---

Dear Shareholder,

The Company has announced an unmarketable parcels program. Under the program, the Company will offer to sell the shares of shareholders whose holdings are valued at less than \$500. At the last traded price on the Record Date of the program (1.5 cents) this translates to holdings of less than 33,333 shares.

The purpose of this letter is to notify you that, following the completion of the program, it is probable that the Company will have an insufficient spread of shareholders to remain a listed company. Even if this is not the case, the Company will consider whether it is appropriate for it to incur the expenses of remaining a listed company.

Accordingly, if you are reluctant to face the prospect of remaining as a shareholder in an unlisted company, you should consider the opportunity to sell your shareholding.

Yours sincerely,

Joseph Wong  
Managing Director
