Directors' Report

The Directors of Coote Industrial present their report on the consolidated entity which includes its controlled entities (Group) for the financial year ended 30 June 2009.

Directors

The following persons were Directors of Coote Industrial Limited during the period from 1 July 2008 until 30 June 2009:

Donald Hector

BE (Chem), PhD, FAICD, FIEAust, FICHEM
Non-Executive Director (Chairman)

Appointed:	02 November 2006
Age:	59
Special Responsibilities:	Member of Audit Committee
Directorships held in other listed entities in the past three years:	N/A
Summary of current equity holdings:	
Shares:	55,650
Options:	300,000

Don has 15 years experience in senior executive management and CEO positions with industrial companies. He was Managing Director of Dow Corning Australia Pty Ltd, the Australian subsidiary of Dow Corning Corporation and was Managing Director of Asia Pacific Specialty Chemicals Ltd, an ASX-listed chemical company. Don is a non-executive director of SEMF Pty Ltd, a multidisciplinary engineering consulting firm. He is also on the board of Engineering Sydney at the University of Sydney and is a Council member of one of Sydney's leading independent schools.

Michael Coote

BE (Mech), MAICD
Managing Director

Appointed:	28 June 2006
Age:	46
Special Responsibilities:	N/A
Directorships held in other listed entities in the past three years:	Previously non-executive director, Natural Fuels Ltd
Summary of current equity holdings:	
Shares:	42,811,164
Options:	-

Mike initially worked in the family transport business. After completing his Mechanical Engineering Degree in 1985 he was involved with heavy mining equipment, waste crushing, conveying projects and locomotive maintenance for Mt. Newman Mining (BHP). In mid 1989 he founded Globe Turbocharger Specialties Australia, providing large diesel engine operators with quality aftermarket spares. Utilising his experience in heavy vehicle design, diesel engines and projects management, Mike developed the business across a broad platform, re-badging it as GTSA Engineering to better represent the company's activities. Over the ensuing years the company has continued to evolve as Coote Industrial Limited.

Directors' Report (cont'd)

Directors (cont'd)

Don Patterson

BBus, MAICD

Director and Chief Executive Officer

Appointed:	28 June 2006
Age:	51
Special Responsibilities:	N/A
Directorships held in other listed entities in the past three years:	N/A
Summary of current equity holdings:	
Shares:	1,757,787
Options:	2,000,000

Don was employed in accounting roles in heavy engineering before joining Wesfarmers – Rural Division, leaving after 5 years to take up senior management positions in the finance, retailing and hospitality industries. Prior to joining Coote Engineering in 2002 he spent five years in commercial property development with Citygate Properties. Don initially assumed the role of Financial Controller, then additionally General Manager of subsidiary GTSA Engineering. Over the past seven years Don has implemented considerable structural reform, planning and other improvements supporting Coote Industrial Limited's historical growth and preparing a platform to meet future expectations.

Glenn Parrett

BCom (Finance & Economics), MAICD

Executive Director

Appointed:	28 June 2006
Age:	44
Special Responsibilities:	Member of Audit Committee, CEO Drivetrain
Directorships held in other listed entities in the past three years:	N/A
Summary of current equity holdings:	
Shares:	247,507
Options:	250,000

Glenn has more than 15 years experience delivering against total business plan responsibility, including General Manager and Managing Director roles with engineering sales and service businesses. Underpinned by Certificate studies in Mechanical Engineering, Glenn built experience in application engineering, technical sales and subsequently project and business management in the power and propulsion segment. Having completed a degree in Finance and Economics with High Distinction average, Glenn was awarded life membership of the Golden Key National Honour Society and has undertaken postgraduate studies in Business Law at Sydney University. After delivering key projects and acquisitions for Coote Industrial at corporate level, Glenn's focus from FY09 is the integration, performance and development of the group's power and propulsion businesses.

Coote Industrial Limited

ABN 99 120 432 144
and Controlled Entities

Directors' Report (cont'd)

Directors (cont'd)

Peter Wilson

GAICD

Executive Director

Appointed:	2 November 2006
Resigned:	8 January 2009
Age:	61
Special Responsibilities:	Former member of Audit Committee
Directorships held in other listed entities in the past three years:	N/A
Summary of current equity holdings:	Shares: N/A
	Options: N/A

Peter is a qualified Master Mariner and has extensive management experience in the shipping, stevedoring and logistics fields both in the United Kingdom and Australia. Prior to joining Coote Industrial Peter worked for Patrick Corporation's Auto and General Division in a business development role. Prior to his time at Patrick, Peter was adviser to the Federal Minister for Workplace Relations and Small Business based in Canberra. Peter is experienced in the areas of materials handling, shipping and in the major logistics and transport processes of mining and resources.

Mustapha Darwish

BCom (Accounting & Finance) CPA

Company Secretary/Chief Financial Officer

Appointed:	2 November 2006
Summary of current equity holdings:	Shares: 13,500
	Options: 100,000

Mustapha worked for 2 year in public practice before joining Coote Industrial in 2004. He has worked for the past five years in various corporate financial management roles before being appointed Group Chief Financial Officer and Company Secretary in early 2007.

4

Directors' Report (cont'd)

Principal Activities

The principal activities of the group during the financial year were:

Technically Based Sales & Services

- Project Management
- Engineering Services
- Manufacturing & Fabrication
- Repair & Maintenance Services
- Plant, Equipment and Component Sales
- Rail Infrastructure Services
- Rail Operations
- Freight Logistics
- Personnel Services

Result Summary

	FY 09		FY 08		Dec. %
Revenue	\$317.362	m	\$347.893	m	(8.78)
EBITDA	\$21.900	m	\$47.501	m	(53.90)
EBIT	\$10.384	m	\$40.795	m	(74.55)
NPAT	(\$4.541)	m	\$22.012	m	(120.63)
EPS					
- Basic Earnings	(3.87)	¢	21.68	¢	(117.85)
- Fully Diluted	-	¢	20.58	¢	-
Dividend	-	¢	8.50	¢	(100.00)

Directors' Report (cont'd)

Year in Review

First Half

During the first half of FY09 revenues were in line with earlier forecasts, with profitability impacted by:

- (a) pressure on margins, as economic conditions slowed from early Q2;
- (b) foreign exchange losses as a consequence of the rapid fall in the A\$ against the US\$ in October 08;
- (c) higher than anticipated debt costs; and
- (d) one-off costs in relation to terminations and redundancies, as a consequence of both planned integration of key businesses and in anticipation of reduction in business activity due to the rapid change in economic outlook.

Credit markets stalled during the first half and this impacted progressively upon the expected settlement of an outstanding receivable with Greentrains Ltd, presenting significant challenges for Coote Industrial in cash flow management and increased debt costs. Updates on these matters appear below.

Second Half

Revenues were lighter in the second half with a further \$144.2m added to the \$173.1m first half result for total annual revenues of \$317.3m, down 8.78% on last year. Business experienced in FY09 was not as strong as in FY08 and the delay in settlement with Greentrains Ltd constrained activity, primarily due to the effect on working capital.

The Board continued to work on the long-term strategy and, despite working capital constraints, progress was made in further developing the locomotive capability within Gemco Rail. This capability complements existing market recognition of Gemco Rail's rolling-stock services and realised a reliable, efficient operating fleet to support Coote Industrial's rail operations business. The rolling-stock retained by Coote Industrial provides considerable growth opportunities through long-term maintenance service annuities and important inputs for innovative locomotive construction.

While the final financial result for FY09 is disappointing, it was influenced by a number of one-time costs. Generally these costs reflect changes focussed on long term improvements in financial performance.

These include:

Description	Cost \$m
Terminations and Redundancies	1.85
Impairment of commercial hire equipment	0.86
Loss on Sale of commercial hire equipment	0.51
Stock write-downs	0.20
Gain on acquisition (US purchase)	(1.97)
Profit impact on settlement of Greentrains T1	2.55
Fair value adjustments - Share write-downs	0.45
Foreign Exchange Loss	2.62
Total	7.07

Directors' Report (cont'd)

Background on Sale of Rolling-Stock to Greentrains Ltd

During FY08, Coote Industrial Limited acquired a number of businesses, including rail operator, South Spur Rail Services. South Spur owned a number of locomotives and rail wagons and was renting additional rolling-stock assets from Allrail, a subsidiary of Allco Finance. This rented rolling-stock was to be maintained under contract by RTSG (a rolling-stock maintenance provider and then-associate of Allrail).

RTSG lacked the maintenance capability required by South Spur to support the fleet and to meet South Spur's operational requirements. The leased assets were mostly of locomotive classes currently in operation with the fleets of the major Australian rail operators; however they required major refurbishment, as did other rolling-stock assets owned by South Spur.

Coote Industrial, through its rolling-stock maintenance business, Gemco Rail, acquired the entire fleet of leased assets from Allrail. A programme of work was commenced to provide South Spur with a reliable, efficient rail fleet and to realise the significant underlying value of the rolling-stock. During the six months prior to 30 June 2008, Gemco Rail rebuilt and refurbished a number of these locomotives and wagons. As asset ownership is not core to Coote Industrial's business, these locomotives were sold to Greentrains Limited. Greentrains is a separate, low-operational-cost, infrastructure entity incorporated for the purpose of owning and leasing rolling stock to rail operators, including South Spur. The sale assets were independently valued and the probable market rental rates for the assets were considered to approximate the likely cost of funding.

As matters eventuated, the sale of rolling-stock from Coote Industrial to Greentrains occurred at the onset of the global financial crisis and Greentrains was unable to complete the transaction as originally intended due to unforeseen complications in securing funding. Over a period of twelve months, the directors of Greentrains remained consistently engaged with potential debt providers via both formal and informal expressions of interest, but were unsuccessful in attracting suitable interest. As noted in previous announcements, the receivable due to Coote Industrial from Greentrains was originally \$82.7m, of which more than \$57m had been invested in the rolling-stock refurbishment programme.

Greentrains finalised the sale of an initial tranche of rolling-stock with a payment of \$44m, as announced on 17 July 2009, of which Coote Industrial applied \$34m to debt and the balance to working capital. To achieve settlement of the outstanding receivable for this first tranche, Coote Industrial agreed to convert \$16.5m of the original receivable of \$82.7m to equity in Greentrains. This materially reduced the funds Coote Industrial expected to have available for debt reduction and working capital.

