Company Announcements Office  
Australian Securities Exchange Ltd  
ASX Release

## **Prosperity Announces Review of Tennant Creek Project**

Prosperity Resources Limited (**ASX: PSP**, "Prosperity") advises that it has engaged Mr Tim Hronsky to undertake a comprehensive review of the Company's land holdings in Tennant Creek in the Northern Territory.

Prosperity has over 220 square kilometres of highly prospective tenure in the Tennant Creek region, a region that has produced more than 5.5 million ounces of gold over its 70 year history. Despite this, the large Tennant Creek Mineral field remains significantly under explored.

Mr Hronsky is a geologist with over twenty years experience in mineral exploration and the mining industry. Mr Hronsky was a founding director of Emmerson Resources Ltd and part of the team that led the company to their ASX listing in 2007. He has extensive knowledge of the Tennant Creek Mineral field.

Mr Hronsky's work will include an extensive review of the historical and more recent exploration data to generate an exploration strategy and select priority targets, which will be tested in the coming months.

The Company considers the Tennant Creek area to be a highly prospective key asset, along with the emerging Pinang-Pinang project in Indonesia.
