About Cougar Energy

Cougar Energy Limited (**ASX:CXY**) is a leading Australian company at the forefront of progressing the development and commercialisation of Underground Coal Gasification (UCG) projects in Asia.

The UCG process converts coal in-situ into a Syngas which can be used as a fuel for power generation or for conversion into a range of downstream petrochemical products.

The UCG process generates:

- **Cleaner Energy**
- **Lower Cost Energy**
- **Efficient Coal Resource Utilisation**

Cougar Energy continues to assess the energy needs of target Asian countries with a view to providing an environmentally friendly, lower cost energy solution utilising UCG technology.

Cougar's strategic vision is to become the leading clean energy provider across Asia.
