liquidity position as at 31st December 2011. In March 2012 the Company successfully completed a 100% subscribed rights issue and shortfall placement which raised \$4,201,709. This increased liquidity supported a change in sales strategy that ultimately saw the average loose pearl price for the year ended 31 December 2012 increase in the vicinity of 32% when compared to the average loose pearl prices achieved in January and February 2012.

The Company's liquidity and net equity positions improved substantially from 31st December 2011 to 31st December 2012 as demonstrated by the following table:-

	2012	2011	Change	%
	\$'million	\$'million		
Cash and cash equivalents	2.1	0.4	1.7	425%

Borrowings	4.9	5.7	(0.8)	(14%)
Net Equity	24.5	20.3	4.2	21%

- **Revenue**

Revenue decreased by 3% in 2012 to \$12.0M. Loose pearl sales were less in value as the Company elected to seek higher margins due to its improved liquidity position. Retail and wholesale jewellery sales increased by \$0.6M as the Company opened its seventh retail outlet in Sanur, Bali and the newly established Showcase wholesale account realised sales for the first time. Interest revenue was higher due to the successful tax appeal in Indonesia.

	2012	2011

Retail & wholesale jewellery sales	1,931,364	1,308,355

Other operating revenue	204,903	147,267
Revenue from continuing operations	12,007,287	12,350,171

- **Operating expenses**

Gross profit margin improved overall from the previous financial year from 54% to 55%. Marketing expenses reduced dramatically as the Company changed its selling strategy for loose pearls by holding larger less frequent auctions through-out the year. Administration costs reduced slightly as the Company sort better efficiencies and cost control management in its operations.

- **Taxation**

The Indonesian taxation court handed down a favourable decision in December 2012 in relation to the double taxation that the company was required to pay for the 2007 tax year assessment. The funds (IDR 23,292,124,445) were received in February 2013.

- **Inventories**

The Company reduced its inventory holdings throughout the year in loose pearls and jewellery as it sought to improve working capital with more efficient stock control management.

- **Biological Assets (Oysters)**

The overall quantity of oysters decreased from 1,920,000 in 2011 to 1,867,000 in 2012 due to the Company's change in strategy from increasing quantity to that of improved quality of Oysters. Additional hatchery production and a new seeding facility at Lembata have seen better utilisation of favourable periods during the production year.

- **Equity**

A rights issue and share placements were undertaken in the first half of 2012, which raised capital of \$4.3M.

3. Production activities

The company achieved oyster seedings of 550,000 in 2012 as the Company sought to improve the quality of Oysters seeded. Seeding of virgin oysters was undertaken at the North Bali and Lembata, Flores sites.

Juvenile and Virgin stocks remained constant from 2011 to 2012 at 1.1million oysters The Company's third hatchery was commissioned in August 2012 which gives Atlas the capacity to be more selective and consistent in production of juveniles.

Following trials, the Lembata site has yielded promising results in the seeding of virgin oysters which has mitigated geographical risk and added flexibility by allowing seeding to be conducted

during favourable times of the year. The first pearl harvests conducted on Punggu Island in 2012 are on par with our other pearl grow-out sites. In 2013 the Punggu Island site will expand to increase capacity.

An additional grow-out site was commissioned in Patas, North Bali in 2012 which has shown above average performance in rearing of juveniles to virgin oysters.

4. Marketing

During 2012, Atlas changed its marketing and distribution of loose pearls strategy by holding fewer but larger auctions in Kobe, Japan and Hong Kong. Fewer auctions also improved grading and pearl presentation timing which helped increase the selling price.

Retail and wholesale sales improved significantly in 2012. This was due partly to the increased number of stores in Bali where a new retail outlet in Sanur was opened in October 2012, a full years trading of the Perth store and the opening of the wholesale division which opened in the first half of 2012 and is selling the Perl'eco brand to the Showcase chain of stores in Australia.
