REQUEST FOR TRADING HALT

King River Copper Limited (ASX: KRC) requests a trading halt pending then release of material assay results received today.

KRC refers to the announcement relating to the Chapman project discovery on 24 September 2013 and has today received the first round of final assay results on rock samples taken from the Chapman project.

The Directors have taken the view these results are material. The results are being tabulated and interpreted by the KRC geologists and will be announced as soon as possible.

KRC request that the trading halt remain in place until the earlier of the commencement of normal trading on Friday 4 October 2013 or when the announcement of the assay results is made.

The Company is not aware of any reason why the halt should not be granted.

Yours faithfully

Greg MacMillan
Company Secretary
