**SECOND TRIAL SHIPMENT CONFIRMS HIGH GRADE AND HIGH QUALITY MANGANESE ORE  
SECOND OFFER OF OFF-TAKE AGREEMENT UNDER REVIEW**

Zambian focused manganese exploration and mining company Kaboko Mining Limited (**ASX:KAB**) ("**Kaboko**" or the "**Company**") is pleased to announce that it has received certified results of the second trial shipment of 300 tonnes manganese that was shipped in February 2012 to Xiamen in China.

The certified results, summarised below and attached, have confirmed the high grade of manganese in the 300 tonne trial shipment of ore delivered to be in excess of 55% Mn. The certified results have further confirmed the high quality of the manganese ore.

Mn	Fe <sub>2</sub>	P	SiO <sub>2</sub>	Al <sub>2</sub> O <sub>3</sub>	S
55.10%	0.43%	0.023%	5.52%	1.75%	0.008%

*Certified Test Results from Second Trial Shipment of Manganese Ore to China*

The testwork was completed by a major Chinese trading company (rated one of China's top 100 listed companies, with annual trade volume exceeding RMB 10 billion) and one of the leading importers of ferrous and non-ferrous metals into China. The testwork is the third independent analyses and testwork completed on the manganese ore produced and exported from the Company's Emmanuel Project in Zambia.

As a result of the testwork completed which has verified previous results, the Company has received from them a second indicative and non-binding offer of an off-take agreement, for the supply of a minimum 48% manganese ore lump product, that is proposed to be priced at a premium to BHP's reference price (expressed in US\$ DMTU (per dry metric ton unit Mn content)), CIF China basis. The Company is currently reviewing the terms and conditions of the indicative off-take agreement and will update the market in the event a binding agreement is reached.

Yours faithfully

**JASON BREWER**  
Executive Director

TEST REPORT

No. 2112006647

Date: 2012 年 03 月 29 日

Page: 1 of 1

委 托 单 位: 厦门国贸集团股份有限公司

品 名/ 规 格: 锰矿

样 品 数 量: /

样品状态及标识: 399500112011866

抽/收 样 日 期: 2012 年 02 月 23 日

检 测 结 果:

0087538  
应委托方申请, 本中心于 2012 年 02 月 23 日派员至厦门海天码头堆场, 对 BEWXMN120000001 号提单对应的 PCIU2782193 等共 11 个集装箱内所申报的货物(塑料编织吨袋装)进行取样。每个集装箱随机抽取 6 袋货物, 并从每袋中扦取 1 个份样/约 2 千克的样品, 共扦取 66 个份样/约 132 千克的样品, 合并成一混合样。样品呈黑色小块状。样品经检验, 结果如下:

检测项目	检测结果	检测方法
水分 (%)	3.66	GB/T 14949.8-1994
Mn (干态, %)	55.10	GB/T 24519-2009
Fe (干态, %)	0.43	GB/T 24519-2009
P (干态, %)	0.023	GB/T 24519-2009
SiO <sub>2</sub> (干态, %)	5.52	GB/T 24519-2009
Al <sub>2</sub> O <sub>3</sub> (干态, %)	1.75	GB/T 24519-2009
S (干态, %)	0.008	GB/T 14949.9-1994
