THE **EXTENSIVE EXPERIENCE** OF THE GLENGARRY BOARD AND MANAGEMENT IN DEVELOPING IRON ORE ASSETS **WILL BE APPLIED** TO CENTAURUS' PROJECTS

The Glengarry Board and the senior management team have a significant depth of iron ore experience including financing, development and operation of major iron ore assets. Companies which members of the team have been involved with include:

- Gindalbie Metals Ltd – Now commencing construction of the Karara Iron Ore Project, with a start up capacity of 8Mtpa, after securing significant equity funding from China's second largest steel producer, Ansteel, and development financing from Chinese banks.
- Atlas Iron Limited – Currently producing direct shipping iron ore at a rate of 1 Mtpa, with plans to grow to 12Mtpa by the end of 2012.
- Portman Limited – Grew to an 8Mtpa producer of iron ore before being taken over by US iron ore group, Cliffs Natural Resources.
- Aztec Resources Ltd – Developer of the high-grade Koolan Island Iron Ore Project before being taken over by Mt Gibson Iron Ltd.

The Merged Entity will consist of an expanded Board and management team, which includes former senior members of the management team or Board of the above companies. This will substantially enhance the available expertise to progress the Brazilian iron ore projects as they enter a demanding stage of development.

Darren Gordon B.Bus, CA, FFin, ACIS, MAICD – Managing Director

Darren is a Chartered Accountant with over 15 years experience in the mining industry as a senior finance and resources executive. Darren is the former Chief Financial Officer and Company Secretary for Gindalbie Metals Ltd, working with the company for over nine years. Mr Gordon has developed strong experience with project finance and capital markets particularly in the resource sector.

Mr Gordon was part of the senior management team that oversaw the rise of Gindalbie's market capitalisation from \$20 million to over \$500 million.

Darren's time with Gindalbie included the signing of an A\$534 million equity funding agreement with the Chinese steel producer Ansteel and completion of a definitive feasibility study over the \$1.8 billion Karara Iron Ore Project.

It is proposed that Mr Gordon will remain Managing Director of the Merged Entity.

Keith McKay BSc (Hons), FAusIMM, MAICD – Chairman

Keith is a geologist with 40 years technical and corporate experience in the mining industry as a senior executive, director and chairman. Keith is the former Chairman of Gindalbie Metals Limited.

Keith was also the former Managing Director of Gallery Gold Limited and Battle Mountain (Aust.) Ltd.

Keith will step down from the position of Chairman for the Merged Entity but will remain a non-executive director.

Geoff Clifford B.Bus, FCPA, FCIS – Independent Non-Executive Director

Geoff is an accountant with over 30 years experience in senior accounting, finance, administration and company secretarial roles in the mining, retail and wholesale industries.

Geoff is currently the Chairman of Western Australian iron ore producer, Atlas Iron Ltd, a company that has seen its market capitalisation grow to over \$750 million since it listed 5 years ago.

He has also gained significant iron ore expertise through his previous roles as non-executive director of Aztec Resources Ltd before it was acquired by Mt Gibson Iron Ltd and General Manager Administration and Company Secretary of Portman Limited before it was taken over by US iron ore group Cliffs Natural Resources.

Geoff also holds non-executive director roles with Fox Resources Ltd and RMA Energy Ltd.

Didier Murcia B.Juris, LL.B – Independent Non-Executive Director

Didier is a lawyer with 25 years legal and corporate experience in the resources industry. He is currently a non-executive director of emerging iron ore producer, Gindalbie Metals Ltd, a position he has held for over 12 years and where he has been part of the growth of the company from a market capitalisation of \$20 million to currently over \$650 million.

Didier is also a non-executive director of gold explorer Gryphon Minerals Ltd, oil and gas producer Target Energy Ltd and LSE listed Aminex plc. Mr Murcia also holds the position of Honorary Australian Consul for the United Republic of Tanzania.

Didier is Chairman and founding director of Perth-based legal group Murcia Pestell Hillard, where he practises predominantly in commercial and resource law with a particular emphasis on the provision of strategic and commercial advice.

It is proposed that Mr Murcia will assume the role of Chairman of the Merged Entity.

2

YOU WILL RECEIVE AN **ATTRACTIVE PREMIUM** FOR YOUR CENTAURUS SHARES AND CENTAURUS BID OPTIONS

Glengarry believes that the Share Offer is a compelling proposition for Centaurus Shareholders as it enables them to realise an implied value of 41.6 cents for each Centaurus Share (based on Glengarry's closing price of 5.2 cents on the last trading day before the Announcement Date), representing:

- (a) a 22% premium based on the closing prices of Centaurus Shares and Glengarry Shares as at 6 November 2009 (being the last trading day of Centaurus Shares prior to the Announcement Date) of 34 cents and 5.2 cents respectively;
- (b) a 35% premium based on the 1 month Volume Weighted Average Price ('VWAP') of Centaurus Shares and Glengarry Shares of 32.5 cents and 5.5 cents respectively, up to and including 6 November 2009; and
- (c) a 36% premium based on the 3 month VWAP of Centaurus Shares and Glengarry Shares of 34.4 cents and 5.8 cents respectively, up to and including 6 November 2009.

Centaurus Optionholders will also benefit from the same bid premium as in the Share Offer through the issue of an equivalent number of Glengarry Options on terms similar to the Share Offer.

Centaurus Optionholders will receive eight (8) new Glengarry Options for every Centaurus Bid Option they hold, and the exercise price will be equal to one eighth of the current Centaurus Bid Option exercise price. Other terms and conditions, including the expiry date, will remain unchanged.

IMPLIED OFFER VALUE

Source: IRESS Market Technology Ltd

1. Offer value is based on closing price of Centaurus Shares and Glengarry Shares as at 6 November 2009 of 34 cents and 5.2 cents respectively.
2. Offer value is based on the 1 month VWAP of Centaurus Shares and Glengarry Shares of 32.5 cents and 5.5 cents respectively.
3. Offer value is based on the 3 month VWAP of Centaurus Shares and Glengarry Shares of 34.4 cents and 5.8 cents respectively.
4. VWAP calculations were based on trading information up to and including 6 November 2009, the last trading day before the Announcement Date. Implied offer value calculated at the Offer consideration of 8 Glengarry Shares for 1 Centaurus Share.

3

YOU WILL **BENEFIT FROM A VERY SIGNIFICANT INCREASE IN CASH RESERVES** TO SUPPORT ONGOING EVALUATION AND DEVELOPMENT OF CENTAURUS' PROJECTS

The Offers will allow Centaurus Shareholders to benefit from an increase in cash reserves to approximately \$9.1 million on completion of the merger.

This strong cash position will be utilised to fund the development of Centaurus' Brazilian iron ore projects that have near-term production potential and the ability to generate cash flow in a reasonable timeframe enabling funding of further growth opportunities.

4

CENTAURUS DIRECTORS UNANIMOUSLY SUPPORT THE OFFERS

All Centaurus Directors unanimously recommend that, in the absence of a Superior Proposal, Centaurus Shareholders and Centaurus Optionholders accept the Offers.

All Centaurus Directors will accept the Offers in respect of any Centaurus Shares and Centaurus Bid Options that they own or control, subject in each case to there being no Superior Proposal.

In making the recommendation, Centaurus' Managing Director stated:

"Glengarry has made an attractive offer to Centaurus shareholders which not only provides an immediate uplift in the value of Centaurus shares but also provides the opportunity for our shareholders to be part of a well-funded company with the capability to accelerate the development of our Brazilian iron ore assets."

"The expanded Board and Management team – which includes former senior members of the management team from the West Australian iron ore company Gindalbie Metals – possesses extensive international iron ore expertise. I am confident that this team has the capability to add significant shareholder value to the new merged company in short order".

- Mark Papendieck, Managing Director, Centaurus

Glengarry has also entered into Pre-bid Acceptance Agreements with Centaurus Shareholders holding 19% of Centaurus. The parties that have entered into these agreements consist of founding Centaurus Shareholders, former Centaurus directors and other major Centaurus Shareholders.

5

GLENGARRY HAS THE MANAGEMENT AND **CASH TO ADVANCE** THE BRAZILIAN IRON ORE PROJECTS

The combination of the experienced management team of Glengarry, a strong cash position and the Centaurus iron ore assets will create a company well placed to become a significant iron ore producer.