Absence of these critical funds to repay debt and to provide working capital, hampered Coote Industrial's ability to continue to invest in further integration and other important programmes. Financial constraints prevented Coote Industrial from procuring inventory and to fund work required to adequately meet customers' immediate needs. Significantly, in part due to the sharp, world-wide contraction in liquidity, Coote Industrial encountered increased debt funding costs, which were much higher than expected.

During the lengthy process of working with the directors of Greentrains to secure suitable investment to enable payment of the receivable due to Coote Industrial, Coote Industrial approached a number of sophisticated investors, including Mr Dale Elphinstone, to determine interest in investing in both Coote Industrial and Greentrains. Given the circumstances surrounding the transaction, the likelihood of success and requirements for working with sophisticated investors was deemed to be more realistic than would have been the case in dealing with a broader offering.

Directors' Report (cont'd)

Background on Sale of Rolling-Stock to Greentrains Ltd (cont'd)

Mr Elphinstone's company, Elph Pty Ltd ('Elph'), made an investment in Greentrains and Coote Industrial, as announced on 24 April 2009. Elph subsequently made a further investment in Coote Industrial, as outlined in announcement of 17 July 2009. Coote Industrial used these further funds to acquire equity in Greentrains (thus enabling Greentrains to meet the minimum debt to equity ratio required as a condition of the funding it secured to finalise the initial tranche of rolling stock) and for working capital. This enabled Greentrains to complete the first tranche transaction, thereby providing much-needed working capital for Coote Industrial. Subsequently, this has attracted further investment interest in Greentrains, with attention from investors where stable, long-term returns are required. These interested parties include other Australian companies as well as international leasing entities seeking entry into the Australian market.

Some of the arrangements with Elph require shareholder approval and an Extraordinary General Meeting of Coote Industrial Ltd will take place in Perth on Wednesday, 21 October, 2009 to consider them.

Goodwill

The Directors have reviewed the recoverable value of goodwill and amortisation of identified intangibles and consider that the carrying value of those assets provides a true and fair view. It should be noted that the balance of intangibles has been reduced by \$46m over the past 2 years, excluding other nominal value acquisitions. Further details can be found in Note 15.

Dividend

The Directors have decided not to declare a final dividend. This policy is expected to remain in place until debt levels are reduced, the sale of the Logistics business is completed, and whilst economic conditions remain uncertain. Further debt reduction is expected through the second tranche sale of rolling-stock to Greentrains Ltd for which a much faster and less problematic settlement is anticipated.

Acquisitions

Coote Industrial made three small acquisitions during FY09, which are expected to add considerably to Drivetrain Power and Propulsion's future profitability and which are part of the strategy to develop a global presence for the business. The acquisitions enhance Drivetrain's position in both Europe and the USA.

Turbomeca Turbocharger Assets Acquisition

Drivetrain Power and Propulsion subsidiary Hedemora Diesel AB acquired the turbocharger division assets of French company, Turbomeca (a subsidiary of SAFRAN). The assets include intellectual property, tooling, testing facilities, inventory, sample components, commercial documentation and a substantial engineering support package.

Turbochargers fit well with the core offering of Drivetrain Power and Propulsion and are well supported by the existing European technical and supply chain management capability in our Swedish operations. The turbochargers are being marketed under the HS Turbocharger brand, in line with the product nomenclature and its history as internationally recognised Hispano-Suiza product.

HS turbochargers are the most efficient available in their application range and are recognised by major diesel engine manufacturers as an important solution. Drivetrain is developing tangible and important opportunities for turbocharger sales to OEMs and retrofit projects with attractive payback. Ongoing spare parts sales are supported by a worldwide population of more than 9000 turbochargers.

Directors' Report (cont'd)

Acquisitions (cont'd)

The diesel and gas engine application range for HS Turbochargers is 1,000kW – 3,700kW. The market for turbocharger spares is predominately in the rail sector. Opportunities for new turbocharger sales exist in the OEM, rail, power generation and marine segments. Major customers include MAN Diesel, Wartsila (Finland), DCNS, and railway operators in France, Turkey, Iran, Malaysia, India and Brazil.

Drivetrain Power and Propulsion's initial manufacturing and distribution centre in Europe is being developed around the Swedish subsidiary Hedemora Diesel AB. The Swedish business is a key capability centre for the Hedemora diesel engine and HS Turbocharger and will support existing European OEM relationships and develop new distributorships and technology links which can be leveraged in Australasia and the US.

Drivetrain Power and Propulsion's major distribution relationships include Dana Off-highway, AxleTech products, Globe Turbocharger and Comer.

CTS and Eden Cryogenics

Coote Industrial key business Drivetrain Power and Propulsion has established a low-cost entry into the USA through the incorporation of Drivetrain USA Inc (headquartered in Des Plaines, Ohio). The subsequent acquisition of CTS, Eden Cryogenics and Hyradix has provided an opportunity for Drivetrain to deliver and develop its offering in the US market, with Drivetrain USA manage and developing key OEM relationships with important benefits for the global business.

CTS and Eden Cryogenics are engaged in the manufacture of a number of contracted, purpose-built products in cryogenics for major American customers, including NASA Stennis, Tyco, Bechtel, NASA SSC, Ball Aerospace, Orbital Sciences, Merrick, Sphere Optics, and BASF.

Hyradix, a manufacturer of hydrogen reformers, formed part of the initial acquisition package, but is not considered to fit with the cryogenic businesses, nor the broader group model. This business has been selected for divestment and Coote Industrial is currently working with interested parties.

Other Activities

Other important steps taken to position the business during difficult economic times include:

- Staff redundancies (283 people) at a cost of \$1.85m in anticipation of both a downturn in revenues and as a consequence of key business integration. As indicated in the financial statements, revenues have remained relatively constant and this has continued into early FY10. However, the Board considers that prudent capacity adjustment is required to mitigate the risk that economic conditions may deteriorate further, or not improve quickly.
- Focus has continued on implementation of the SAP business platform and measures that protect and secure data integrity by developing a business continuation site. The development and implementation of integrated business systems has continued.

Directors' Report (cont'd)

Looking Forward

The Directors consider that the business will face continuing challenges during the remainder of 2009 and into 2010. The Board has highlighted three key matters for particular attention:

(a) Settlement of the first tranche rolling-stock sale to Greentrains Ltd

As previously announced, Greentrains Ltd has settled on the first tranche (T1) sale of rolling-stock. This had the immediate effect of delivering \$10m into Coote Industrial Ltd's working capital and a reduction in debt of \$34m.

(b) Finalisation and settlement of the second tranche (T2) of locomotive assets by Greentrains Ltd to the value of \$35m

Settlement and subsequent leasing of T2 assets to South Spur Logistics will fulfil that company's immediate rolling-stock fleet requirements, and will result in full utilisation of the Greentrains' fleet over the medium to long-term period. T2 rolling-stock refurbishment works have been accounted for in accordance with construction contract requirements, consistent with CIL policy (see Note 1e).

Greentrains has attracted further interest in its operations following the settlement of T1, and as a consequence Coote Industrial expects that proceeds from T2 will be settled soon after completion and delivery. This is anticipated to reduce debt in Coote Industrial by a further \$25m, with the balance to working capital.

(c) Sale of South Spur Logistics

As announced previously, BurnVoor Corporate Finance Ltd has been appointed to undertake the sale of South Spur Logistics. This business no longer fits with Coote Industrial's strategy of developing into a substantial engineering and technical service-based enterprise and also risks competing with Coote Industrial's major customers. Proceeds from the sale are expected to go towards further debt reduction.

After Balance Date Events

A number of after balance date events have occurred since signing of this report. Further details can be found on Note 29.

Environmental Issues

Groups operations are subject to significant environmental regulation under the law of the Commonwealth and States, including noise, air emissions and the use, handling, haulage and disposal of dangerous goods and wastes.

The Group uses practices that minimise adverse environmental impacts and provides appropriate feedback on the Group's environmental performance to ensure compliance.

The Board is not aware of any significant breaches during the periods covered by this report nor does it consider the Group is subject to any material environmental liabilities.

National Greenhouse and Energy Reporting Guidelines

The Group is not subject to the conditions imposed by the registration and reporting requirements of the National Greenhouse and Energy Reporting Act 2007 (the Act), and is not registered with the Greenhouse and Energy Data Office.

The Group has not exceeded the corporate threshold and is therefore not required to report on total greenhouse gas emissions or energy consumption / production of the Group.

Directors' Report (cont'd)

Remuneration Report

Overview

This report details the nature and amount of remuneration for each director of Coote Industrial Limited, and other key executives (including the most highly remunerated executives) who have strategic commercial impact upon Coote Industrial Limited's activities.

Remuneration Policy

The remuneration policy of Coote Industrial Limited is intended to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the consolidated group's financial results. The Board of Coote Industrial Limited believes the approach to remunerating to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the consolidated group, as well as create goal congruence between directors, executives and shareholders.

The Board's policy for determining the nature and amount of remuneration for Board members and senior executives of the consolidated group is as follows:

- All executive directors and key executives receive a salary package comprised of a base salary, superannuation, fringe benefits and performance bonuses. In future, it is intended that packages will also include options in accordance with the company's Employee Share and Option Plan.
- The board will review executive packages annually by reference to the consolidated group's performance, executive performance and comparable information from industry sectors.
- The performance of executives is measured against criteria agreed annually with each executive and is based predominantly on the forecast growth of the consolidated group's profits, which are aligned with shareholder value. The developing remuneration policy will be designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth.
- The executive directors and other key executives receive a superannuation guarantee contribution required by the government, which is currently 9%, and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation.
- All remuneration paid to directors and executives is valued at cost to the company and expensed. Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Options are valued using the Bi-nomial option valuation methodology.
- The Board policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The Board determines payments to non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting.
- To align directors' interests with shareholder interests, the directors are encouraged to hold shares in the company and are able to participate in the employee option plan.

Directors' Report (cont'd)

Remuneration Report

Performance-based Remuneration

Part of each executive director and executive's remuneration package is a performance-based component, consisting of key performance indicators (KPIs). The intention of this program is to facilitate goal congruence between directors and executives with that of the business and shareholders. The KPIs are set annually, with a certain level of consultation with directors and executives. The measures are specifically tailored to the areas each director and executive is involved in and has a level of control over. The KPI target areas the board believes hold greater potential for group expansion and profit, currently the KPIs are essentially financial related but are intended to include non-financial as well as short- and long-term goals. The KPIs are derived from the individual key business return on capital contribution to Group financial performance and the focus on measures delivering cash flow management.

