

## Longtom Operational Update

---

Nexus Energy Limited (**Nexus**) advises that following the successful identification of the electrical fault (refer 22 June 2012 Longtom Operational Update) the offshore inspection and intervention program undertaken on the Longtom Facilities has been completed within budget and schedule.

The program was successful in implementing an engineering solution with production start-up activities initiated on 28 June 2012. Full production has now been achieved and findings from the comprehensive inspection program will be incorporated into Longtom's production system long term maintenance plan.