Key members of the Glengarry team have proven experience in taking an iron ore focussed company from the exploration to development phase, through their involvement in a number of successful iron ore ventures.

This proven experience, coupled with the enhanced balance sheet of Glengarry and the Brazilian iron ore projects, has significant potential to deliver increased shareholder value as the projects progress.

The Centaurus projects are at a critical phase of development, needing substantial development capital and management expertise to successfully enter production. Glengarry believes that a successful merger with Centaurus will substantially enhance the prospects of the projects being successfully brought into production.

6

YOU WILL CONTINUE TO **SHARE** **IN THE BENEFITS** FROM THE DEVELOPMENT OF CENTAURUS' IRON ORE ASSETS

Centaurus Shareholders and Centaurus Optionholders who accept the Offers will continue to have an ongoing interest in the development of Centaurus' projects.

The Itambé Project and Passabem Project are both iron ore projects which have near term production potential. A positive scoping study has been completed on Itambé and a similar study is planned to commence shortly at Passabem. The Itambé Project and Passabem Project have the potential to provide high grade (+65% Fe) product that is proposed to be sold into Brazil's extensive domestic steel industry.

This potential can only be realised with the necessary balance sheet to develop the projects and with a strong and experienced management team.

Glengarry intends to utilise its iron ore expertise and cash reserves to develop Centaurus' projects with the goal of becoming an iron ore producer by the end of 2010 and then grow the Company by pursuing new opportunities in the Brazilian iron ore market.

If the Offers are successful, and Glengarry acquires an interest in more than 90% of Centaurus Shares, thus enabling it to compulsorily acquire the balance, the Merged Entity will have extensive and highly prospective iron ore exploration projects in Brazil and a portfolio of gold and copper exploration properties both in Brazil and Australia.

IF YOU DO NOT ACCEPT THE OFFERS THEN CENTAURUS WILL HAVE TO SOURCE ALTERNATIVE FUNDING ARRANGEMENTS WHICH MAY BE INFERIOR TO THE OFFERS

Centaurus' Brazilian iron ore projects will require substantial development capital to be brought into production – estimated by Centaurus at over US\$11 million to reach annual production of 500ktpa of iron ore at Itambé alone.

If the Offers do not proceed, then Centaurus will have to source alternative funding arrangements which may be inferior to the current Offers.

Alternative sources of funding may include having to introduce a larger development partner, or issue large amounts of equity at a discount to the market price. The market price may have also potentially fallen upon the lapse of the Offers.

IF YOU DO NOT ACCEPT THE OFFERS THEN CENTAURUS SHARES MAY FALL TO THE PRICE AT WHICH THEY WERE TRADING BEFORE THE OFFERS WERE ANNOUNCED (OR FALL EVEN LOWER)

Prior to the announcement of the Offers, Centaurus Shares were trading at 34.0 cents.

The Share Offer represents a 35% premium for Centaurus Shareholders based on the 1 month VWAP of 32.5 cents and 5.5 cents of Centaurus Shares and Glengarry Shares respectively.

If the Offers are not successful, there is a risk that Centaurus Shares may fall to the price at which they were trading before the offers were announced (or possibly fall lower).

CHAIRMAN'S LETTER

3 December 2009

Dear Centaurus Security Holder

Recommended Off-Market Takeover Bid for Centaurus Resources Limited

On behalf of the directors of Glengarry Resources Limited ("**Glengarry**"), we are pleased to offer you the opportunity to become a shareholder or optionholder in the merged Glengarry and Centaurus entity.

On 11 November 2009 Glengarry announced an off-market bid ("**the Offers**") to acquire all of your Centaurus Shares and Centaurus Bid Options. Under the Offers you will receive:

1. Eight Glengarry Shares (8) for every one (1) of your Centaurus Shares ("**Share Offer**").
2. Eight Glengarry Options (8) for every one (1) of your Centaurus Bid Options ("**Option Offer**").

The directors of Centaurus have unanimously recommended that, in the absence of a Superior Proposal, all shareholders and optionholders accept the Offers.

In addition, Glengarry has entered into pre-bid agreements with a number of Centaurus' larger shareholders and now holds a relevant interest in 19% of Centaurus.

The directors of Glengarry believe that the Share Offer is a compelling proposition for Centaurus Shareholders as it enables you to realise an immediate premium based on an implied value of 41.6 cents for each Centaurus Share (based on Glengarry's closing price of 5.2 cents on the last trading day before the Announcement Date) representing:

- a **22% premium** based on the closing prices of Centaurus Shares and Glengarry Shares as at 6 November 2009, being 34 cents and 5.2 cents respectively;
- a **35% premium** based on the 1 month volume weighted average price ("**VWAP**") of Centaurus Shares and Glengarry Shares of 32.5 cents and 5.5 cents respectively; and
- a **36% premium** based on the 3 month VWAP of Centaurus Shares and Glengarry Shares of 34.4 cents and 5.8 cents respectively.

Your acceptance of the Offers will, subject to the takeover of Centaurus being effected, entitle you to be a shareholder in a well-funded, international resource company with the ability to accelerate the development of Centaurus' current portfolio of emerging iron ore production assets in Brazil.

The Offers are subject to a number of conditions which are set out in Annexures A and B of the Bidder's Statement, including (with respect to the Share Offers) Glengarry receiving acceptances with respect to at least 90% of Centaurus Shares and Centaurus not issuing any Centaurus Shares to any person.

I ask that you read this Bidder's Statement carefully and give full consideration to the Offers to acquire your Centaurus Shares and Centaurus Bid Options.

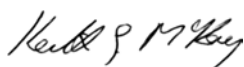

I encourage you to accept the Offers as soon as possible. To accept the Offers, you should follow the instructions on the enclosed Acceptance Forms.

The Offers are scheduled to close at 5.00pm WST time 15 January 2010.

If you have any questions about the Offers, please contact Advanced Share Registry on (08) 9389 8033 (overseas callers +618 9389 8033), our Company Secretary Geoff James on (08) 9322 4929 (overseas callers +61 8 9322 4929) or your professional financial advisor.

I look forward to you joining me as a shareholder and/or optionholder in what I consider will be an exciting, well funded international resource company with an iron ore resource inventory and significant potential for growth.

Yours sincerely

K G McKay
Chairman

The Glengarry Shares that Foreign Centaurus Shareholders would otherwise be entitled to receive if they accepted the Share Offer will be issued to and sold by the Sale Nominees and Foreign Centaurus Shareholders who have accepted the Share Offer will receive the net cash proceeds from that sale. See Section 10.16 of this Bidder's Statement for further details.</p>
What are the tax implications of accepting the Share Offer or Option Offer?	<p>You should consult your financial, tax or other professional advisor on the tax implications of acceptance, in light of your own particular circumstances. However, Section 8 contains a general summary of the major likely Australian tax consequences for Centaurus Shareholders who accept the Share Offer and Centaurus Optionholders who accept the Option Offer.</p>
Is the Option Offer for all options which Centaurus has granted?	<p>If you hold Centaurus Other Options then the Option Offer does not include an offer from Glengarry to acquire your holding of Centaurus Other Options.</p>
What will happen with the Centaurus Other Options?	<p>If you hold Centaurus Other Options Glengarry will approach you with a view to acquiring your Centaurus Other Options for a consideration that will be negotiated between you and Glengarry. Alternatively, if Glengarry acquires at least 90% of the value of all of the Centaurus securities on issue and it satisfies the other requirements under the Corporations Act, then Glengarry may, if it chooses to, compulsorily acquire the securities in Centaurus that it does not then own, including your Centaurus Other Options.</p>

4. PROFILE OF GLENGARRY

4.1 Overview of Glengarry

Glengarry is an Australian based mineral exploration company.

Glengarry is listed on the ASX (ASX Code: GGY) and has a market capitalisation in excess of \$14 million (as at the date of the Bidder's Statement).

Glengarry's high level business strategy is focussed on using the Company's strong cash position of approximately \$8.9 million (as at 31 October 2009) to secure a project or projects that are capable of being brought into production within 24 months to deliver a strong cash flow to the Company. The preference is for projects that already have an established resource, are high grade in nature with low operating and capital costs.

The acquisition of Centaurus and its suite of Brazilian iron ore assets would meet this high level business strategy.

