

**Media Release and ASX Announcement - Melbourne, 30 January 2012.**

**CPT Global Limited (CGO)**

**Renewal of Risk Reward Contracts and Commencement of New Engagements With Major International Clients.**

CPT Global Limited (CPT) announces the renewal of long term risk reward contracts with major international clients for a further 12 months.

These clients are Fortune 500 organisations which operate within the finance sector in the USA and Europe. The renewals reinforce the value that CPT has brought to them over a sustained period of time (for some of these clients, more than 7 years). CPT's team of expert consultants have become an integral part of our client's teams in reducing year on year IT costs, which is now a key focus of these companies.

In addition CPT has recently commenced 2 new cost optimisation engagements with major international clients, one in the USA which has already been extended to a risk reward engagement and another in Europe. Both clients are targeting substantial cost reductions over the next 12 months and have identified as CPT as their partner of choice to achieve their cost savings.

Gerry Tuddenham, CPT's Managing Director said 'This is further recognition of CPT's value proposition within international markets and confirmation of our business growth strategy. Having established our credentials as a first class IT cost reduction business partner, we invested in the establishment of our international business through difficult economic times. Our list of Fortune 500 clients continues to grow, and with cost reduction now a key issue on all major company's IT agenda, we expect to see further growth in our international business over the next few years.'
