APPOINTMENT OF CHRIS GBYL AS CHIEF EXECUTIVE OFFICER

Experienced exploration and mining executive Mr Chris Gbyl has been appointed Chief Executive Officer of Signature Metals Limited (ASX: SBL) ("Signature Metals" or "Company").

Mr Chris Gbyl has proven general management experience, gained from engineering, project management, commercial and senior operations roles. This experience has been developed through a number of senior roles within various locations both in Australia and overseas. Chris' recent key appointments were with West African Cape Lambert Resources and Equigold where he had key responsibilities for developing the projects from exploration to operation, and developing and maintaining excellent relationships with government, local communities and local leaders.

In addition, Chris has held project management positions with PT Leighton Indonesia, Cooks Construction Ltd and CSR-AWP Contractors, and was the operations manager with Consolidated Minerals Limited in Western Australia.

Announcing the appointment, Signature Metals' Chairman Mr Raymond Tan said he is delighted to appoint someone of Mr Gbyl's calibre to lead the Signature Metals team. "The Board is very pleased to welcome Chris as the Company's new CEO. Chris brings valuable experience to the Company's management team and supplements the high calibre of staff that are capable of building the Konongo Gold Project located on the Ashanti Gold Belt in Ghana.

"Mr Gbyl's experience, particularly his West African experiences, is ideal for Signature Metals' stage of development," Mr Tan said.

Mr Gbyl has a Bachelor of Engineering degree from Krakow University and a Bachelor of Commerce degree from Curtin University, Western Australia.