Glengarry has existing Australian exploration assets including the Citadel Copper/Gold Project in Western Australia's Pilbara region, located in the same geological province as the world class Telfer Gold Mine and several copper/gold projects located in North Queensland. Glengarry is currently seeking to extract value from these projects.

4.2 Overview of Glengarry's Activities

This Section contains a summary of Glengarry's activities. Further information on Glengarry can be obtained from Glengarry's website (<http://www.glengarry.com.au/>).

Corporate Strategy

In October 2009 Centaurus was identified as an opportunity that met the Company's newly established business strategy and selection criteria. The Glengarry Board commenced discussions with Centaurus about a potential corporate transaction following a review of publicly available information.

Exploration Projects

Citadel Copper/Gold Project (Glengarry 100%)

The Citadel Project is an exploration project located approximately 100 kilometres north of Newcrest's multi-million ounce Telfer Gold Mine in the north west region of Western Australia (Figure 1). The Citadel Project consists of four exploration licences totalling 1,709 square kilometres.

Previous exploration by other companies within the Citadel Project area discovered high grade copper/gold mineralisation at the Magnum prospect. Mineralisation, which includes intersections up to 8 metres @ 4.4% copper and 15 metres @ 14.1 g/t gold, remains open along strike and at depth.

During 2008 Glengarry completed Aboriginal heritage surveys over planned drill sites defined by a review of previous exploration work.

In early January 2009 the exploration licence applications for the southern portion of the Citadel Project were granted. All exploration licences have now been granted for the entire project area. As a result of the Company's new corporate strategy, exploration activities on the Citadel Project have been put on hold. A detailed information memorandum on the Citadel Project has recently been completed and is being used to promote the Citadel Project to parties interested in acquiring a joint venture interest.

Figure 1 – Citadel Project Location Map

Percyvale Copper/Gold Project (Glengarry 100%)

The Percyvale Project is an exploration project located in North Queensland approximately 300 kilometres west-northwest of Townsville (Figure 2) in a geological region known to host economic deposits of a number of different metals including gold, copper, lead-zinc-silver, uranium and molybdenum. The world class Kidston gold deposit which produced 4.5 million ounces of gold is located approximately 30 kilometres east of the project area (Figure 2). The project consists of one approved exploration licence and three exploration licence applications totalling 1,121 square kilometres.

During 2009 Glengarry completed a work program to test targets over three prospect areas.

Glengarry does not expect to spend any material funds on the Percyvale Project in the near future and has prepared a detailed information memorandum on the project which is being used to promote the project to parties interested in acquiring a joint venture interest.

Figure 2 – Percyvale Project Location Map

Joint Venture Projects

Glengarry holds an interest in two joint venture projects. These are the Mt Guide Project and the Snake Creek Project, both located in the Mt Isa region of Queensland.

Mt Guide Project

(Summit Resources NL 90%, Glengarry 10% free carried interest to Bankable Feasibility Study; MM Mining Plc earning 80% of Summit's interest)

The Mt Guide Project is an exploration project located 35 kilometres south of Mt Isa in Queensland.

During 2009, MM Mining Plc, which is earning an 80% interest in Summit Resources NL's existing interest, carried out detailed structural mapping and combined with geophysical surveys, identified two prospects for follow up drilling. This drilling was completed during 2009 with no significant results. Exploration activities are ongoing.

Snake Creek Project

(Glengarry 100%, Ivanhoe Australia Ltd earning 85%)

The Snake Creek Project is an exploration project located 25 kilometres south of Cloncurry in western Queensland. It is prospective for copper-gold and uranium mineralisation.

During September 2008, Glengarry executed a Farm-out Agreement with ASX-listed Ivanhoe Australia Ltd, a company which has defined significant gold and copper resources in the region. Under the terms of the Farm-out Agreement, Ivanhoe Australia Ltd has the right to earn up to 85% equity in the Snake Creek Project by spending \$1.5 million on exploration within 3 years of signing the agreement. Exploration activities are ongoing.

The information in this Bidder's Statement concerning Centaurus has not been independently verified. Glengarry does not, subject to the Corporations Act, make any representation or warranty, express or implied, as to the accuracy or completeness of this information.

The primary sources of information about Centaurus used by Glengarry were as follows:

5.2 Overview of Centaurus' Activities

This Section 5.2 contains a summary of Centaurus' activities. Further information on Centaurus can be obtained from Centaurus' website (<http://www.centaurus.com.au>).

Centaurus is an Australian-based, Brazilian focussed iron ore exploration company and aspiring producer that has announced an objective to commence iron ore production in Brazil by the end of 2010.

Centaurus listed on the ASX on 10 August 2007.

Centaurus Board of Directors

As at the date of this Bidder's Statement, the Centaurus Directors are:

- (a) Mr Richard Hill - Non-Executive Chairman;
- (b) Mr Mark Papendieck - Managing Director; and
- (c) Mr Peter Freund - Executive Director.

Overview of Centaurus

Centaurus has a stated strategy of building a carbon steel materials focussed business in Brazil. Centaurus is initially seeking to bring one of its itabirite (iron ore) mines into production prior to the end of 2010, with product sold to the Brazilian domestic steel sector. Centaurus then plans to use the initial positive cash flow generated from these mines to expand its carbon steel materials business to a point where it can build a resource base of sufficient size to enter the sea-borne iron ore export market from Brazil.

Ultimately, Centaurus has a broader objective of either acquiring or developing a 250 to 500 million tonne JORC Code compliant resource base of itabirite iron ore, generally grading between 30-45% Fe (iron).²

Centaurus also holds further prospective iron ore and manganese projects in Brazil, along with prospective gold projects in Brazil and New South Wales. Centaurus is currently giving the majority of its focus to the initial iron ore projects.

Centaurus' iron ore projects are located in an area known as the "Iron Quadrangle" in south-eastern Brazil. The Iron Quadrangle hosts a number of large operational iron ore mines, as well as being in close proximity to a number of end users in the form of large steel mills and smaller pig iron plants. Strong domestic demand exists for stable quality product of the form Centaurus is intending to initially produce.

Development Pathway

Based on a positive scoping study for the Itambé Project completed in October 2009, Centaurus is proposing a two stage development pathway targeting the first stage production by December 2010.

Subject to obtaining all necessary regulatory licences and approvals, stage one production will commence via a Brazilian Trial Mining Licence, which allows extraction of 300,000 tonnes of mine material (approximately 180,000 tonnes of beneficiated product) per licence.

Stage two has currently been evaluated on an expansion to 500,000 tonnes per annum of beneficiated product. Centaurus believes potential exists for production at the Itambé Project to be optimised at a higher annual production rate of 1M tonnes per annum of product, which will be investigated by a feasibility study due to commence in 2010. Again, any such stage two activities are subject to obtaining all necessary regulatory licences and approvals.

Further production is to be investigated out of the Passabem Iron Ore Project. The Passabem Project is not as advanced as the Itambé Project, and its potential will be quantified by a scoping study soon to be undertaken at the project.

5.3 Project Assets

Itambé Iron Ore Project

The Itambé Iron Ore Project is Centaurus' most advanced Brazilian iron ore project. This project is 100% owned by Centaurus.

The Itambé Project is in the state of Minas Gerais, and located near the city of Belo Horizonte in Brazil's Iron Quadrangle. Centaurus has focussed its resources on exploring and developing the Itambé-1 exploration licence in order to meet planned development and production timeframes and has made application for the necessary approvals and licences to enable trial mining to occur.

To date, an initial JORC Code compliant resource of 15.5 million tonnes of itabirite iron ore (Inferred JORC category) grading 37.2% Fe has been delineated at Itambé, and a scoping study has been concluded with the results announced to the market on 28 October 2009.

Passabem Iron Ore Project

The Passabem Iron Ore Project is Centaurus' second most advanced Brazilian iron ore project. This project is 100% owned by Centaurus.

² References to targets of Iron Ore tonnages and grades are only conceptual in nature as, where these targets are mentioned, there has been insufficient or unverified exploration data to define a mineral resource and it is uncertain if further exploration will result in the determination of a mineral resource.

An initial 2.6 million tonne itabirite iron ore resource (Inferred JORC Code category) grading 31.2% has been defined at Passabem. A scoping study is planned to commence in the first half of 2010 including further resource drilling over the remaining 90% of the known iron formation which has not yet been drill tested.