The company will utilise the Employee Share and Options Plan as an additional tool to remunerate directors and executives in a manner to increase goal congruence between shareholders, directors and executives.

The following table shows the gross revenue, profits and dividends for the last 3 years since listing for Coote Industrial, as well as the share price at the end of the respective financial years. Analysis of the actual figures shows an increase in profits as well as an increase in dividends paid to shareholders over the past two years except for the most recent year. As a consequence, increases in executive salaries have been constrained in line with delivery of performance measures. The Board is of the opinion that these outcomes can be attributed in part to the previously described remuneration policy and is satisfied that improvement in delivery of the KPIs and subsequent increase in rewards to executives will lead to increased shareholder wealth.

	2007	2008	2009
Revenue	69,416	347,893	317,362
Net Profit	8,174	22,012	(4,541)
Share Price at Year-end	2.05	1.22	0.22
Dividends Paid	5.9c	8.5c	0.0c
Earnings Per Share (diluted)	17.22	20.58	N/A

The directors felt the share price has moved with market sentiment reaching a high of \$3.13 early in FY08 to a low of \$0.12 in FY09. To create a greater awareness the company has commenced a corporate re-branding in line with its integration and restructuring approach to simplifying the business. The company has also recently updated its corporate website.

Key Management Personnel Remuneration Structure

The remuneration structure for key management personnel is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the company. The contracts for service between the company and key management personnel are on a continuing basis.

Some of the key businesses emphasise payment for results by providing various cash bonus reward schemes based on internal KPIs both financial and non-financial targets. The objective of the reward scheme is to both reinforce the short- and long-term goals of the key business and to provide a common interest between all staff. The basis of the bonus scheme is being developed across all entities of the group; it may be displaced by the company's employee share and option plan.

The employment conditions of key management personnel are formalised in contracts of employment. The employment contract does not stipulate a term of employment period but does stipulate notice period for resignation and periods of remuneration and conditions under termination. Termination payments are not payable on resignation or dismissal for serious misconduct. In the instance of serious misconduct the company can terminate employment at any time.

Directors' Report (cont'd)

Remuneration Report (cont'd)

The board determines the proportion of fixed and variable compensation for key management personnel - refer to table below:

		Short-Term Benefits			Post Employment Benefits	
		Cash, Salary & Commissions	Non-Monetary Benefits	Other	Superannuation	Termination Benefits

Options

At the date of this report, the unissued ordinary shares of Coote Industrial Limited under option are as follows:

Grant Date	Date of Expiry	Exercise Price \$	No. Under Option
27/11/06	14/12/09	1.00	2,650,000
14/12/06	14/12/09	1.00	1,500,000
29/02/08	29/08/11	3.00	1,000,000
29/02/08	29/08/11	3.50	1,000,000
29/02/08	29/08/11	4.00	1,000,000
			7,150,000

During the year ended 30 June 2009, no ordinary shares of Coote Industrial Limited were issued on the exercise of options granted.

No person entitled to exercise the option had or has any right by virtue of the option to participate in any share issue of any other body corporate.

Directors' Report (cont'd)

Proceedings on Behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the company or intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

The company was not a party to any such proceedings during the year.

Non-audit Services

There were no non-audit services provided by the company's external auditor.

Auditor's Independence Declaration

The lead auditor's independence declaration for the year ended 30 June 2009 has been received and can be found on page 18 of the Directors' Report.

Rounding of Amounts

The company is an entity to which ASIC Class Order 98/100 applies and, accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars.

Signed in accordance with a resolution of the Board of Directors

Michael Charles Coote
Managing Director

Dated this 30th Day of September 2009

Directors' Declaration

In the directors' opinion:

- (a) The financial statements and notes are set out in pages 26 to 83 are in accordance with the Corporations Act 2001, including:
 - i. Complying with Accounting Standards, the Corporations Regulations and other mandatory professional reporting requirements, and
 - ii. Give a true and fair view of the company's and consolidated entity's financial position as at 30 June 2009 and of its performance, as represented by the results of their operations, changes in equity and their cash flows, for the financial year ended on that date.
- (b) There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable, and
- (c) The audited remuneration disclosures set out in the directors' report comply with Accounting Standards AASB 124 Related Party Disclosures and the Corporations Regulations 2001, and

The directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of directors.

A handwritten signature in black ink, appearing to read 'M Coote', with a horizontal line underneath.

Michael Charles Coote
Managing Director

Dated this 30th Day of September 2009

To The Board of Directors

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

This declaration is made in connection with our audit of the financial report of Coote Industrial Limited and Controlled Entities for the year ended 30 June 2009 and in accordance with the provisions of the Corporations Act 2001.

We declare that, to the best of our knowledge and belief, there have been:

- no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit;
- no contraventions of the Code of Professional Conduct of the Institute of Chartered Accountants in Australia in relation to the audit.

Yours faithfully

BENTLEYS
Chartered Accountants

RANKO MATIĆ
Director

DATED at PERTH this 30th day of September 2009

Independent Auditor's Report

To the Members of Coote Industrial Limited

We have audited the accompanying financial report of Coote Industrial Limited (the company) and Coote Industrial Limited and Controlled Entities (the consolidated entity), which comprises the balance sheet as at 30 June 2009, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standards AASB 101: Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards (IFRS) ensures that the financial report, comprising the financial statements and notes, complies with IFRS.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

Auditor's Opinion

In our opinion:

- a. The financial report of Coote Industrial Limited and Coote Industrial Limited and Controlled Entities (the consolidated entity), is in accordance with the Corporations Act 2001, including:
 - i. giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2009 and of their performance for the year ended on that date; and
 - ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
- b. The financial report also complies with International Financial Reporting Standards as disclosed in Note 1

Inherent Uncertainty Regarding Collection of Amounts owing from Greentrains Limited and Associated Transactions

Without qualification to the opinion expressed above, we draw attention to Note 10 to the financial statements. The consolidated entity was owed \$82.713M at 30 June 2009 from the sale of rolling stock to Greentrains Limited ("Greentrains") which was transacted in the financial year then ended. As announced on 17 July 2009, Greentrains finalised settlement of a component of the receivable amount of the monies due from the initial tranche resulting in a cash payment of \$49.095M to Coote Industrial, of which \$34M was applied to debt and the balance to working capital. The balance of the original receivable due was settled with an issue of a credit note for \$17.200M, retaining a number of locomotives, and the conversion of \$16.548M to equity in Greentrains, as noted in Note 29(a).

As mentioned in Note 29(b), Coote Industrial recently announced an Extraordinary General Meeting to be held on 21 October 2009 to approve the issue of shares and convertible notes to Elph Pty Limited. This is the corporate fund which also assisted Greentrains in completion of the Tranche 1 funding. We are unable to anticipate the outcome of the meeting and the ratification of the funding provided to Coote.

As referred to in Note 10(c), Coote Industrial entered into agreement to provide further rolling stock to Greentrains in a second tranche. Coote Industrial (consolidated entity) has invoiced Greentrains for \$17.550M for completed rolling stock and accrued income of \$17.237M for yet to be completed rolling stock. The Directors are of the belief the rolling stock will be completed and the balance invoiced to Greentrains and the total amounts will be recoverable. It is our understanding settlement of the second tranche of rolling stock, when completed and accepted by Greentrains, will be by a raising of both debt and equity. The ultimate outcome of this matter cannot presently be determined and no provision for impairments have been made in this financial report.

The uncertainty with recoverability of the receivable from Greentrains, due to the uncertainty in Greentrains obtaining funding and/or completing the capital raisings, may affect the recoverability of other assets in the parent and consolidated entity.

We draw your attention to Note 30 and the reclassification of long term debt facilities into current liabilities as these facilities expire within 12 months and note the loan leverage covenant defaults. This results in a presumed working capital deficiency in the parent of \$85.476M and in the consolidated entity of \$15.126M on the basis that none of the debt facilities are rolled over. Initiatives undertaken by management to address these working capital investment issues are summarised in Note 21(c). Management are confident that these initiatives, including the capital raisings of Greentrains, the prospective sale of South Spur Logistics and potential Coote Industrial capital raisings will resolve any net working capital deficiencies and that the Group will be able to renegotiate facility extensions for any remaining balances outstanding. We believe there is an inherent uncertainty regarding the timing and execution of these initiatives and as a result the impact on required working capital available for the Group may significantly affect the performance of its key businesses. If the financial performance of key businesses are affected and these have an adverse affect on achieving budgeted operating cash flows and operating profitability targets, this may result in the carrying value of goodwill being impaired. The outcome of these matters cannot currently be determined and no provision for any impairment on these intangible assets has been made in this financial report.

Report on the Remuneration Report

We have audited the Remuneration Report included within the report of the directors for the year ended 30 June 2009. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of Coote Industrial Limited for the year ended 30 June 2009, complies with section 300A of the Corporations Act 2001.

BENTLEYS
Chartered Accountants

RANKO MATIĆ
Director

DATED at PERTH this 30th day of September 2009

Corporate Governance Statement

The Company and the Board are committed to achieving compliance with all the best practice recommendations released by the Australian Stock Exchange Corporate Governance Council. This statement outlines the main corporate governance practices in place throughout the financial year, with specific references made to any departures from the best practice recommendations. Further details are available on the company's website www.coote.com.au.

Role of the Board

The role of Coote Industrial's Board is to protect and promote the interests of the company and to represent its shareholders whilst considering the interests of other stakeholders including employees, customers, suppliers, wider communities and the environment. It does this according to the principles of good corporate governance intending to fulfil the company's responsibilities as a corporate citizen.

The Board operates under a Board Charter; which describes the processes used by the Board to:

- appoint, review the performance of the Managing Director and CEO;
- approve key strategic decisions including, but not limited to, acquisitions and divestments;
- approve annual revenue, operating expenditure, and capital budgets;
- approve significant changes in organisational structure;
- determine and approve the remuneration of the Managing Director and CEO;
- approve the remuneration of executive management;
- formally adopt any communication to regulators and shareholders as may be required by the company constitution, statute, or other regulation.

The Board may change by resolution any power reserved to itself.

Executive Delegation

Other than those matters reserved by the Board to itself, the Board delegates to the Managing Director and CEO all authority to achieve the company's objectives consistent with this Governance Charter, the company constitution, statute or other regulation.

The Managing Director and CEO, prepare a one year operational and financial plan for approval by the Board.

