About Galaxy (ASX: GXY)

Galaxy Resources Ltd ("Galaxy") is an Australian-based global lithium company with lithium production facilities, hard rock mines and brine assets in Australia, China, Canada and Argentina. The Company is an integrated lithium mining, chemicals and battery company listed on the Australian Securities Exchange (Code: GXY) and is a member of the S&P/ASX 300 Index.

Galaxy wholly owns the Mt Cattlin project near Ravensthorpe in Western Australia where it mines lithium pegmatite ore and processes it on site to produce a spodumene concentrate and tantalum by-product. At full capacity, Galaxy will process 137,000 tpa of spodumene concentrate which will feed the Company's wholly-owned Jiangsu Lithium Carbonate Plant in China's Jiangsu province. The Jiangsu Plant has commenced production and will produce 17,000 tpa of battery grade lithium carbonate, the largest producer in the Asia Pacific region and the fourth largest in the world.

Galaxy is also advancing plans to develop the Sal de Vida (70%) lithium and potash brine project in Argentina situated in the lithium triangle (where Chile, Argentina and Bolivia meet) which is currently the source of 60% of global lithium production. Sal de Vida has excellent promise as a future low cost brine mine and lithium carbonate processing facility.

The Company completed a feasibility study for a proposed lithium-ion battery plant, to produce 620,000 battery packs per annum for the electric bike (e-bike) market. The Company also owns the James Bay (100%) Lithium Pegmatite Project in Quebec, Canada.

Lithium compounds are used in the manufacture of ceramics, glass, electronics and are an essential cathode material for long life lithium-ion batteries used to power e-bikes and hybrid and electric vehicles. Galaxy is bullish about the global lithium demand outlook and is positioning itself to achieve its goal of being involved in every step of the lithium supply chain.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

For the three months ended to March 31, 2012

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Galaxy Resources Limited (the "Company") is a company domiciled in Australia. The unaudited condensed consolidated interim financial statements of the Company as at and for the three months ended March 31, 2012 comprise the Company and its subsidiaries (together referred to as the "Group"). The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied unless otherwise stated.

a. Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all of the information required for full financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended December 31, 2011.

These unaudited condensed consolidated interim financial statements were approved by the Board of Directors on July 31, 2012.

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with the Class Order amounts in the unaudited condensed consolidated interim financial statements have been rounded off to the nearest thousand dollars, unless otherwise stated.

b. Accounting policies

The accounting policies applied by the Group in the unaudited condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial report as at and for the year ended December 31, 2011.

c. Functional and Presentation Currency

The unaudited condensed consolidated financial statements are presented in Australian dollars, which is the Company's functional currency. The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates.

d. Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Except as described below in preparing this unaudited consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2011.

Site Restoration Liability

Determining the cost of rehabilitation, decommissioning and restoration of the area disturbed during mining activities in accordance with the group's accounting policy requires the use of significant estimates and assumptions, including: the appropriate rate at which to discount the liability, the timing of the cash flows and expected life of the relevant area of interest, the application of relevant environmental legislation, and the future expected costs of rehabilitation, decommissioning and restoration.

Changes in the estimates and assumptions used to determine the costs of rehabilitation, decommissioning and restoration could have a material impact on the carrying value of the site restoration provision and related asset. The provision recognised for each site is reviewed at each reporting date and updated based on the facts and circumstances available at the time.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements
For the three months ended to March 31, 2012

e. Financial Position

Galaxy is currently in the process of the commissioning and ramp-up of the Jiangsu Plant. During July 2012, Galaxy announced the temporary cessation of mining and processing activities at its Mt Cattlin operations to allow the utilisation of existing spodumene stocks and preserve cash. Over the coming twelve months, Galaxy intends to utilise equity contributions together with loans from China Construction Bank, Shanghai Pudong Development Bank Co, Industrial and Commercial Bank of China, and Agricultural Bank of China.