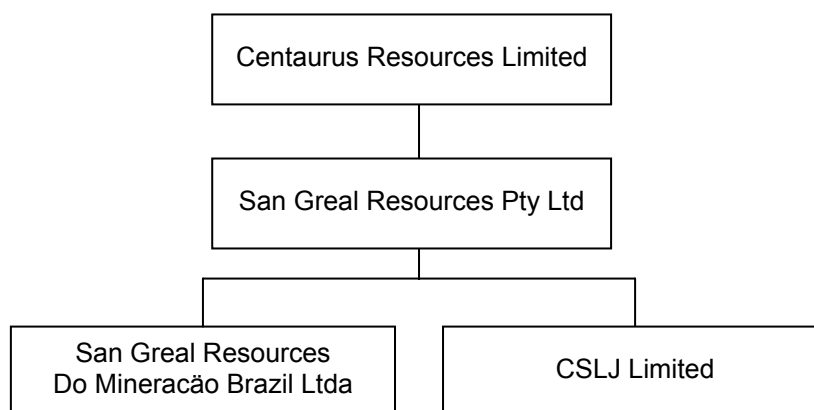

Other Projects

Centaurus' other Brazilian and Australian projects include:

- Rio Pardo Iron Ore Project (100% interest): A potential large-scale iron ore exploration project located in the northern part of the State of Minas Gerais in Brazil;
- Ponte de Pedra Manganese Project (100% interest): Located in the State of Minas Gerais in Brazil, this is a project with a number of prospective manganese exploration targets that are still to be adequately tested;
- Dish Gold Project (100% interest): Located in the Lachlan Fold belt of New South Wales, prospective for Wyoming-style orogenic gold systems; and
- Other gold tenements: Centaurus also holds a 100% interest in a number of prospective gold tenements in the Rio Grande do Sul and Santa Catarina States of southern Brazil.

6. RATIONALE FOR THE OFFERS AND INTENTIONS OF GLENGARRY

6.1 Rationale for the Offers

Glengarry believes that there are a number of key strategic and financial benefits that will arise from the successful acquisition of Centaurus by Glengarry. These include:

- The Share Offer will allow Centaurus Shareholders to benefit from an increase in cash reserves to approximately \$9.1 million on completion of the merger. This strong cash position will be utilised to fund the development of Centaurus' Brazilian iron ore projects that have near-term production potential and the ability to generate cash flow in a reasonable timeframe to fund further growth opportunities.
- The Glengarry Board and the senior Glengarry management team have significant depth of iron ore experience including financing, development and operation of major iron ore assets. With the Merged Entity, there will be an expanded board and management team, which includes former senior members of the management team from the West Australian iron ore company, Gindalbie Metals Ltd, and it will possess the expertise to add shareholder value in the near term.
- Centaurus Shareholders and Centaurus Optionholders who accept the Offers will continue to have an ongoing interest in the development of Centaurus' projects.
- The Merged Entity will have extensive and prospective iron ore exploration projects in Brazil and a portfolio of gold and copper exploration properties both in Brazil and Australia.

6.2 Approach and Intentions of Glengarry

Sections 6.3 to 6.8 set out the intentions of Glengarry on the basis of facts and information concerning Centaurus which are known to Glengarry at date of this Bidder's Statement. However, Glengarry will only reach final decisions in light of material facts and circumstances at the relevant time.

Accordingly, the statements set out in these Sections are statements of current intentions only which may vary as new information becomes available or circumstances changes.

6.3 Intentions upon Acquiring More than 50.1% but less than 90% of the Centaurus Shares

On completion of the Share Offer, Glengarry may hold a sufficient number of Centaurus Shares to exercise control over the management and operations of Centaurus, but may not be entitled to compulsorily acquire all outstanding Centaurus Shares.

If Glengarry acquires less than 90% of the Centaurus Shares on issue, Glengarry may only declare the Share Offer free of the minimum 90% acceptance condition (refer to Section 1.9 of Annexure A) with the consent of Centaurus. If Glengarry acquires more than 50.1% of the Centaurus Shares on issue then Centaurus Shareholders and Centaurus Optionholders should be aware that, if they do not accept the Offers, they may become a "locked-in" minority after the end of the Offer Period.

Glengarry's specific intentions under this situation are as follows:

(a) ASX Listing

Glengarry intends, through its nominee directors, to seek to maintain Centaurus' listing on the ASX while it meets ASX's requirements for maintaining a listing but only if the benefits of that listing outweigh the corporate and compliance costs of doing so.

(b) Directors

Glengarry will seek the appointment of its nominees as Centaurus Directors. No decision has been made as to the identity of these directors. Glengarry has not made any decision about whether Centaurus Directors will be retained on the board.

If Glengarry's nominees are appointed as directors, Glengarry will be seeking that its nominees implement the intentions set out in this Section 6.3 (based on the information currently available to it). It should be noted that Glengarry expects that each of its nominees to the Centaurus Board will exercise their own independent judgement and skill when it comes to the operational, financial and business decisions relating to Centaurus. Glengarry's only influence will be through its position as a shareholder in Centaurus.

(c) Financing

Under this scenario, Centaurus will remain responsible for raising capital to undertake exploration and development work. This may lead to a dilution of remaining Centaurus Shareholders as new capital is introduced into Centaurus. To avoid further dilution, remaining Centaurus Shareholders may also be required to contribute to the capital needs of Centaurus to make available sufficient funding to facilitate development plans and future exploration.

In addition, debt funding required to implement any development and production activities will need to be independently sourced by Centaurus at market rates.

(d) Dividends

Glengarry expects that as Centaurus is still an exploration company, dividends will not be available from operating profits of Centaurus for the foreseeable future.

(e) Review of Centaurus Operations and Assets

Glengarry intends, through its nominee directors on the Centaurus Board, to conduct an immediate review of Centaurus' operations on both a strategic and financial level to determine mechanisms for improving the performance and return to Centaurus Shareholders and realise any potential operational and financial synergies.

The detailed outcome of the review is not able to be determined at this stage, although it is likely to involve some, or all, of the following:

- (i) targeting the development of one of Centaurus' iron ore deposits to enable production of iron ore as soon as practicable;
- (ii) identifying and assessing the prospectivity or exploration potential of Centaurus' assets and how best to assign resources to undertake further detailed exploration;
- (iii) understanding any existing material third party contractual arrangements; and
- (iv) eliminating duplication of functions where it is economical to do so.

The key objective of this review will be to ascertain the potential for fast tracking development of Centaurus' iron ore projects and to establish the operating and cost synergies from the incorporation of the Centaurus team and operations into the Glengarry operating structure.

(f) Employees

The status of Centaurus' existing employees will be considered as part of the review outlined in Section 6.3(e) above. Glengarry intends, through its nominee directors, to seek to retain operational experience inherent in Centaurus' existing staff and cooperate with the existing Centaurus employees to develop Centaurus' assets. However, it is possible that Glengarry may consider that certain operational functions may be redundant and, if so determined by the Centaurus Board, some redundancies may occur as a result. The incidence, extent and timing of such job losses cannot be predicted in advance.

6.4 Intentions upon Acquisition of 90% or more of the Centaurus Shares and 90% of the Value of all Centaurus Securities

This Section describes Glengarry's intentions if Glengarry acquires a relevant interest in 90% or more of the Centaurus Shares and in total 90% of the value of all Centaurus securities on issue at the end of the Offer Period. If this was to occur, Glengarry becomes entitled to proceed to compulsory acquisition of the outstanding Centaurus Shares and any other Centaurus securities on issue which it is entitled to compulsorily acquire in accordance with Part 6A.1 of the Corporations Act.

Glengarry intends (based on the information currently available to it) to implement its intentions as set out in Section 6.3 above except as noted below.

(a) Compulsory Acquisition

Glengarry intends to proceed with the compulsory acquisition of any Centaurus Shares not acquired under the Share Offer and any other Centaurus securities on issue which it is entitled to compulsorily acquire in accordance with the Corporations Act.

(b) ASX Listing

After the conclusion of the compulsory acquisition process, Glengarry intends to arrange for Centaurus to be removed from the Official List (subject to obtaining any required approval from ASX).

(c) Employees

Subject to the outcome of its review, it is Glengarry's intention to integrate Centaurus' management team into Glengarry as a specialist iron ore resources business.

