### **FABTECH AUSTRALIA WINS \$11.5M GEOMEMBRANE LINING CONTRACT WITH LAING O'ROURKE**

E&A Limited (EAL) wholly owned subsidiary, Fabtech Australia Pty Ltd (Fabtech) has entered into a contract with Laing O'Rourke Australia Construction Pty Limited for the supply and installation of geo-synthetic liners in the vicinity of Wandoan, Queensland. The value of the contract is approximately \$11.5 million. Early works have commenced and completion is anticipated in mid 2014.

Fabtech Managing Director, Graham Fairhead said "Fabtech is very familiar with the region having established facilities in Dalby, Chinchilla, Roma & Moranbah to service the geomembrane containment projects of the major Queensland gas, mining and energy companies."

E&A Limited Chairman, Stephen Young said "Fabtech continues to grow its national presence with increasing demand for its specialist skills on large scale and technical environmental projects for the mining, oil, gas and energy sectors."

"Following a successful FY13 performance, Fabtech's outlook remains positive with a substantial order book and strong tender pipeline."