Board Structure

The skills, experience and expertise relevant to the position of each director who is in office at the date of the annual report and their term of office are detailed earlier in this Annual Report.

The names of the independent directors of the company are:

D Hector

When determining whether a non-executive director is independent the director must not fail any of the following materiality thresholds:

- less than 10% of company shares are held by the director and any other entity or individual directly or indirectly associated with the director;
- no sales are made to or purchases made from any entity or individual directly or indirectly associated with the directors, and
- none of the directors income of the income of an individual or entity directly or indirectly associated with the director is derived from a contract with any member of the economic entity other than income derived as a director of the entity.

Corporate Governance Statement (cont'd)

Board Structure (cont'd)

The Board reviews the independence of its directors in light of the information provided to it.

Independent directors have the right to seek independent professional advice in the furtherance of their duties as directors at the company's expense. Written approval must be obtained from the board prior to incurring any expense on behalf of the company.

Meetings of the Board

The board meets formally at least four times per year and on other occasions as required. On the invitation of the Board, members of senior management attend and make presentations at Board meetings. In addition to the formal meetings the Board regularly meets to consider important issues affecting the company.

The number of meetings held and attended by each of the directors for the financial year ended 30 June 2009 is set out in the Directors' Report.

Board Membership

Appointment

Board members are nominated by the Board and their appointment confirmed by a vote of shareholders. The Board will have a minimum of one non-executive director who will be free of material relationships with the company and who would be reasonably considered by shareholders to be independent. This policy is not consistent with ASX Best Practice Recommendation 2.1 and the appointment an additional non-executive director is planned for FY10.

The expectation of directors is that they will be of unquestioned integrity and honesty; will understand and behave to the highest standards of corporate governance and will be prepared to question, challenge, and criticise matters of strategy.

Directors will be appointed according to the contribution they can make in meeting strategic skill requirements of the company. Remuneration of directors will be transparent and reported in its entirety to shareholders.

Directors are expected to continue to develop their skills through ongoing education and training.

Retirement and Re-election

The constitution of the company requires one third of the directors, other than the managing director, to retire from office at each annual general meeting. Directors who have been appointed by the Board are required to retire from office at the next following annual general meeting and are not taken into account in determining the number of directors to retire at that annual general meeting.

Directors cannot hold office for a period in excess of three years beyond the third annual general meeting following their appointment without submitting themselves for re-election. Retiring directors are eligible for re-election by shareholders.

Board Access to Information and Independent Advice

All directors have unrestricted access to employees of the group and, subject to the law, access to all company records and information held by group employees and external advisors. Each director may obtain independent professional advice to assist the director in the proper exercise of powers and discharge of duties as a director or as a member of a Board Committee. In such cases, the chairman and company secretary must be advised and a copy of the advice made available to all directors.

Corporate Governance Statement (cont'd)

Board Membership (cont'd)

Conflicts of Interest

Directors are required to notify the Board of any real or perceived conflicts of interest that may occur from time to time. The Board has adopted the use of formal standing notices in which they disclose any material personal interests they have and the relationship with the affairs of the company. Directors are required to provide an updated notice if they acquire any new material personal interests or if there is any change to the nature and extent of their previously disclosed interest.

Performance Evaluation

To date a formal assessment of board performance has not taken place. Due to the significant Board structural reforms planned it was decided that this evaluation should be delayed until the new structure was in place.

Reward and Remuneration

Reward and remuneration of directors and executives will be objectively linked to obtaining the company objectives and consistent with the financial performance of the company.

There will be transparency to shareholders regarding reward and remuneration of board members and senior executive management.

There are currently no schemes for retirement benefits other than statutory superannuation for non-executive directors.

Committees

Currently the Board of Coote Industrial has formed a separate Audit Committee to assist it in exercising its responsibilities. Given the size and stage of development of the company the Board has not formed a Nomination or Remuneration Committee which is a departure from ASX Best Practice Recommendation 2.4 and 8.2.

The Audit Committee monitors internal control policies and procedures designed to safeguard company assets and to maintain the integrity of financial reporting. The specific responsibilities set out in its charter include:

- in conjunction with the internal and external auditors, assure the integrity of financial statements;
- recommend to the board appointment of and review the performance of the external auditor;
- determine the remuneration of the external auditor;
- oversee the integrity of the internal and external audit process, and
- ensure there is a process to identify the likelihood and impact of financial risk and that this process is actively managed.

Audit Committee

The members of the Audit Committee at the date of this report are:

D Hector (Chairman)

P Wilson (resigned 08/01/2009)

G Parrett

Senior staff and any other persons considered appropriate, attend meetings of the Audit Committee by invitation. Details of the number of meetings held and attended by the members of the Audit Committee can be found in the Director's Report. The Board has established a Terms of Reference to guide the activities of the committee. The current composition of the audit committee does not meet ASX Best Practice Recommendation 4.3 however the Board believes that this is the most effective structure for the Audit Committee given the structure of the Board itself.

Corporate Governance Statement (cont'd)

Financial Reporting

Consistent with ASX Best Practice Recommendation 4.1, and in accordance with section 295A of the Corporations Act 2001, the company's financial report preparation and approval process for the year ended 30 June 2009, involved both the Chief Executive Officer and Chief Financial Officer providing a written statement to the Board that, in their opinion:

- the company's financial report presents a true and fair view of the company's financial condition and operating results and is in accordance with applicable accounting standards, and
- the company's financial records for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001.

Audit Governance and Independence

External Auditors

Bentleys (formerly Rix Levy Fowler) are the company's current external auditors. The performance of the external auditor is reviewed annually by the Audit Committee. Bentleys were appointed as the external auditor in 2006. It is currently company's policy that no non-audit services are provided by the external auditor to ensure independence is maintained. It is Bentley's policy to rotate audit engagement partners on listed companies at least every five years.

Independence Declaration

The Corporate Law Economic Reform Program (Audit Reform and Corporate Disclosure) Act 2004 ("CLERP 9") amendments to the Corporations Act 2001 require external auditors to make an annual independence declaration, addressed to the Board, declaring that the auditors have maintained their independence in accordance with CLERP 9 amendments and the rules of the professional accounting bodies.

Bentleys have provided such a declaration to the Audit Committee for the financial year ended 30 June 2009.

Attendance of external auditors at annual general meetings

In accordance with ASX Best Practice Recommendation 6.2 and Corporations Act 2001 the company requires that Bentleys attend the company's annual general meeting and are available to answer questions about the conduct of the audit and the preparation and content of the audit report. Shareholders are asked to submit written questions to the company secretary at least 5 days prior to the annual general meeting.

Risk Identification and Management

Coote Industrial is in the process of implementing policies regarding risk identification and management which are consistent with ASX Principle 7.

Share Trading Policy

The company's Share Trading Policy aims to reinforce the requirements of the Corporations Act 2001 in relation to insider trading. The policy states that all employees and directors of the company and its related companies are prohibited from trading in the company's securities if they are in possession of "inside information". Directors must not deal in any Coote Industrial Ltd securities without notifying the board and receiving written approval from it to do so. The chairman must seek written approval from the Chief Executive Officer. Managers and other employees are also required to seek written approval of the Chief Executive Officer prior to trading in any shares in the company.

Corporate Governance Statement (cont'd)

Continuous Disclosure

The company understands and respects that timely disclosure of price sensitive information is central to the efficient operation of the Australian Stock Exchange's securities market. The company secretary has responsibility for overseeing and co-ordinating the disclosure. Any disclosures are discussed with the Board and appropriate action is taken.

Communications with Shareholders

The Board is committed to completely discharge its obligation to represent the interests of shareholders.

The Board will ensure that information is regularly communicated to shareholders, in particular, paying regard to the continuous disclosure requirements of the ASX. The Board welcomes shareholder participation at the company's annual general meeting. Shareholders are entitled to vote on significant matters impacting on the business, which include the election and remuneration of directors, changes to the constitution and receipt of the annual and interim financial statements. Shareholders are encouraged to attend and participate in the Annual General Meeting, to lodge questions to be responded by the Board, and are able to appoint proxies.

Notes to the Accounts

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies

The financial report covers the consolidated group of Coote Industrial Ltd and controlled entities, and Coote Industrial Ltd as an individual parent entity. Coote Industrial Ltd is a listed public company, incorporated and domiciled in Australia.

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The following is a summary of the material accounting policies adopted by the consolidated group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Accounting Policies

(a) Principles of Consolidation

A controlled entity is any entity Coote Industrial Ltd has the power to control the financial and operating policies so as to obtain benefits from its activities.

A list of controlled entities is contained in Note 12 to the financial statements. All controlled entities have a June financial year-end.

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered (left) the consolidated group during the year, their operating results have been included (excluded) from the date control was obtained (ceased).

All inter-company balances and transactions between entities in the consolidated group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)**(b) Business Combinations**

Business combinations occur where control over another business is obtained and results in the consolidation of its assets and liabilities. All business combinations, including those involving entities under common control, are accounted for by applying the purchase method. The purchase method requires an acquirer of the business to be identified and for the cost of the acquisition and fair values of identifiable assets, liabilities and contingent liabilities to be determined as at acquisition date, being the date that control is obtained. Cost is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for control together with costs directly attributable to the business combination. Any deferred consideration payable is discounted to present value using the entity's incremental borrowing rate.

Goodwill is recognised initially at the excess of cost over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If the fair value of the acquirer's interest is greater than cost, the surplus is immediately recognised in profit or loss.

(c) Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

Tax Consolidation

Coote Industrial Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity in the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The group notified the Australian Tax Office that it had formed an income tax consolidated group to apply from 31 October 2007. The tax consolidated group intends to enter a tax funding arrangement whereby each company in the group contributes to the income tax payable by the group in proportion to their contribution to the group's taxable income.

(d) Inventories

Inventories are measured at the lower of cost and net realisable value.

The cost of finished goods includes direct materials, direct labour and an appropriate portion of variable and fixed overheads. Costs are assigned on the basis of weighted average costs.

The cost of raw materials includes all costs to transport the goods to a location ready for use including any duties and charges on items purchased overseas.

A review of inventory was completed at year end to identify items to be classed as non-current. Non current inventory is defined as inventory not expected to be utilised in the next financial year. The majority of items identified were long life locomotive spares which require refurbishment prior to use.