Glengarry will make decisions regarding senior management positions following the general operation review referred to above, and will implement those decisions through its nominee directors.

Glengarry will seek to retain operational experience inherent in Glengarry's and Centaurus' existing staff. However, where Glengarry decides there is a duplication, then the role will be filled by the best candidate in the opinion of the Glengarry management. Glengarry will consider whether there are opportunities elsewhere in the Merged Entity for those employees whose positions may become redundant as part of the combining of management groups.

As a result of the implementation of these intentions, it is possible that certain operational functions will become redundant. Some redundancies may occur as a result, however, the incidence, extent and timing of such job losses cannot be predicted in advance. If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

It should be recognised that the growing Glengarry business will require additional resources with the specific skills of the current Centaurus team to be assessed against future requirements.

6.5 Intentions upon Acquiring Less than 50.1% of the Centaurus Shares

If, at the end of the Offer Period, Glengarry holds less than 50.1% of the Centaurus Shares, the Offers will not proceed unless the defeating condition of the Offers that Glengarry hold at least 90% of the Centaurus Shares is waived.

The consent of Centaurus (under the Implementation Agreement) is required for any waiver of the 90% minimum acceptance condition.

If the condition is waived, Glengarry intends (based on the information currently available to it) to seek to pursue its intentions as set out in Section 6.3 above.

6.6 Intentions upon Acquiring 90% or more of the Centaurus Options but less than 90% of the Centaurus Shares

If, at the end of the Offer Period, Glengarry holds 90% or more of the Centaurus options but less than 90% of the Centaurus Shares, then Glengarry does not, at this time, intend to seek to compulsorily acquire all outstanding Centaurus options. However, Glengarry will reassess this position at the relevant time, particularly if it holds close to 90% of the Centaurus Shares.

6.7 Other Intentions

Except for the changes and intentions set out in this Section 6 and subject to the outcome of the review, it is the present intention of Glengarry (based on the information presently available to it) to:

- (a) continue to hold the key assets of Centaurus and maintain its business in substantially the same manner as it is presently being conducted;
- (b) not make any major changes to the business or assets of Centaurus and not redeploy any of the fixed assets of Centaurus; and
- (c) continue the employment of the majority of Centaurus' employees.

6.8 Limitations in Giving Effect to Intentions

The ability of Glengarry to implement the intentions set out in this Section 6 will be subject to the legal obligations of the Directors to have regard to the interests of Centaurus and all Centaurus Shareholders, and the requirements of the Corporations Act and the Listing Rules relating to transactions between related parties conflicts of interests. Glengarry will only make a decision on the above mentioned courses of action following legal and financial advice in relation to those requirements.

7. FINANCIAL INFORMATION

7.1 Overview

This Section contains an unaudited balance sheet for Glengarry and Centaurus, both of which have been extracted from internal management accounts. The internal management accounts have been prepared on a consistent basis with the accounting policies disclosed in Glengarry's and Centaurus' audited financial reports for the year ended 30 June 2009.

The unaudited pro-forma balance sheet of the Merged Entity presents Glengarry's financial position as at 31 October 2009 as if Glengarry had acquired 100% of Centaurus on that date. Acquisition accounting entries have been based on the terms of the Offers and the assumptions set out in at the end of the balance sheet in order to arrive at an unaudited pro-forma consolidated balance sheet for the Merged Entity as at 31 October 2009.

Glengarry will undertake a comprehensive assessment of the fair value of the assets and liabilities acquired after completion of the Offers.

The unaudited pro-forma balance sheet is indicative only. Glengarry has drawn its own conclusions based on the known facts and other publicly available information. If the factors, circumstances, assumptions or other information should prove to be different to that described, the conclusions may change accordingly.

This Section should be read in conjunction with Section 6 of this Bidder's Statement, which provides details of Glengarry's current intentions regarding Centaurus.

7.2 Assumptions

Glengarry acquires 100% of the Centaurus Shares and Centaurus Bid Options and Centaurus Other Options.

Glengarry is assumed to be the acquirer for the purposes of Australian Accounting Standards and is required to consolidate Centaurus. Australian Accounting Standard AASB 3 Business Combinations (AASB 3) requires that all business combinations are accounted for using the purchase method. This involves assigning fair values at the settlement date to the identifiable assets, liabilities and contingent liabilities, including intangible assets assumed.

A formal analysis of the fair value of the net assets acquired will be performed post completion of the transaction.

Purchase consideration of \$18,607,103 consists of:

	\$
New Glengarry Shares for Centaurus Shares at Glengarry market value on 6 November 2009 of 5.2 cents	16,473,893
New Glengarry Options for Centaurus Bid Options at fair value on 6 November 2009	2,133,210
	<hr/>
Total Purchase Consideration	18,607,103
	<hr/>

The excess of the purchase consideration over the net assets and liabilities acquired has been attributed to exploration and evaluation assets.

The after tax impact of estimated expenses of the acquisition of \$1,250,000 have been expensed in accordance with AASB 3.

7.3 Outlook for the Merged Entity

This Bidder's Statement does not include any financial forecasts or projections for revenue or profit in relation to Glengarry, Centaurus or the Merged Entity.

Glengarry considers that the inclusion of financial forecasts would be speculative and potentially misleading for Centaurus Shareholders given:

- (a) there is limited public information about the prospectivity of Centaurus' iron ore assets;
- (b) Centaurus' assets are presently undeveloped;
- (c) the rate of development is subject to inherent risks associated with material grades and quantities, mining and process equipment availability, rail access, the granting of production licenses, extraction and logistics costs, and
- (d) the future market prices for iron ore are inherently uncertain.

8. AUSTRALIAN TAX CONSIDERATIONS

The following is a general description of the Australian taxation implications for Centaurus Shareholders and Centaurus Optionholders who accept the Offer to receive 8 Glengarry Shares for every 1 Centaurus Share they hold and 8 Glengarry Options for every 1 Centaurus Option they hold.

The information contained in this description is of a general nature only. It does not constitute tax advice and should not be relied upon as such. This description only outlines the general Australian taxation implications for Centaurus Shareholders and Centaurus Optionholders. Centaurus Shareholders and Centaurus Optionholders should seek independent taxation advice in relation to their own particular circumstances.

This information is based on current taxation law as at the date of preparation of this description. Australian tax law is frequently being changed, both prospectively and retrospectively. A number of key tax reform measures have been implemented and a number of other key reforms have yet to be implemented. The status of some key reforms remains unclear at this stage.

8.1 Australian taxation consequences for Australian resident Centaurus Shareholders

Shareholders holding Shares on Capital Account

In broad terms the Australian tax consequences for Centaurus Shareholders who are residents of Australia for taxation purposes (Australian residents) who hold their Centaurus Shares on capital account and who accept the Share Offer will depend on whether or not 'scrip for scrip' capital gains tax (CGT) rollover relief is available and, if available, is elected. The following discussion considers the general Australian tax consequences for Australian resident Centaurus Shareholders where:

- (i) rollover relief is available and elected; and
- (ii) rollover relief is not available or is not elected.

Given the complexity of the taxation legislation, Centaurus Shareholders should seek independent taxation advice regarding the tax consequences of disposing of Centaurus Shares given the particular circumstances which apply to them.

(a) Acceptance of the Share Offer where rollover relief is available and is elected

- (i) Australian resident Centaurus Shareholders may be entitled to 'scrip for scrip' CGT rollover relief in respect of the consideration referable to Glengarry Shares where the exchange of the shares would otherwise realise an assessable capital gain. Broadly speaking, rollover relief is available to shareholders who exchange shares in one company for shares in another company where the transaction is made pursuant to a takeover bid and provided certain qualifying conditions are satisfied.
- (ii) In broad terms, these qualifying conditions include:
 - A. the Centaurus shares were acquired by the Centaurus Shareholders on or after 20 September 1985 and apart from the roll-over, the Centaurus Shareholders would make a capital gain from the Takeover Bid;
 - B. the Centaurus shares are exchanged for Glengarry Shares under the Takeover Bid;
 - C. Glengarry must become the owner of at least 80% of the voting shares in Centaurus as a consequence of the Takeover Bid; and
 - D. all the owners of voting shares in Centaurus could participate in the Takeover Bid on substantially the same terms. Participation will be

deemed to be on substantially the same terms even if Foreign Centaurus Shareholders who accept the Share Offer will receive cash for their Glengarry Shares under the Takeover Bid and pursuant to subsection 619(3) of the Corporations Act.

