

**SOUTHERN CROSS  
ELECTRICAL  
ENGINEERING LIMITED**

## **ASX RELEASE**

26 August 2012

### **Notice of award of contract**

Southern Cross Electrical Engineering Limited (ASX:SXE) is pleased to announce that its overhead powerline construction business, K.J. Johnson & Co Ltd, has been awarded a contract with Rio Tinto for the second portion of the Yandi Sustaining Project - Design, Supply and Construct 33kV Distribution Overhead Line.

As part of the Yandi Sustaining Project the existing 33kV overhead line distribution supplying various mine facilities from the Yandi 220kV Switchyard is to be upgraded and new sections of powerlines are to be installed. The value of the second portion is worth in excess of \$29m with a forecast completion date in January 2014.

SXE Managing Director, Simon High, said "We are extremely pleased to be awarded the second portion of this contract. We consider that this demonstrates to the market the capability and competence of our infrastructure business to undertake large complex overhead powerline projects of this nature."

K. J. Johnson & Co Ltd specialise in the construction of overhead distribution HV powerlines, including switchgear and transformer installations. Other capabilities include design and engineering, asset management, maintenance, repairs, modification and powerline additions.
