Rawson Resources Limited Weekly CSG Drilling Report

Rawson Resources Limited ('Rawson', ASX code RAW) wishes to advise that it has been advised by the operator, TRUenergy (Qld) this morning that the WSNB-3 well was at total depth of 786m and preparing to plug and abandon.

The well intersected the Walloon Coal Measures between 625m and 695m but only minor coals were encountered.

The rig is now to be moved to either the WSNB-1 or WSNB-2 location as predicated by ground conditions, these locations are shown on the map below

.Further updates on the CSG drilling will be provided as they occur, together with a weekly drilling report on Fridays.