- (iii) If the qualifying conditions are satisfied and a Centaurus Shareholder elects for rollover relief to apply the rollover relief is available.
- (iv) The effect of the rollover relief is that the Centaurus Shareholder's total capital gain will be deferred until the Glengarry Shares are disposed. That is, the capital gain arising from the disposal of the Centaurus Shares is disregarded.
- (v) Centaurus Shareholders who elect for rollover relief will retain the cost base of their Centaurus Shares as the cost base of their replacement Glengarry Shares. Specifically, the cost base of the replacement Glengarry Shares is calculated by reasonably attributing to it the cost base of the Centaurus Shares for which the rollover is obtained.
- (vi) As discussed above, rollover relief will only be available if the qualifying conditions are satisfied and Centaurus Shareholders elect to apply for it. Further, rollover relief is not available if Centaurus Shareholders realise a capital loss on the disposal of their Centaurus Shares.
- (vii) Given the complexity of the provisions governing a rollover relief and the various qualifying conditions that need to be satisfied, Centaurus Shareholders should seek independent taxation advice regarding their particular circumstances.

(b) *Acceptance of the Share Offer where rollover relief is not available or is not elected*

- (i) Acceptance of the Share Offer will result in a disposal by a Centaurus Shareholder of their Centaurus Shares for CGT purposes.
- (ii) An Australian resident Centaurus Shareholder may make a capital gain or capital loss, depending on whether their capital proceeds from the exchange are more than the cost base of their Centaurus Shares, or whether those capital proceeds are less than the cost base of those shares.
- (iii) The capital proceeds that a Centaurus Shareholder will be taken to have received in respect of the disposal of his Centaurus Shares will generally be the market value of Glengarry Shares on the date of implementation of the Share Offer.
- (iv) The cost base of Centaurus Shares will generally be the cost at which they were acquired including any incidental costs of acquisition.
- (v) An Australian resident Centaurus Shareholder will make a capital gain if their capital proceeds from the exchange exceeds the cost base of their Centaurus Shares.

To the extent that an Australian resident Centaurus Shareholder has current year capital losses or prior year net capital losses, they may be able to offset their capital gain arising from this Takeover Bid firstly, against their current year capital losses and then their prior year net capital losses, subject to satisfying the loss recoupment rules.

- (vi) After offsetting any capital losses, certain Australian resident Centaurus Shareholders may be eligible for the CGT discount.

Specifically, where Centaurus Shares have been held for at least 12 months before their disposal, a shareholder who is an individual, a complying superannuation entity or the trustee of a trust should be able to reduce the capital gain arising from the disposal of Centaurus Shares by the CGT discount. Eligible Centaurus Shareholders who are individuals or trusts will be able to reduce the capital gain arising on the disposal of Centaurus Shares by one-half. Eligible shareholders who are complying superannuation entities will be able to reduce the nominal capital gain on the disposal of the shares by one-third.

Centaurus Shareholders who are companies will not be entitled to the CGT discount.

The net capital gain may then be reduced by any current year and/or prior year net revenue losses, subject to satisfying the loss recoupment rules.

- (vii) Where the amount of capital proceeds received by a Centaurus Shareholder in respect of the disposal of their Centaurus Shares (that is, the market value of the Glengarry Shares received pursuant to the Share Offer for their Centaurus Shares) is less than the reduced cost base of those Centaurus Shares, then the shareholder should realise a capital loss for Australian CGT purposes.

Any capital loss may be used to offset current year capital gains or carried forward to offset future capital gains, subject to satisfying the loss recoupment rules for corporate shareholders.

Shareholders holding Shares on Revenue Account

The Australian tax consequences for Australian resident Centaurus Shareholders who hold their Centaurus Shares on revenue account (e.g. held for the purpose of profit-making by sale) and who accept the Share Offer will be to include the amount received (the market value of the Glengarry Shares) over the cost of acquisition of the Centaurus Shares as ordinary assessable income. Where the market value of Glengarry Shares is less than the cost of Centaurus Shares the loss may be able to be claimed as an allowable deduction.

Shareholders holding Shares as Trading Stock

The Australian tax consequences for Australian resident Centaurus Shareholders who hold their Centaurus Shares as trading stock (e.g. as a share trader) and who accept the Share Offer will be to include the amount received (the market value of the Glengarry Shares) as assessable income.

8.2 Australian taxation consequences for non-resident Centaurus Shareholders

Shareholders holding Shares on Capital Account

- (a) Centaurus Shareholders who are not residents of Australia for tax purposes (non-residents) will only be subject to Australian CGT on the disposal of Centaurus Shares if:
 - (i) together with their associates, they directly own at least 10% or more of the Centaurus Shares:
 - A. at the time of the sale; or
 - B. throughout a 12 month period beginning no earlier than 24 months before the time of the sale and ending no later than the time of the sale; and

- (ii) if more than 50% of the value of Centaurus' assets is attributable to Australian real property.
- (b) Any resulting capital gain will be subject to the terms of any applicable double tax agreement between Australia and the country of residence of the Centaurus Shareholder. It is imperative that non-residents independently confirm their Australian tax position and any taxation implications in their country of residence.

Shareholders holding Shares on Revenue Account or as Trading Stock

Centaurus Shareholders who are non-residents of and who hold their Centaurus Shares on revenue account or as trading stock should seek their own professional advice. Taxation implications will depend on the source of the gain, the taxation rules of their country of residence and whether there is a double tax agreement between their country of residence and Australia.

8.3 Taxation consequences for Centaurus Optionholders

The following information is relevant to Centaurus Optionholders only and does not apply to Centaurus Other Options.

The Australian taxation consequences to Australian resident and non-resident Centaurus Optionholders are generally similar to those of Australian resident and non-resident Centaurus Shareholders.

Rollover relief may apply to Centaurus Optionholders where the options in Centaurus are exchanged for options in Glengarry. To qualify for rollover relief the transaction must be pursuant to the Takeover Bid and provided certain conditions are satisfied the effect of the rollover relief is that the Centaurus Optionholders defer any capital gain until such time as the Glengarry Options are disposed. The cost base of the Glengarry Options is calculated by reasonably attributing to it the cost base of the Centaurus Bid Options.

Given the complexity of the taxation legislation, Centaurus Optionholders should seek independent taxation advice regarding the tax consequences of disposing of Centaurus Bid Options given the particular circumstances which apply to them.

8.4 GST

- (a) GST should not apply to the disposal of Centaurus Shares or Centaurus Bid Options under the Offers, the issue of Glengarry Shares or Glengarry Options under the Offers, or any subsequent disposal of Glengarry Shares or Glengarry Options.
- (b) Centaurus Shareholders and Centaurus Optionholders who are registered for GST purposes may not be entitled to full input tax credits for any GST incurred on costs associated with acquiring or disposing of securities in Glengarry or Centaurus. Centaurus Shareholders and Centaurus Optionholders should seek their own tax advice in this respect.

9. RISK FACTORS

9.1 Overview

If the Offers become unconditional, Centaurus Shareholders and Centaurus Optionholders who accept the Share Offer and the Option Offer will become Glengarry Shareholders and Glengarry Optionholders respectively. In those circumstances, Centaurus Shareholders and Centaurus Optionholders will:

- (a) continue to be exposed to the risks associated with the investment in Centaurus as a result of their indirect interest in Centaurus through Glengarry;
- (b) be exposed to the risks which are specific to an investment in Glengarry; and
- (c) be exposed to additional risks relating to the Offers and the Merged Entity.

These risks are explained in detail below. Centaurus Shareholders and Centaurus Optionholders should read this Bidder's Statement carefully and consult their professional advisers before deciding whether to accept the Offers. By accepting the Share Offer, Centaurus Shareholders will be investing in Glengarry while Centaurus Optionholders who accept the Option Offer will be swapping their exposure to Centaurus for exposure to the Merged Entity.

The business activities of Glengarry are subject to various risks that may impact on the future performance of Glengarry. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, while others can be covered by insurance but some are outside the control of Glengarry and cannot be mitigated or insured against.

Note, an investment in Glengarry carries no guarantee with respect to the payment of dividends, return of capital or price at which Glengarry Shares will trade and should be considered speculative. The principal risk factors include, but are not limited to, the following.