During June 2011, Galaxy entered into unsecured finance agreements with China Construction Bank Limited for facilities totalling RMB 379.6 million, approximately \$59.2 million.

In March 2012, Galaxy entered into a further unsecured funding facility with Shanghai Pudong Development Bank Co., Ltd for RMB 84 million, approximately \$13.1 million which is repayable in three years from the date of drawdown.

In April 2012, Galaxy entered into a further unsecured funding facility with the Industrial and Commercial Bank of China for RMB 182 million, approximately \$28.4 million which is repayable in five years from the date of drawdown.

As at June 30, 2012, Galaxy had undrawn facilities in China of approximately RMB 143 million (\$22 million).

In July 2012, as a result of the merger with Lithium One Inc (refer Note 7), Galaxy issued CAD5 million (\$4.8m) Convertible Notes. The Notes are unsecured and bear interest at the rate of 8% per annum. The Notes mature on 29 October 2012 and, unless converted to fully paid ordinary shares in Galaxy at the conversion price of CAD\$0.612 (\$0.588) per share, are repayable in cash.

In April 2012 Galaxy completed a \$28.9 million capital raising through the issue of 37.5 million shares at \$0.77 per share to sophisticated and institutional investors. A further \$1.1 million was subject to shareholder approval, and issued subsequently (\$500k in June 2012 and \$600k in July 2012).

In May 2012 Galaxy issued 2.9 million shares at \$0.77 per share to raise a total of \$2.2 million (before costs) via a Share Purchase Plan.

Based on present forecasts, the directors of Galaxy consider that Galaxy has sufficient undrawn facilities together with access to funding through potential additional equity raisings to complete the commissioning and ramp up of the Jiangsu Plant and continue as a going concern.

- a) The non-current facility with China Construction Bank (CCB) is an unsecured RMB fixed asset facility of 136m RMB (\$21.2m) with a term of 3 years and 129.6m RMB (\$20.2m) with a term of 5 years. The current interest rates are 6.4% and 6.9% respectively. At March 31, 2012, the facilities were fully drawn down (\$40.5m). At June 30, 2012, the facilities were fully drawn down (\$41.4m).
- b) The current Facility with China Construction Bank (CCB) is an unsecured RMB working capital facility with a term of 1 year. At March 31, 2012, 94m RMB (\$14.3m) of an approved 114m RMB (\$17.8m) was drawn down. The current interest rate is 6.56%. At June 30, 2012, 106m RMB (\$16.5m) was drawdown.

In March 2012, Galaxy entered into a RMB 84 million (\$13.1m) unsecured working capital facility with Shanghai Pudong Development Bank. The facility has a term of three years and a floating interest rate (currently 6.65% per annum), payable quarterly. At March 31, 2012, 24m RMB (\$3.7m) of an approved 84m RMB was drawn down. At June 30, 2012, 51m RMB (\$8.0m) was drawn down.

- c) On November 4, 2010 the Group entered into a Convertible Bond subscription Agreement to issue up to \$61.5 million, 8% convertible bonds ("Bonds") maturing in November 2015. The Bonds are unsecured.

Interest is payable semi annually in arrears. Each Bond is convertible into fully paid ordinary shares of the Company at the reset price of \$1.16. Subject to certain restrictions, a Bondholder is entitled to convert at any time until maturity date in November 2015. The conversion price will be subject to adjustment upon the occurrence of certain prescribed events including among others, consolidation, subdivision or reclassification of the Company's shares, capitalisation of profits or reserves, capital distributions (including dividends), rights issues, the grant of options over shares or other securities convertible into shares at less than 95% of the then current market price up until six months from the date of closing or at less than the market price thereafter (provided no adjustment shall be made for any initial public offering of shares on another stock exchange prior to June 30, 2011 if the offer price is greater than or equal to \$1.16 or other anti dilution adjustment events). No adjustments to conversion price are to be made where dilution events occur as a result of issues to employees or Directors of the Company.

