Appendix 4C & Progress Update – 3rd Qtr FY12

In lodging the Appendix 4C - quarterly (attached), the Board of **Gage Roads Brewing Co Ltd (ASX: GRB)** are pleased to report to the market on the ongoing progress of the Company.

Sales

Sales during the quarter were seasonally strong and were up 59% on the same quarter last year ("PYCP"). This was principally due to the Company's ongoing support of Woolworth's private label strategy with sales of their products up 43% compared to the PYCP. Gage Roads Brewing's own products have also performed well, up 115% on the PYCP. Other 3rd party contract brewing sales also increased 296% over the PYCP. This result comes after a very strong December quarter and has defied the overall industry trend of traditionally subdued sales in the post-Christmas period.

New Products

The Company has successfully launched its 640ml large bottle format range, commencing with Woolworth's Dry Dock. This comes after the successful commissioning of modifications to the packaging line and will enable the Company to offer a broader product portfolio to its contract brewing and packaging customers. Gage Roads Brewing is looking to launch a range of its own products into the large bottle format market later on in the Financial Year with products such as "London's Best", "Sleeping Giant India Pale Ale" and "Atomic Pale Ale" being readied for introduction.

Capital Expansion Program

Significant progress has been made to the in-situ plant in anticipation of the arrival of the new brewhouse in June/July this year. As outlined in the announcement on 17 January 2012, the Company has committed \$3.3 million to purchase a 100hL brewhouse from Krones AG, which is currently under construction in Germany. Management anticipates that the new brewhouse will drive significant ongoing reductions in variable labour and operating costs and expect the brewhouse to be an important pathway to the FY15 goal of increasing production capacity to 3 million cases per annum. As part of this program, additional ancillary items and tanks will drive cost-saving automation to a large part of the brewery.

Additional operational infrastructure has been installed and commissioned during the quarter and is expected to achieve significant ongoing savings in utility costs. This includes a new boiler which will reduce gas costs, a new ammonia plant aiming to lower electricity costs, changes to waste water treatment to improve the quality of water discharged from the plant and water infrastructure designed to eliminate water shortages and ensure smooth production.

Gage Roads Brewing has funded all of the capital expansion in the current quarter from operating cash flows.

The Company looks forward to the June quarter and will provide a progress update on the full year in July 2012.

- END-

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 1026: Statement of Cash Flows* apply to this report except for the paragraphs of the Standard set out below:
 - 6.2 - reconciliation of cash flows arising from operating activities to operating profit or loss
 - 9.2 - itemised disclosure relating to acquisitions
 - 9.4 - itemised disclosure relating to disposals
 - 12.1(a) - policy for classification of cash items
 - 12.3 - disclosure of restrictions on use of cash
 - 13.1 - comparative information
3. **Accounting Standards.** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.