9.2 Business Risks of the Merged Entity

General Economic Climate

The Merged Entity's future can be affected by factors beyond its control such as supply and demand for its goods and services, and general economic conditions.

Commodity Price and Demand Volatility and Exchange Rate Risks

The Merged Entity's medium term performance will rely in part on prevailing Brazilian domestic market prices for iron ore. A prolonged decline in the prices of and demand for iron ore may have a material adverse effect on the Merged Entity.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Merged Entity are and will be taken into account in Brazilian and Australian currencies, exposing the Merged Entity to the fluctuations and volatility of the rate of exchange between the United States dollar and each of the Australian dollar and the Brazilian Real as determined in international markets.

Share Market

There are general risks associated with any investment and the share market. The price of Glengarry Shares on the ASX may rise and fall depending on a range of factors beyond Glengarry's control and which are unrelated to Glengarry's financial performance. These factors may include movements on international stock markets, interest rates and exchange rates, together with domestic and international economic conditions, inflation rates, investor perceptions, changes in government policy, commodity supply and demand, government taxation and royalties, war, global hostilities and acts of terrorism.

Liquidity Risk

There is no guarantee that there will be an ongoing liquid market for Glengarry Shares. Accordingly, there is a risk that, should the market for Glengarry Shares become illiquid, Glengarry Shareholders and Glengarry Optionholders will be unable to realise their investment in Glengarry.

Third Party Risk

As part of the Merged Entity's commercial activities, the Merged Entity will be a party to, and will enter into, various contracts with third parties for the supply of products and services, sales contracts and financial instruments, amongst other things. An inability of those third parties to meet their commitments under such contracts may have an impact on the Merged Entity's financial position.

Reliance on Key Management

The responsibility of overseeing the day-to-day operations and the strategic management of the Merged Entity depend substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Merged Entity if one or more of these employees cease their employment.

Additional Requirements for Capital

The continued operations of the Merged Entity are dependent on its ability to obtain financing through debt and equity financing, or generating sufficient cash flows from future operations. There is a risk that the Merged Entity may not be able to access capital from debt or equity markets for future projects or developments, which could have a material adverse impact on the Merged Entity's business and financial condition.

Changes in Government Policy and Laws

Changes in government policy (such as in relation to taxation) or statutory changes may affect the Merged Entity's business and its operations.

Market Risk and Interest Rate Volatility

The Merged Entity may wish to borrow money but this will be subject to the availability of debt at the time the Merged Entity wishes to borrow money and the interest rates which may be fixed or floating.

Insurance Risks

Glengarry maintains insurance for certain activities within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Merged Entity.

Competition

There is a risk that the Merged Entity will not be able to continue to compete profitably in supplying iron ore to the domestic Brazilian steel industry. The potential exists for the nature and extent of the competition to change rapidly, which may cause loss to the Merged Entity.

Local Demand for Iron Ore

Although the iron and steel mills in Brazil acquire iron ore from producers in Brazil and although their purchasing specifications appear to be able to be met by the specifications of the iron ore within Centaurus' project areas, there can be no certainty that any Centaurus iron ore product is saleable without entering into an iron ore sales agreement with one or more such steel mills. Similarly, the local market for domestic sales has the capacity to consume all of the iron ore which Centaurus currently expects it can produce but there is no certainty that the steel mills will in fact purchase their requirements from Centaurus.

Exploration, Development and Production Risks

The operations of the Merged Entity may be affected by various factors, including inability to develop the Merged Entity's assets into an economical business; failure to locate or identify mineral deposits, over estimation of reserves; failure to achieve predicted grades in exploration and mining; failure to fully test the deposit thereby not fully understanding the metallurgy of a deposit which may affect extraction costs; operational and technical difficulties encountered in exploration and mining; inappropriate design of mining plant, difficulties in commissioning and operating plant and equipment; mechanical failure or plant breakdown; adverse weather conditions; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment and failure to obtain necessary consents and approvals.

The exploration costs of the Merged Entity will be based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that any cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Merged Entity's viability.

The Merged Entity will carry out a review of all the projects in which it holds an interest and as a result of this, the priority for the exploration or development of each individual project may change.

There can be no assurance that any exploration tenement, or any other mining tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The development timeframe for a project is dependent in part on obtaining various approvals. The time it requires to obtain such approvals is not certain. In particular, the timetable for first production from the Itambê project of late 2010 is subject to the approval of the final exploration report that has been submitted on the Itambê-1 tenement by the Brazilian mining authority and the grant of the necessary environmental licence and trial mining licence for that proposed trial mining operation. As an initial matter, if the final exploration report is not approved, the Itambê-1 mineral rights will be placed up for tender by third parties. Similarly, further production from this or any other projects is dependent on the grant of a mining concession over the relevant project areas and the grant of any necessary licences and approvals required as a part of the process of obtaining a mining concession.

Upon lodgement of the final exploration report in relation to an exploration licence in Brazil the rights to conduct further exploration activities cease until such time as a mining concession is granted or a utilisation bill or special authorisation is granted allowing respectively, certain trial mining activities or additional exploration activities to be undertaken. This limitation on continued exploration has the potential of delaying the progress of project development and the commencement of production.

To the extent that these approvals and licences are issued at the discretion of the relevant regulatory authorities, there is no certainty that the Merged Entity will be able to obtain the grant of these necessary licences and approvals within any proposed timeframe, or at all.

Landowner Risk

The Merged Entity may be required to pay compensation to land owners, local authorities, traditional land users and others who may have an interest in the area covered by a mining tenement. The Merged Entity's ability to resolve compensation issues and compensation costs involved will have an impact on the future success and financial performance of the Merged Entity's mining operations. If the Merged Entity is unable to resolve such compensation claims on economic terms, this could have a material adverse effect on the business, results or operations and financial condition of the Merged Entity. Further, in Brazil, exploration works may only begin on a mining tenement once agreement has been reached in relation to compensation of the relevant landowners, or in the absence of agreement, once the value of the compensation is set by a court of law.

Title Risks

Title to a mining tenement will be subject to the holder complying with the terms and conditions of the tenement. There is a risk that if the holder does not comply with the terms and conditions of each tenement, it may lose its interest in the relevant tenement. In particular, all the mining tenements in Brazil which Centaurus has or may, upon grant, have an interest in will be subject to the completion of sufficient exploration activities in a three year period. If any of the mining tenements have not had sufficient exploration activities to meet the relevant Brazilian reporting standards, the tenements may be removed and the Company may suffer damage through loss of opportunity to develop any mineral resources on that tenement.

Further, all of the tenements in which the Merged Entity has or will have an interest may be subject to applications for renewal or extension from time to time. The renewal or extension of the term of each tenement is subject to the applicable legislation in the relevant jurisdiction. If a tenement is not renewed for any reason, the Merged Entity may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that tenement.

Overseas Operations

The primary operations for the Merged Entity will be in Brazil and there are risks associated with the Merged Entity operating across differing cultural, language, corporate and tax environments.

Resource Estimates

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to the size or grade of the resource, to the development and mining plans which may, in turn, adversely affect the Merged Entity's operations.

Environmental Risks

The mining operations and proposed activities of the Merged Entity in Australia are subject to Australian laws while those operations and activities in Brazil are subject to Brazilian laws and regulations, concerning the environment. As with most exploration projects and mining operations, the Merged Entity's activities are expected to have an impact on the environment, particularly if advanced exploration or commencement of mining proceeds. It is the Merged Entity's intention to conduct its activities to the appropriate standard of environmental obligation, including compliance with all environmental laws.

Forward Looking Information

Certain information in this Bidder's Statement constitutes forward-looking information that is subject to risks and uncertainties and a number of assumptions, which may cause the actual expenditure of the Merged Entity to be different from the expectations expressed or implied in this Bidder's Statement.

9.3 General Securities Risk Factors***Taxation***

The acquisition and disposal of securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Glengarry are urged to obtain independent financial advice about the consequences of acquiring securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, Glengarry, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for securities under this Bidder's Statement.

9.4 Risks Relating to the Takeover Offer***Issue of Glengarry Securities as Consideration***

Centaurus Shareholders and Centaurus Optionholders are being offered specific quantities of Glengarry Shares and Glengarry Options (as the case may be) as consideration under the Offers. As a result, the value of the consideration will fluctuate depending upon the market value of Glengarry Shares. Accordingly, the market value of the Glengarry Shares at the time you receive them may vary significantly from their market value on the date of your acceptance of the Offer.