(e) Construction Contracts and Work in Progress

Construction work in progress is valued at cost, plus profit recognised to date less any provision for anticipated future losses. Cost includes both variable and fixed costs relating to specific contracts, and those that are attributable to the contract activity in general and that can be allocated on a reasonable basis.

Construction profits are recognised on the stage of completed basis and measured using the proportion of costs incurred to date as compared to expected actual costs. Where losses are anticipated they are provided for in full.

Construction revenue has been recognised on the basis of the terms of the contract adjusted for any variations or claims allowable under the contract profits.

Work in progress is valued at cost. Cost includes both variable and fixed costs relating to specific projects, and those that are attributable to the project activity in general and that can be allocated on a reasonable basis.

(f) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)**Property**

Freehold land and buildings are shown at their cost (being the consideration paid plus any additional direct costs), less subsequent depreciation for buildings.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the income statement and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Plant and equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses. The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The cost of fixed assets constructed within the consolidated group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a diminishing value over their useful lives to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Leasehold improvements	40% - 67%
Plant and equipment	10% - 67%
Leased plant and equipment	30% - 67%
Buildings	2.50%

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

(g) Leases

Lease of fixed assets where substantially all the risks and benefits incidental to the ownership of the assets, but not the legal ownership that is transferred to entities in the consolidated group, are classified as finance leases. Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(h) Financial Instruments

Initial Recognition and measurement

Financial assets and liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Finance instruments are subsequently measured at their fair value, amortised cost using the effective interest rate method, or cost. Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. When quoted prices are available in an active market they are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortisation cost is calculated as:

- (a) the amount at which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest method, and
- (d) less any reduction for impairment.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

Financial assets at fair value through profit and loss

Financial assets are classified at fair value through profit or loss when they are held for trading for the purpose of short term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch. Realised and unrealised gains and losses arising from changes in fair value are included in profit or loss in the period in which they arise.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the group's intention to hold these investments to maturity. They are subsequently measured at amortised cost using the effective interest rate method.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

At each reporting date, the group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in the income statement.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(i) Impairment of Assets

At each reporting date, the group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Impairment testing is performed at least annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(j) Intangibles

Goodwill

Goodwill and goodwill on consolidation are initially recorded at the amount by which the purchase price for a business combination exceeds the fair value attributed to the interest in the net fair value of identifiable assets, liabilities and contingent liabilities at date of acquisition. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Customer Related Intangibles

Customer related intangibles are stated at cost less accumulated amortisation and impairment losses - see policy (i).

Patents and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and trademarks are amortised over their useful life.

Other Identifiable Intangibles

Other intangibles are stated at cost less accumulated amortisation and impairment losses - see policy (i). At balance date the amount in other identifiable intangibles can be attributed to the value applied to Rail Access on acquisition.

Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

(k) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity; otherwise the exchange difference is recognised in the income statement.

Group companies

The financial results and position of foreign operations whose functional currency is different from the group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period, and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the group's foreign currency translation reserve in the balance sheet. These differences are recognised in the income statement in the period in which the operation is disposed.

(l) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

Equity-settled compensation

The group has available equity-settled share-based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using a Bi-nomial pricing model which incorporates all market vesting conditions. The number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

(m) Provisions

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provision for Warranties

Provision is made in respect of the consolidated group's estimated liability on all products and services under warranty at balance date. The provision is measured as the present value of future cash flows estimated to be required to settle the warranty obligation. The future cash flows have been estimated by reference to the consolidated group's history of warranty claims.

(n) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

(o) Revenue and Other Income

Revenue is measured at fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed.

Revenue from the sale of goods is recognised at the point of delivery or as contractually negotiated as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

Revenue recognition relating to the provision of services is determined with reference to the stage of completion of the transaction at reporting date and where the outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

Revenue relating to construction activities is detailed in Note 1 (e).

Interest revenue is recognised as it accrues using the effective interest rate method.

All revenue is stated net of the amount of goods and services tax (GST).

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)**(p) Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in income in the period in which they are incurred.

(q) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(r) Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100 and accordingly, amounts in the financial report and directors' report have been rounded off to the nearest \$1,000.

(s) Critical accounting estimates and judgments***Goodwill and intangibles***

Significant judgments are made with respect to identifying and valuing intangible assets on acquisitions of new businesses. The group assesses impairment of intangibles at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates which can be found in Note 15.

Income Tax

Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the company as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office. Further details can be found in Notes 4 and 19.

Share-based payments

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by management using a binomial option-pricing model. The assumptions used in this model can be found in Note 26 Share based payments. These accounting estimates and assumptions would have no impact on the carrying amounts of assets and liabilities within the next reporting period but may impact expenses and equity.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

Impairment

At each reporting date, the group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

Provision for Impairment of receivables and investments in subsidiaries

Included in the assets of the parent entity are amounts relating to inter-company receivables, loans and investments in wholly owned subsidiaries. As these strategic acquisitions are expected to make positive contributions to group profits in future years the directors believe that the full amounts of debts are recoverable from each of its subsidiaries and as such no provision for impairment has been made at 30 June 2009. Further details can be found in Note 28.

Environmental Issues

Balances disclosed in the financial statements and notes thereto are not adjusted for any pending or enacted environmental legislation, and the directors understanding thereof. At the current stage of the company's development and its current environmental impact the directors believe such treatment is reasonable and appropriate.

(t) New Accounting Standards and interpretations not yet adopted

The AASB has issued new, revised and amended standards and interpretations that have mandatory application dates for future reporting periods. The Group has decided against early adoption of these standards. A discussion of those future requirements and their impact on the Group follows:

AASB 3: Business Combinations, AASB 127: Consolidated and Separate Financial Statements, AASB 2008-3: Amendments to Australian Accounting Standards arising from AASB 3 and AASB 127 [AASB 1,2,4,5,7,101,107, 112, 114, 116, 121, 128, 131, 132, 133, 134, 136, 137, 138 & 139 and Interpretations 9 & 107] (applicable for annual reporting periods commencing from 1 July 2009) and AASB 2008-7: Amendments to Australian Accounting Standards – Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate [AASB 1, AASB 118, AASB 121, AASB 127 & AASB 136] (applicable for annual reporting periods commencing from 1 January 2009). These standards are applicable prospectively and so will only affect relevant transactions and consolidations occurring from the date of application. In this regard, its impact on the Group will be unable to be determined. The following changes to accounting requirements are included:

- acquisition costs incurred in a business combination will no longer be recognised in goodwill but will be expensed unless the cost relates to issuing debt or equity;
- contingent consideration will be measured at fair value at the acquisition date and may only be provisionally accounted for during a period of 12 months after acquisition;
- a gain or loss of control will require the previous ownership interests to be remeasured to their fair value;
- there shall be no gain or loss from transactions affecting a parent's ownership interest of a subsidiary with all transactions required to be accounted for through equity (this will not represent a change to the Group's policy);
- dividends declared out of pre-acquisition profits will not be deducted from the cost of an investment but will be recognised as income;
- impairment of investments in subsidiaries, joint ventures and associates shall be considered when a dividend is paid by the respective investee; and

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 1 — Statement of Significant Accounting Policies (cont'd)

- where there is, in substance, no change to Group interests, parent entities inserted above existing groups shall measure the cost of its investments at the carrying amount of its share of the equity items shown in the balance sheet of the original parent at the date of reorganisation.

The Group will need to determine whether to maintain its present accounting policy of calculating goodwill acquired based on the parent entity's share of net assets acquired or change its policy so goodwill recognised also reflects that of the non-controlling interest.

AASB 8: Operating Segments and AASB 2007-3: Amendments to Australian Accounting Standards arising from AASB 8 [AASB 5, AASB 6, AASB 102, AASB 107, AASB 119, AASB 127, AASB 134, AASB 136, AASB 1023 & AASB 1038] (applicable for annual reporting periods commencing from 1 January 2009). AASB 8 replaces AASB 114 and requires identification of operating segments on the basis of internal reports that are regularly reviewed by the Group's Board for the purposes of decision making. While the impact of this standard cannot be assessed at this stage, there is the potential for more segments to be identified. Given the lower economic levels at which segments may be defined, and the fact that cash generating units cannot be bigger than operating segments, impairment calculations may be affected. Management does not presently believe impairment will result however.

AASB 101: Presentation of Financial Statements, AASB 2007-8: Amendments to Australian Accounting Standards arising from AASB 101, and AASB 2007-10: Further Amendments to Australian Accounting Standards arising from AASB 101 (all applicable to annual reporting periods commencing from 1 January 2009). The revised AASB 101 and amendments supersede the previous AASB 101 and redefines the composition of financial statements including the inclusion of a statement of comprehensive income. There will be no measurement or recognition impact on the Group. If an entity has made a prior period adjustment or reclassification, a third balance sheet as at the beginning of the comparative period will be required.

AASB 123: Borrowing Costs and AASB 2007-6: Amendments to Australian Accounting Standards arising from AASB 123 [AASB 1, AASB 101, AASB 107, AASB 111, AASB 116 & AASB 138 and Interpretations 1 & 12] (applicable for annual reporting periods commencing from 1 January 2009). The revised AASB 123 has removed the option to expense all borrowing costs and will therefore require the capitalisation of all borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset. Management has determined that there will be no effect on the Group as a policy of capitalising qualifying borrowing costs has been maintained by the Group.

AASB 2008-1: Amendments to Australian Accounting Standard – Share-based Payments: Vesting Conditions and Cancellations [AASB 2] (applicable for annual reporting periods commencing from 1 January 2009). This amendment to AASB 2 clarifies that vesting conditions consist of service and performance conditions only. Other elements of a share-based payment transaction should therefore be considered for the purposes of determining fair value. Cancellations are also required to be treated in the same manner whether cancelled by the entity or by another party.

AASB 2008-5: Amendments to Australian Accounting Standards arising from the Annual Improvements Project (July 2008) (AASB 2008-5) and AASB 2008-6: Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project (July 2008) (AASB 2008-6) detail numerous non-urgent but necessary changes to accounting standards arising from the IASB's annual improvements project. No changes are expected to materially affect the Group.

