Dear Sir/Madam

ASX ANNOUNCEMENT

SCOTT CORPORATION SUCCESSFULLY RETAINS SITA CONTRACT

Scott Corporation Limited has been successful in retaining the contract that it carries out for SITA Australia Pty Limited in the Sydney metropolitan area of New South Wales. This is the culmination of a market tender process that SITA has conducted over the last 3 months. Scott Corporation's Managing Director, Dave Keane said "We are very pleased to extend our relationship with SITA as a significant road transport service provider in their waste management business. This association commenced in July 2009 under the previously state owned Waste Services NSW, and will now continue for another 5 years from July 2012. The contract allows our client to further extend the term of the agreement by up to 12 months at their discretion. We have established an excellent partnership with the management team at SITA, and are grateful of the confidence they have shown in Scott Corporation."

Scott Corporation will invest approximately \$3.6 million into new plant and equipment for this next phase of the relationship. This revised contract provides for additional road transport services from two extra waste transfer stations. Under the original contract Scott Corporation was responsible for road transport services at the Artarmon and Rockdale transfer stations, which have been retained together with transport services at the Ryde and Belrose transfer stations.

For and on behalf of the Board,

Karl Cope
Company Secretary