A Bondholder may, at the end of year 3, require the Company to redeem all, or some of the Bonds at their principal amount. The Company may redeem all (but not some) of the Bonds on issue from November 2013 at their principal amount where if for 20 out of 30 relevant trading days the share price exceeds 130% of the applicable conversion price or at any time 90% or more of the aggregated principal of the original Bonds issued has been converted or redeemed. The convertible bonds are recognised at fair value through profit or loss.

On November 19, 2010, the Company issued the first tranche of the bonds being \$32 million receiving \$29.69 million in net proceeds. On January 17, 2011, the Company issued the initial part of the second tranche of bonds being \$10.5 million and on February 16, 2011, the Company issued the remaining second tranche of the bonds being \$19 million.

- d) Subsequent to balance date, in April 2012, Galaxy entered into a RMB 182 million (\$28.4m) unsecured funding facility with Industrial and Commercial Bank of China. The facility has a term of 5 years and a floating interest rate (currently 6.90% per annum). At June 30, 2012, 80.6m RMB (\$12.6m) was drawn down.
- e) In July 2012, as a result of the merger with Lithium One Inc (refer Note 7), Galaxy issued CAD5 million (A\$4.8m) Convertible Notes. The Notes are unsecured and bear interest at the rate of 8% per annum. The Notes mature on 29 October 2012 and, unless converted to fully paid ordinary shares in Galaxy at the conversion price of CAD\$0.612 (\$0.588) per share, are repayable in cash.

7. EVENTS SUBSEQUENT TO REPORTING DATE

- In March 2012, Galaxy announced it entered into an agreement to effect a merger of Galaxy and Canadian company Lithium One Inc. This transaction was completed on July 4, 2012, where the plan of arrangement was successfully completed and Lithium One common shares were de-listed from the TSX-V. A total of 141,154,957 Galaxy shares were issued. Also issued were Convertible Notes which have a combined value of C\$5 million (\$4.8m). On exercise, each Convertible Note is convertible at C\$0.612 (\$0.588) into one Fully Paid Ordinary Share and 0.5 Options. Estimated total consideration of \$80.5m is yet to be allocated to the assets and liabilities acquired, however the majority of consideration will be allocated to Lithium One's interests in the Sal de Vida exploration project, together with the recognition of the issue of the Convertible Notes as interest bearing liabilities and cash acquired of approximately C\$6.4m (\$6.1m).
- In April 2012 Galaxy completed a \$28.9 million capital raising through the issue of 37.5 million shares at \$0.77 per share to sophisticated and institutional investors. A further \$1.1 million was subject to shareholder approval, and issued subsequently (\$500k in June 2012 and \$600k in July 2012).
- In May 2012 Galaxy issued 2.9 million shares at \$0.77 per share to raise a total of \$2.2 million (before costs) via a Share Purchase Plan.
- In May 2012, the first commercial sale of spodumene concentrate from Mt Cattlin was \$5.7 million to third party Chinese customers.
- In July 2012, it was announced that Mt Cattlin operations were to be temporarily halted to allow for re-balance of internal spodumene stockpiles.

Other than the matters discussed above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

10. COMMITMENTS**Mining Tenement Leases**

In order to maintain current rights of tenure to mining tenements, the Company will be required to perform minimum exploration work to meet the minimum expenditure requirements specified by the WA State Government and pay tenement lease rents. The estimated exploration expenditure commitment for the ensuing year, but not recognised as a liability in the financial statements:

	March 31, 2012	December 31, 2011
	\$'000	\$'000
Within one year	613	613
	613	613

This expenditure will only be incurred should the Company retain its existing level of interest in its various exploration areas and provided access to mining tenements is not restricted. These obligations will be fulfilled in the normal course of operations, which may include farm-out, joint venture and direct exploration expenditure. The Company has not determined what the commitment will be beyond 12 months.