The financial report was authorised for issue on 30 September 2009 by the Board of directors.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 2 — Revenue

	Note	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000

Total rental expense on operating leases		8,773	5,560	276	124
(b) Significant Revenue and Expenses					
The following significant revenue and expense items are relevant in explaining the financial performance:					
- Coote Locomotive Project revenues		17,550	82,713	-	-
- Coote Locomotive Project cost of goods sold (excludes Gemco Rail overheads, corporate overheads, interest and income tax allocations)		12,142	57,605	-	-
- Construction Contract - Accrued Income		17,237	-	-	-
- Construction Contract - Accrued expenses		12,302	-	-	-
- Credit Note Greentrains Tranche 1 - Revenue	29	(17,200)	-	-	-
- Credit Note Greentrains Tranche 1 - Expenses		(14,648)	-	-	-

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 4 — Income Tax Expense

	Note	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
(a) The components of tax expense comprise:					
Current tax		1,963	10,060	(1,249)	304
Deferred tax	19	(219)	103	(219)	89
Relating to origination and reversal of temporary differences		(307)	-	218	-
Under provision in respect of prior years		214	-	247	-
		1,651	10,163	(1,003)	393
(b) The prima facie tax on profit from ordinary activities before income tax is reconciled to the income tax as follows:					
Prima facie tax payable on profit from ordinary activities before income tax at 30% (2008: 30%)					
- consolidated group		(867)	9,668	-	-
- parent entity		-	-	(1,253)	(19)
Add:					
Tax effect of:					
non-deductible depreciation and amortisation		-	-	-	-
other non-allowable items		1,167	495	3	412
controlled foreign entities not at prima facie tax rate		1,154	-	-	-
share options expensed during year		-	-	-	-
under provision for income tax in prior year		214	-	247	-
		1,668	10,163	(1,003)	393
Less:					
Tax effect of:					
- rebateable fully franked dividends		-	-	-	-
- changed estimate regarding inventory obsolescence write down		-	-	-	-
- other non-allowable items		-	-	-	-
- controlled foreign entities not at prima facie tax rate		17	-	-	-
- Recoupment of prior year tax losses not previously brought to account		-	-	-	-
- Income tax attributable to entity		1,651	10,163	(1,003)	393
The applicable weighted average effective tax rates are as follows:		-57%	26%	24%	28%

The tax payable is due to the profit in Hedemora Sweden which is not available for offset against the consolidated tax entities loss.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 5 — Key Management Personnel**(a) Directors**

The following persons were directors of Coote Industrial Ltd during the financial year:

Name	Position
M Coote	Managing Director
D Patterson	Chief Executive Officer/Executive Director
P Wilson	Executive Director (resigned 8 January 2009)
G Parrett	Executive Director
D Hector	Non-executive Chairman

(b) Other Key management personnel

The following persons also had authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, during the financial year:

Name	Position
K Pallas	Chief Operating Officer
M Darwish	Company Secretary/Chief Financial Officer
S Bassan	CEO - Gemco Rail
T Symons	CEO - South Spur Rail Services
A Marsh	CEO - Momentum
P Swann	CEO – Convair
P Crosswell	CEO – Industrial Powertrain

(c) Key management personnel compensation

Refer to the Remuneration Report contained in the Report of Directors for details of the remuneration paid or payable to each member of the Groups' key management personnel for the year ended 30 June 2009.

The totals of remuneration paid to KMP of the company and the Group during the year are as follows:

	2009 \$000	2008 \$000
Short-term employee benefits	3,407	2,958
Post-employment benefits	278	255
Other long-term benefits	-	-
Termination benefits	454	-
Total	4,139	3,213

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

P Swann	33,520	-	-	20,000	53,520
P Crosswell	11,007	-	-	-	11,007

Net change other refers to shares purchased/sold independently during the financial year.

(f) Other Key Management Personnel transactions

There have been no other transactions involving equity instruments other than those described in the tables above. For details of other transactions with Key Management Personnel, refer to Note 28: Related Party Transactions.

Note 6 — Auditor's Remuneration

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
Remuneration of the auditor of the parent for:				
- auditing or reviewing the financial report	572	520	572	520
Remuneration of other auditors of subsidiaries for:				
- auditing or reviewing the financial report of subsidiaries	155	69	-	-

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 7 — Dividends

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
(a) Distributions paid				
Interim fully franked dividend of nil (2008: 3.5) cents per share franked at the tax rate of 30% (2008: 30%)	-	4,050	-	4,050
Final fully franked ordinary dividend of nil (2008: 5.00) cents per share franked at the tax rate of 30% (2008: 30%)	5,801	2,455	5,801	2,455
No final dividend has been declared				
	5,801	6,505	5,801	6,505
(b) Balance of franking account at year end adjusted for franking credits arising from:				
Opening balance	9,586	1,964	9,586	1,964
Payment of provision for income tax	(918)	10,108	(918)	10,108
Dividends recognised as receivables and franking debits arising from payment of proposed dividends, and franking credits that may be prevented from distribution in subsequent financial years	-	(2,486)	-	(2,486)
Subsequent to year-end, the franking account would be reduced by the proposed dividend reflected per (b) as follows.	8,668	9,586	8,668	9,586

Note 8 — Earnings per Share

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000
(a) Reconciliation of earnings to profit or loss		
Profit / (Loss)	(4,541)	22,012
Earnings used to calculate basic EPS	(4,541)	22,012
Earnings used in the calculation of dilutive EPS	N/A	22,012
	No.	No.
(b) Weighted average number of ordinary shares outstanding during the year used in calculating basic EPS	117,355	101,536
Weighted average number of options outstanding	7,400	5,408
Weighted average number of ordinary shares outstanding during the year used in calculating dilutive EPS	124,755	106,944

Notes to the Accounts (cont'd)

2008	-	-	67	-	2,255	5

Individuals with loans above \$100,000 in reporting period:

	Balance at Beginning of Year \$000	Interest Charged \$000	Interest Not Charged \$000	Provision for Impairment \$000	Balance at End of Year \$000	Highest Balance During Period \$000
D Patterson	1743	-	140	-	1,743	1,743
G Parrett	206	-	16	-	206	206
K Pallas	102	-	8	-	102	102
J Hickey	102	-	8	-	102	102
A Butters	102	-	8	-	102	102

All amounts advanced to employees and directors are secured interest free limited recourse loans for the purchase of shares in Coote Industrial issued under the company's share and option plan.

The amounts shown for interest not charged in the tables above represent the difference between the amount paid and payable for the year and the amount of interest that would have been charged on an arm's length basis

(b) Provision for impairment of receivables

Current trade and term receivables are non-interest bearing loans and generally on 30 day terms. Non-current trade and term receivables are assessed for recoverability based on the underlying terms of the contract. A provision for impairment is recognised when there is objective evidence that an individual trade or term receivable is impaired. These amounts have been included in the other expenses item.

Movement in the provision for impairment of receivables is as follows:

2008	Opening Balance 1 Jul 07 \$000	Charge for the Year \$000	Amounts Written Off \$000	Closing Balance 30 Jun 08 \$000
CONSOLIDATED GROUP

Ageing of past due but not impaired

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
60 – 90 days	2,218	2,042	14	56
90 – 120 days	68,263	2,305	48	37
Total	70,481	4,347	62	93

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reportable date. The directors believe that there is no further credit provision required in excess of the allowance for doubtful debts. A large proportion of the amount in 90 – 120 days related to the Greentrains T1 transaction (\$82.7m). This was subsequently settled after balance date. Further details can be found in note 29.

(c) Material Trade and Other Receivables

A material trade receivable was owed to Gemco Rail by Greentrains Ltd at 30 June 2009 – as indicated above this was settled on 17 July 2009. Further details can be found on Note 29.

In addition to the amount noted above, an additional invoice of \$17.55m and accrued income of \$17.237m was raised on Greentrains for the purchase of a further twelve locomotives constituting the Tranche 2 sale. The invoice of \$17.55m was delivered in June after the completion of the first 7 locomotives. Whilst funds for this sale had not been received by the completion of the audit the Board is confident the invoice will be paid in a shorter time-frame than the time taken to settle the Tranche 1 locomotive sale.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 15 — Intangible Assets (cont'd)

Intangible assets, other than goodwill, have finite useful lives. The current amortization charges for intangible assets are included under depreciation and amortization expense in the income statement. Goodwill has an infinite useful life.

Impairment tests for cash generating units containing goodwill

For the purpose of impairment testing, goodwill is allocated to the Group's operating divisions which represent the lowest level within the Group at which goodwill is monitored for internal management purposes as follows:

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000
GOODWILL		
Convair	2,720	2,720
Coote Investments	-	1,012
South Spur Logistics	18,044	29,044
Drivetrain	18,316	18,674
Gemco Rail	28,245	22,762
Industrial Powertrain	3,821	3,821
Momentum	13,573	2,372
TOTAL GOODWILL	84,719	80,405

The recoverable amount of the cash generating unit is based on value in use calculations. The calculations use cash flow projections based on the following year's budget and plan, extended over a period of 5 years using a growth factor relevant to the sector and business plan. Where management determines budgeted forecasts are significantly different from historical performance an adjustment is made to ensure consistency with historical results.

Terminal value for each CGU was calculated using the perpetuity method whereby cash flows after the forecast period were treated as an annuity and divided by the discount rate in order to determine the residual value. A pre-tax discount rate is applied adjusted for the risk of the industry in which each unit operates.

Key assumptions used for value in use calculations

A growth rate of between -5% and 0% has been applied to extrapolate cash flows. The growth rate does not exceed the long-term average growth rate for the business in which the cash generating units operate.

A pre-tax discount rate of 11.3% has been applied to discount the forecast future attributable pre-tax cash flows. The discount rate reflects specific risks relating to the relevant cash generating units in their country of operation.

The recoverable amount of each cash-generating unit exceeds the carrying amount of the gross assets of that unit.

Note 18 — Financial Liabilities (cont'd)

	2009	2008	Maturity Dates	Interest Basis
The bank loan facilities are made up of three facilities being:				
- Cash Advance Facility	73,000	73,000	Feb-10	Floating
- Equipment Loan	24,175	25,000	Jul-09	Fixed
- Swedish Loan Facility	8,573	8,594	Feb-12	Floating
	105,748	106,594		

These loan facilities were fully drawn down at 30 June 2009.

The equipment loan has subsequently been repaid on 17th July 2009 on settlement of the Greentrains debtor (see Note 29).

The Cash Advance Facility for the purpose of acquiring a number of entities during FY08 was an interest only facility. Following settlement of the Tranche 1 Greentrains debtor (see Note 29) it converted to a \$1.5m amortizing quarterly in reduction loan. The Cash Advance Facility and Bank Overdraft are secured via a fixed and floating charge over the assets of the Australian entities.

The Swedish Loan facility is an amortizing facility over 5 years.

