

## Galilee Energy: Board Changes

Galilee Energy Limited (ASX:**GLL**) (“Galilee”) today announces the appointment of Paul Jensen to the Board as an Independent Non-executive Director. Further, Glenn Haworth has stepped down as Managing Director to take up the position of General Manager, reporting to the Board.

“Glenn’s knowledge and experience is integral to the success of the Galilee Gas Project, and I know that his contributions to the project are highly valued by our JV partner, AGL. I am delighted Glenn can focus on the Galilee Gas Project”, said Chairman Andrew Young.

The Board wishes to ensure that all shareholders are effectively and fairly represented on the Board through the presence of independent directors. “Paul Jensen provides a significant business background to balance the strong technical focus of today’s board”, said Chairman Andrew Young. Mr Jensen’s biography will shortly be available on the Company’s website.

### About Galilee

Galilee Energy Limited (ASX: **GLL**) is an emerging energy company with coal seam gas interests in Australia.

Galilee holds two highly prospective coal seam gas and hydrocarbon tenements in the Galilee Basin in central Queensland through subsidiary, Galilee Resources. The tenements, ATP 529P and 799P, cover approximately 7,000 km<sup>2</sup>.

The Galilee Gas Project, ATP 529P, is held in a 50/50 joint venture with AGL Energy Limited (AGL, ASX: **AGK**) under which AGL is the operator. ATP 799P is wholly owned and operated by Galilee. In June 2011 the joint venture announced its first Contingent Resource estimate of 259 petajoules (PJ) of 2C and 1,090 PJ of 3C Resources (technically recoverable) from 450km<sup>2</sup> of ATP 529P, centred on the Glenaras pilot. The pilot has restarted and is undergoing flow testing, having produced 1,170 mscf in May 2012.

Galilee has an experienced board and management with collective track records in growing junior resource companies. It is pursuing growth through hydrocarbon development opportunities.
