ASX Release: 1 March 2012

NEW CHIEF EXECUTIVE OFFICER COMMENCES

Brockman Resources Limited (ASX: BRM) (“Brockman” or “the Company”) is pleased to confirm that Mr Russell Tipper has today commenced as Chief Executive Officer of the Company.

Russell, a mining engineer, has over 30 years experience in mining operations, finance and project development, including senior management and operational roles in steel raw materials operations, producing iron ore, coal and manganese for Robe River Mining Ltd and BHP Billiton. He has led project teams producing bankable feasibility studies for Hope Downs Iron Ore and the Karara Magnetite and Mungada Hematite Projects and was responsible, at Aquila Resources Limited, for oversight of the API West Pilbara Iron Ore Project and for the development of Aquila’s iron ore and manganese prospects in South Africa.

The Board is also pleased to announce that -

- Mr Colin Paterson, who has been acting CEO since September 2011, has been appointed to the new role of General Manager – Resources and Business Development (and will continue as an Executive Director of the Company);
- Mr Aning Zhang, formerly Principal Geologist, has been appointed Manager Exploration; and
- Mr Blair Smith has been appointed to the new position of Project Director.

These changes to the Company’s key management structure will provide the support required by the new Chief Executive Officer to drive the development of Marillana rail and port infrastructure solutions, bankable feasibility study, operational management and the pursuit of a more aggressive exploration programme at the Company’s highly promising Ophthalmia and West Pilbara Iron Ore prospects.

ABOUT BROCKMAN RESOURCES

Brockman is an ASX300 listed Company with its principal project, the Marillana Iron Ore Project, located 100km north-west of Newman in the Pilbara region of Western Australia and lying close to existing rail, road and port infrastructure. The Marillana Project will be one of the most significant hematite projects to be developed within Australia over the forthcoming years.

Brockman has built a portfolio of additional iron ore tenements throughout the Pilbara (predominantly the Ophthalmia and West Pilbara areas) to develop a pipeline of future projects and expansions, thereby creating future value enhancement to the Company's shareholders.

The Company is a founding member of North West Infrastructure, which is completing a Definitive Feasibility Study into the development of two inner harbour berths and associated material handling infrastructure at Port Hedland to accommodate a 50 million tonne per annum export capacity allocation.