Additional information can be found in Note 30.

Turbomeca Provision

A provision of \$4.732m has been recognised for the balance of purchase price payable to the previous owner of Turbomeca. This is a performance based payment dependant on completing forward orders of approximately \$7.43m at the time of settlement. At balance date a provision for the maximum balance payable has been provided on the expectation that the forward orders will be completed within the stipulated timeframes.

Provision for Long-term Employee Benefits

A provision has been recognised for employee entitlements relating to long service leave. In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data. The measurement and recognition criteria relating to employee benefits have been included in Note 1 to this report.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 21 — Issued Capital

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000

(2008: 30/11/2007)	-	29,166,667	-	29,166,667
(2008: 28/02/2008)	-	1,100,000	-	1,100,000
(2008: 31/03/2008)	-	299,957	-	299,957
At reporting date	123,075,146	116,025,252	123,075,146	116,025,252

Date	No.	Price	
31/10/2008	449,894	\$0.60	Share issues in relation to Dividend Re-investment plan
6/05/2009	6,600,000	\$0.20	Shares issued as part of capital raising to sophisticated investors

All of these shares were eligible to participate in dividends from the date of issue.

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

(b) Options

At 30 June 2009 7,150,000 (2008: 7,400,000) options were on issue. No options were exercised during this financial year. Further details of the options currently on issue can be found in Note 26 Share based payments.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 21 — Issued Capital (cont'd)**(c) Capital Management**

Management determines the requirements for capital within the group initially on an annual budget basis and then monitors on a monthly basis. At times the debt to equity ratio may be outside of the Board's preferred band of 40% - 60%. This was the case at year end influenced by the additional debt taken on to complete rebuild of a number of rollingstock assets. As noted on page 8 of the directors report under the heading 'Looking Forward' a number of activities are underway to inject further working capital into the group including the sale of SSRS Logistics and settlement of the T2 sale to Greentrains.

The Board will also consider equity market options to increase working capital further after completion of the two planned options above. Further to this the Group intends to pursue the extension of its long-term debt facility due to expire in Feb 2010. Currently the facility has been treated as current in the accounts due to its expiry date being within the next 12 months. The Board will seek renewed facilities based on the remaining debt after taking into account all of the working capital options above are addressed.

	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
Total Borrowings	149,284	141,815	87,611	78,800
Net Debt	147,338	141,815	87,611	78,800
Total Equity	134,631	144,015	110,850	127,133
Total Capital	281,969	285,830	198,461	205,933
Gearing Ratio	109%	98%	79%	62%

The Board believes the current gearing ratio of 109% at 30 June 2009 is outside the current band of 40% - 60% that they would prefer to operate within given the current market environment.

The Board is actively pursuing debt reduction in FY09 and subsequent to reporting date (17 July 2009) reduced debt by \$34.12m after the receipt of funds from Greentrains for the T1 locomotives sold. Further debt reduction is targeted in FY10 to bring the gearing ratio within the preferred band. Further details can be found in Note 30.

Note 22 — Reserves**(a) Foreign Currency Translation Reserve**

The foreign currency translation reserve records exchange differences arising on translation of a foreign controlled subsidiary.

(b) Option Reserve

The option reserve records items recognised as expenses on valuation of share options.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 24 — Segment Reporting (cont'd)**(c) Accounting Policies**

Segment revenues and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by a segment and consist principally of cash, receivables, inventories, intangibles and property, plant and equipment, net of allowances and accumulated depreciation and amortisation. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. Segment liabilities consist principally of payables, employee benefits, accrued expenses, provisions and borrowings. Segment assets and liabilities do not include deferred income taxes. The Segments noted above have been revised from those used in FYo8 to align with the internal restructure to focus on the Groups Key Businesses. This also aligns with the Groups internal reporting framework.

(d) Inter-segment Transfers

The prices charged on inter-segment transactions (revenues, expenses and results transfers), are the same as those charged for similar goods to parties outside of the consolidated group at an arm's length. These transfers are eliminated on consolidation.

(e) Business Segments

The consolidated group consists of the following business segments:

Gemco Rail – Rolling-stock maintenance and manufacturing

Drivetrain – Power and Propulsion

Momentum – People – technical and contract services

Convair – Pneumatic tanker design and manufacture

Industrial Powertrain – Heavy equipment maintenance

South Spur Logistics – Road, Rail, Port operations

Coote Investments – Investment entity

Further information on the activities of each of these segments can be found throughout the annual report.

(f) Geographical Segments

The geographical segments comprise of Australasia, Sweden and the USA. The consolidated group's business segments are principally located in Australia with Drivetrain also operating from Sweden, USA, Philippines, Singapore and New Zealand.

(g) Impairment

An impairment loss of \$1.06m relating to plant and stock within the Drivetrain segment was recognised as an expense for the year ended 30 June 2009.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 25 — Cash Flow Information (cont'd)**(b) Acquisition of Entities****(i) New RTS**

On the 2nd of December 2008 Gemco Rail Pty Ltd (a 100% subsidiary of Coote Industrial Ltd) acquired all of the shares in New RTS Pty Ltd after exercising the option held over Rail Technical Support Group Pty Ltd. The operations of this entity were consolidated within Gemco Rail from the date of acquisition.

The goodwill on acquisition is as follows:

	Consolidated \$'000
Purchase consideration:	
Cash paid	925
Conversion of loan	2,020
Liability to Vendor	55
Other costs directly attributable to acquisition	138
Total purchase consideration	3,138

Assets and Liabilities held at acquisition date:

	Acquiree's Carrying Value \$'000	Fair Value \$'000
Cash	18	18

Note 25 — Cash Flow Information (cont'd)

(ii) *Turbomeca/HST*

On 12 March 2009 Hedemora Diesel AB (a 100% subsidiary of Drivetrain Power and Propulsion Pty Ltd) acquired the assets of Turbomeca Turbocharger Division on a going concern basis. The acquisition was consolidated into the Hedemora Diesel AB operation from acquisition date.

A component of the purchase price is based on completion of forward orders of \$9.4m of which a gross margin consideration is to be paid. At balance date a provision for the maximum liability was included in the accounts as at this date it is expected that these sales orders will be completed.

The goodwill on acquisition is as follows:

	Consolidated \$'000
Purchase consideration:	
Cash paid	3,577
Provision for performance based payment	5,365
Other costs directly attributable to acquisition	187
Total purchase consideration	9,129

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 26 — Share Based Payments

The following share-based payment arrangements existed at 30 June 2009:

- On 14 December 2006, 2,900,000 share options were granted to the directors and company secretary to accept ordinary shares at an exercise price of \$1.00. The options are exercisable after 14 September 2007 but before 14 December 2009. The options hold no voting or dividends rights and are not transferable. If a director ceases employment prior to exercising the options they are deemed to have lapsed. Since balance date no director has ceased employment. At balance date no share option has been exercised.
- On 14 December 2006, 1,500,000 share options were granted to Patersons Securities to accept ordinary shares at an exercise price of \$1.00. The options are exercisable after 14 September 2007 but before 14 December 2009. The options hold no voting or dividends rights and are not transferable.
- On 29 February 2009, 3,000,000 share options were granted to Azure Capital to accept ordinary shares. The options were issued on the following basis:

Number	Exercise Price \$	Exercise Date	Expiry Date
1,000,000	3.00	29/08/2009	29/02/2011
1,000,000	3.50	29/02/2010	29/08/2012
1,000,000	4.00	29/08/2010	29/02/2012

	Number of Options	Weighted Average Exercise Price \$	Number of Options	Weighted Average Exercise Price \$	Number of Options	Weighted Average Exercise Price \$	Number of Options	Weighted Average Exercise Price \$
Outstanding at the beginning of the year	7,400,000	2.01	4,400,000	1.00	7,400,000	2.01	4,400,000	1.00

Loans to subsidiaries	-	-	7,443	107,406
Loans from subsidiaries	-	-	(12,392)	-
End of year	-	-	131,661	136,610

The intercompany loans extended from Coote Industrial Ltd to its wholly owned subsidiaries are extended on the following terms:

Term: Revolving Facility repayable when subsidiary is in a position to do so or as otherwise decided by the company.

Rate: Fixed rate reviewable quarterly

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 29 — Events Subsequent to Reporting Date**(a) Settlement of Greentrains Debtor**

On 17 July 2009 the first tranche of rolling-stock sold to Greentrains Ltd was settled with Gemco Rail Pty Ltd, but not before adjustments were made to the original invoice value due of \$82.713m

A composite settlement was agreed as follows:

	\$'000
Original rolling-stock fleet purchase price	82,713
Additional assets acquired in FY09	1,340
	84,053
Less: Rolling-stock retained by Gemco Rail	(17,200)
Receivable converted to equity, held by Coote Investments	(16,548)
Sale of rolling-stock assets	(1,210)
Cash payment from debt raised	(34,000)
Cash payment from equity raised	(15,095)
Balance remaining from this first tranche transaction	-

On settlement \$34.12m was applied to debt reduction in Coote Industrial Ltd.

On conversion of funds owed to equity on settlement, Coote Investments (a 100% subsidiary of Coote Industrial Ltd), obtained a controlling interest (61.07%) in Greentrains Ltd. Greentrains Leasing Pty Ltd (previously Gemco Leasing Pty Ltd), a wholly owned subsidiary of Gemco Rail Pty Ltd, was sold to Greentrains on settlement of the T1 transaction.

As part of the settlement of the Greentrains transaction, Coote Industrial Ltd has agreed to provide a guarantee to the CBA for the debt (\$34m) extended to Greentrains. This guarantee will stay in place until at least half of the debt extended by the CBA is sold down to another party.

(b) Issue of Convertible Notes/Loan from Elph Pty Ltd

As per the announcement to the Australian Securities Exchange dated 17 July 2009 Coote Industrial issued a \$4m Convertible Note to Elph Pty Ltd.

Headline terms and conditions of the Convertible Note Deed are as follows:

- Two tranches. Issue of the first tranche of 10.871m convertible notes for \$1.864m is not subject to shareholder approval. Issue of the second tranche of 12.458m convertible notes for \$2.136m is subject to shareholder approval, with those funds advanced as a loan in the interim
- Face value of convertible notes: \$0.1714612
- Rate of conversion: one ordinary share for one convertible note
- Coupon rate 8%
- Maturity 4 years after issue
- Convertible on or before the earliest redemption date, 12 months after issue

A general meeting of shareholders of Coote Industrial Ltd will be held on 21st October 2009 to consider the Board's recommendation to approve the company's issue of the second tranche of convertible notes.

Upon conversion of the first and second tranche convertible notes, Elph Pty Ltd would hold 25% of Coote Industrial Ltd's issued shares.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management

(a) Financial Risk Management Policies

The group's financial instruments consist mainly of short-term investments, accounts receivable and payable, loans to and from subsidiaries, bills and leases.

	Note	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000

		221,936	183,571	89,459	80,071

The main purpose of non-derivative financial instruments is to raise finance for group operations.

i. Treasury Risk Management

Management consisting of senior executives of the Group discusses and monitors financial risk exposure and evaluates treasury management strategies in the context of current economic conditions and forecasts.

Managements overall risk management strategy seeks to assist the consolidated group in meeting its financial targets, whilst minimising potential adverse effects on financial performance.

Management operates under the supervision of members of the board of directors. Risk management transactions are approved by senior management personnel. This includes the use of hedging derivative instruments and decisions in relation to sources of future funding.

ii. Financial Risk Exposures and Management

The main risks the group is exposed to through its financial instruments are interest rate risk, foreign currency risk, liquidity risk and credit risk.

a. Interest Rate Risk

Exposure to interest rate risk arises on financial liabilities recognised at reporting date whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)

Currently the Groups' operations are financed using a mixture of fixed and floating debt. At 30 June 2009 approximately 29% of the Groups' debt was fixed. The group is not currently entered into any interest rate swaps to fix its floating rate debt.

The variable interest rate borrowings exposes the Group to interest rate risk which will impact future cash flows and interest charges and is indicated by the following floating interest rate financial liabilities:

	Note	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
FLOATING RATE INSTRUMENTS					
Bank Overdrafts	18	24,048	11,715	1,361	4,422
Cash Advance Facility	18	73,000	73,000	73,000	73,000
Swedish Loan Facilities	18	8,575	8,594	-	-
Total		105,623	93,309	74,361	77,422

b. Liquidity Risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities
- obtaining funding from a variety of sources
- managing credit risk related to financial assets
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets

The Group is also pursuing the extension of its long-term debt facility which is due to expire in Feb 2010. At this stage this facility has been treated as current due to its expiry within the next 12 months.

The tables below reflect an undiscounted contractual maturity analysis for financial liabilities. Bank Overdrafts have been deducted in the analysis (with the exception of \$10m which was repaid on 17 July 2009) as management does not consider that there is sufficient risk that the bank will terminate such facilities. The bank however maintains the right to terminate the facilities without notice and therefore the balances of overdrafts outstanding at year end could become repayable within 12 months. Whilst the Group intends to pursue the extension of its long-term debt facility due to expire in Feb 2010 the facility has been treated as current in this analysis and in the remainder of the accounts due to its expiry within the next 12 months and no firm details on an extension at this stage.

Cash flows realised from financial assets reflect management's expectations as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

As noted in Note 29, a \$4m convertible note was issued to Elph Pty Ltd subsequent to balance date. The proceeds of the funds raised through the issue were used in part for additional working capital. Part of the convertible notes issued require shareholder approval, and until shareholder approval is granted, consideration for these notes has been provided in the form of a loan. Should shareholder approval not be granted the loan is required to be repaid.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)

Defaults and Breaches

At 30 June 2009 the group was outside of the leverage covenant, which needs to be in the range of 2.5 to 3.5 times Net Debt to EBITDA: a dividend lock applies until leverage is below 2.5 times net debt to EBITDA. At 30 June the actual leverage covenant was 5.26 reducing to 4.05 on 17 July 2009 from settlement of Greentrains Tranche 1 debtor payment. The leverage covenant is expected to continue to reduce in line with the amortisation program of debt facilities met from operational cash flows, with further significant reduction from settlement of the Tranche 2 Greentrains debtor and divestment of South Spur Logistics.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)*c. Foreign exchange risk*

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the AUD functional currency of the Group.

The group currently does not hedge against the potential impact of this risk on its operations.

The majority of financial liabilities and assets of the Group are denominated in the functional currency of the operational location. These are primarily Australian Dollars and Swedish Krona.

d. Credit risk

Exposure to credit risk relating to financial assets arises from potential non-performance by counter parties of contract obligations that could lead to a financial loss to the Group.

Credit risk is managed through the maintenance of procedures (such procedures include monitoring of exposures, payment cycles and monitoring of the financial stability of significant customers and counter parties) ensuring to the extent possible, that customers and counter parties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Credit terms differ between each Key business but are generally 14 to 30 days.

Where the group is unable to ascertain a satisfactory credit risk profile in relation to a customer or counter party, then risk may be further managed through title retention clauses over goods or obtaining security by way of personal or commercial guarantees over assets of sufficient value which can be claimed against in the event of any default.

Credit Risk Exposures

The maximum exposure to credit risk by class of recognised financial assets at balance date, excluding the value of any collateral or security held, is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the balance sheet.

The Group has a significant concentration of credit risk with Greentrains at balance date. On a geographical basis, the Group has significant credit risk exposures to Australia given the substantial operations in this region. Details with respect of the credit risk of Trade and Other Receivables can be found in Note 10.

Trade and other receivables that are neither past due or impaired are considered to be of high credit quality. Aggregates of such amounts are detailed in Note 10.

(b) Net Fair Values**i. Fair Value estimation**

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying values as presented in the balance sheet. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)

Fair values derived may be based on information that is estimated or subject to judgment, where changes in assumptions may have a material impact on the amounts estimated. Areas of judgment and the assumptions have been detailed below. Where possible, valuation information used to calculate fair value is extracted from the market, with more reliable information available from markets that are actively traded. In this regard, fair values for listed securities are obtained from quoted market bid prices.

Consolidated Group	2009 Net Carrying Value \$000	2009 Net Fair Value \$000	2008 Net Carrying Value \$000	2008 Net Fair Value \$000
FINANCIAL ASSETS				
Cash and Cash Equivalents	1,946	1,946	-	-

	155,266	155,266	138,253	138,253
FINANCIAL LIABILITIES				
Trade and Other Payables	72,652	72,652	41,756	41,756
Lease Liability	19,486	19,486	23,506	23,506
Bank Debt	129,796	129,796	106,594	106,594
	221,934	221,934	171,856	171,856

Parent Entity	2009 Net Carrying Value \$000	2009 Net Fair Value \$000	2008 Net Carrying Value \$000	2008 Net Fair Value \$000
FINANCIAL ASSETS				
Trade and Other Receivables	157,171	157,171	141,593	141,593
Available-for-sale financial assets at fair value	59,577	59,577	63,984	63,984
	216,748	216,748	205,577	205,577
FINANCIAL LIABILITIES				
Trade and Other Payables	1,848	1,848	1,271	1,271
Lease Liability	856	856	1,378	1,378
Bank Debt	73,000	73,000	73,000	73,000
	75,704	75,704	75,649	75,649

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)

The fair values disclosed in the above table have been determined based on the following methodologies:

- Cash and cash equivalents, trade and other receivables and trade and other payables are short-term instruments in nature whose carrying value is equivalent to fair value. Trade and other payables exclude amounts provided for relating to annual leave which is not considered a financial instrument
- Loans and receivables have carrying values equivalent to fair value. The majority of these facilities have floating rates and those that are fixed are expected to be held to maturity and as such when discounted bear little resemblance to the carrying value.
- For listed available-for sale financial assets, closing quoted bid prices at reporting date are used.

ii. Sensitivity Analysis**a. Interest Rate Risk and Foreign Currency Risk**

The following table illustrates sensitivities to the Group's exposures to changes in interest rates and exchange rates. The table indicates the impact on how profit and equity values reported at balance date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

b. Interest Rate Sensitivity Analysis

At 30 June 2009, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

Consolidated Group	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
CHANGE IN PROFIT				
- Increase in interest rates by 100 basis points	(1,056)	(656)	(744)	(632)
- Decrease in interest rates by 100 basis points	1,056	656	744	632
CHANGE IN EQUITY				
- Increase in interest rates by 100 basis points	(1,056)	(656)	(744)	(632)
- Decrease in interest rates by 100 basis points	1,056	656	744	632

Notes to the Accounts (cont'd)

for the year ended 30 June 2009

Note 30 — Financial Risk Management (cont'd)

c. Foreign Currency Risk Sensitivity Analysis

At 30 June 2009, the effect on profit and equity as a result of changes in the value of the Australian Dollar to the Swedish Krona, with all other variables remaining constant is as follows:

Consolidated Group	Consolidated Group 2009 \$000	Consolidated Group 2008 \$000	Parent Entity 2009 \$000	Parent Entity 2008 \$000
CHANGE IN PROFIT				
- Improvement in AUD to SEK by 5%	86	108	-	-
- Decline in AUD to SEK by 5%	(86)	108	-	-
- Improvement in AUD to USD by 5%	(56)	-	-	-
- Decline in AUD to USD by 5%	56	-	-	-
CHANGE IN EQUITY				
- Improvement in AUD to SEK by 5%	419	(376)	-	-
- Decline in AUD to SEK by 5%	(419)	376	-	-
- Improvement in AUD to USD by 5%	(99)	-	-	-
- Decline in AUD to USD by 5%	99	-	-	-

The group does not hedge against foreign exchange movements against the net assets of its Swedish subsidiary.

Shareholder Information

Additional Information for Listed Companies at 24 September 2009

The following information is provided in accordance with the ASX Listing Rules.

1. Shareholding

(a) Distribution of Shareholders

Category (size of holding)	No. of shareholders	No. Ordinary Shares	%
1 – 1,000	113	68,954	6.18
1,001 – 5,000	550	1,808,020	31.58
5,001 – 10,000	385	3,129,579	20.34
10,001 – 100,000	673	21,382,981	36.85
100,001 – and over	93	96,685,612	5.06
	1,814	123,075,146	100.00

(b) The number of shareholdings held in less than marketable parcels is 161.

(c) The names of the substantial shareholders listed in the holding company's register as at 24 September 2009 are:

Shareholder	No. Ordinary Shares	%
Michael Charles Coote	42,811,164	34.78
Elph Pty Ltd	13,272,116	10.78

(d) Voting Rights

The voting rights attached to each class of equity security are as follows:

Ordinary shares

Each ordinary share is entitled to one vote when a poll is called, otherwise each member present at a meeting or by proxy has one vote on a show of hands.