Rollover Relief

A condition of the Offers is that the level of acceptance must result in Glengarry obtaining a relevant interest in at least 90% of all Centaurus Shares. Glengarry reserves the right to waive this condition but requires the consent of Centaurus to do so.

If the minimum acceptance condition is varied or reduced below 80%, Glengarry may not acquire the number of Centaurus Shares sufficient to bring its total interest in Centaurus to at least 80% of the voting shares, in which case scrip-for-scrip CGT rollover relief will not be available to holders of Centaurus Shares.

Sale of Glengarry Shares

Under the Share Offer, Glengarry will issue a significant number of new Glengarry Shares. Some Centaurus Shareholders may not intend to continue to hold their Glengarry Shares and may wish to sell them. There is a risk that this may adversely impact on the price of and demand for Glengarry Shares.

Acquisition of less than 90% of Centaurus Shares

It is possible that Glengarry could acquire less than 90% of all of the Centaurus securities on issue under the Share Offer and Option Offer, which would prevent Glengarry compulsorily acquiring all remaining Centaurus securities. The existence of a minority interest in Centaurus may have an impact on the operations of the Merged Entity, although this impact will depend upon the ultimate level of Centaurus ownership acquired by Glengarry.

Merger Integration

Integrating Glengarry and Centaurus may produce some risks, including the integration of management, information systems and work practices. Furthermore, there is no guarantee that any synergy benefits or costs savings will be achieved on time or at all.

Due Diligence

In preparing the information relating to Centaurus contained in this Bidder's Statement, Glengarry has relied on publicly available information relating to Centaurus and information provided to Glengarry as part of its due diligence. Risks may exist in relation to Centaurus (which will affect the merged entity) of which Glengarry is unaware. If any material risks are known to the Centaurus Directors, they must be disclosed in the target's statement to be issued by Centaurus.

10. OTHER INFORMATION**10.1 Glengarry's Interest in Centaurus**

Immediately before this Bidder's Statement was lodged with the ASIC and as at the date immediately before the first Offer is sent, Glengarry and its associates had the following relevant interest in, and voting power in relation to, Centaurus securities:

Class of Securities	At date of this Bidder's Statement	At date first Offer is Sent
Centaurus Shares	19% ¹	19%
Centaurus Bid Options	Nil	Nil
Centaurus Other Options	Nil	Nil

Notes:

1. Glengarry's relevant interest arises under its Pre-bid Acceptance Agreements.

10.2 Acquisitions of Centaurus Securities by Glengarry and its Associates during the last 4 Months

Glengarry and its associates have not made any acquisitions or disposals of Centaurus Shares or Centaurus Bid Options in the 4 months prior to the date of this Bidder's Statement.

10.3 Collateral Benefits

During the period of 4 months before the date of this Bidder's Statement, neither Glengarry nor any associate of Glengarry gave, or offered to give or agreed to give, a benefit to another person that was likely to induce the other person, or an associate of that person, to:

- (a) accept the Offers; or
- (b) dispose of their Centaurus Shares or Centaurus Bid Options,

and which is not offered to all holders of Centaurus Shares under the Share Offer or all holders of Centaurus Bid Options under the Option Offer.

10.4 Glengarry is a Disclosing Entity

Due to the fact that Glengarry is offering Glengarry Shares as consideration for the acquisition of Centaurus Shares under the Share Offer and Glengarry Options as consideration for the acquisition of Centaurus Bid Options under the Option Offer, the Corporations Act requires that this Bidder's Statement must include all information that would be required for a prospectus for an offer of Glengarry Shares and Glengarry Options under Sections 710 to 713 of the Corporations Act.

Glengarry is a "disclosing entity" (as defined in Section 111AC of the Corporations Act) for the purposes of Section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all companies, Glengarry is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of Glengarry's securities.

Glengarry Shares have been quoted on the official list of ASX during the 3 months prior to the date of this Bidder's Statement, and the Glengarry Options to be issued are options to acquire Glengarry Shares. For this reason, Glengarry is only required to disclose information in this Bidder's Statement that would usually be required in a "transaction specific prospectus".

In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issues of securities on Glengarry and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets

and liabilities, financial position, profits and losses or prospects of the issuing company unless such information has not previously been disclosed to ASX.

Having taken such precautions and having made such enquiries as are reasonable, Glengarry believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the issue of this Bidder's Statement which required Glengarry to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Bidder's Statement, other than that which is considered necessary to make this Bidder's Statement complete.

Glengarry, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to Glengarry (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Bidder's Statement and the Closing Date:
 - (i) the annual financial report most recently lodged by Glengarry with the ASIC;
 - (ii) any half year financial report lodged with the ASIC by Glengarry after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Bidder's Statement with the ASIC; and
 - (iii) any documents used to notify ASX of information relating to Glengarry during that period in accordance with the Listing Rules as referred to in Section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to Glengarry can be inspected at the registered office of Glengarry during normal office hours.

For details of documents lodged with ASX since the date of lodgement of Glengarry's latest annual financial report refer to Annexure C of this Bidder's Statement.

10.5 Information about Glengarry Shares

The Glengarry Shares to be issued pursuant to the Share Offer will, from their date of issue, rank equally in all respects with existing Glengarry Shares on issue. The rights attaching to the Glengarry Shares arise from a combination of Glengarry's Constitution, statute and general law. A summary of the rights attaching to the Glengarry Shares is set out below:

(a) General Meetings

Glengarry Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of Glengarry.

Except as required by the Corporations Act, Glengarry Shareholders are not entitled to convene, or require the Directors to convene, a general meeting.

(b) Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Glengarry Shares, at general meetings of Glengarry Shareholders or classes of Glengarry Shareholders:

- (i) each Glengarry Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, each Glengarry Shareholder or a proxy, attorney or representative of a Glengarry Shareholder has one vote; and
- (iii) where a Glengarry Shareholder appoints two proxies or attorneys to vote in respect of Glengarry Shares held by the Glengarry Shareholder and both are in attendance:
 - A. on a show of hands, only the first person named in the instrument appoint the proxies or attorneys or, if they are named in separate instruments, the person whose name is earlier in alphabetical sequence, may vote; and
 - B. on a poll, each proxy or attorney may only exercise votes in respect of those share for which the proxy or attorney has been validly appointed proxy or attorney or if the instrument appointing the proxies or attorneys does not specify the proportion or number of the Glengarry Shareholder's votes each proxy or attorney may exercise, each proxy or attorney may exercise half of the Glengarry Shareholder's votes. Any fractions of votes are to be disregarded.

(c) Dividend Rights

The Directors may from time to time determine that a dividend is payable to Glengarry Shareholders entitled and may fix the amount and time for payment of any dividend. No dividend may be paid otherwise than out of profits nor bear interest against the Glengarry.

Subject to the rights of persons (if any) entitled to Glengarry Shares with special rights as to dividends, all dividends shall be paid to Glengarry Shareholders according to the amounts paid (not credited) on the Glengarry Shares as a proportion of the total amount paid and payable (excluding amounts credited) on the Glengarry Shares. In relation to partly paid Glengarry Shares, all dividends shall be apportioned and paid proportionately to the amounts paid (not credited) on the Glengarry Shares during any portion or portions of the period in respect of which the dividend is paid.

The Directors may from time to time grant to Glengarry Shareholders or any class of Glengarry Shareholders or to the holders of any convertible notes, debentures or unsecured notes of Glengarry the right upon such terms and conditions as the Directors may determine to elect to receive Glengarry Shares in lieu of dividends or to re-invest all or part of the dividends, interest or any other moneys (as the case may be) paid by Glengarry in respect of such holdings.

(d) Winding-Up

If Glengarry is wound up, the liquidator may, with the authority of a special resolution, divide among the Glengarry Shareholders in kind the whole or any part of the property of Glengarry, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Glengarry Shareholders or different classes of Glengarry Shareholders. The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of

the contributories as the liquidator thinks fit, but so that no Glengarry Shareholder is compelled to accept any Glengarry Shares or other securities in respect of which there is any liability.

(e) Transfer of Glengarry Shares

Generally, Glengarry Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

(f) Future Increase in Capital

Glengarry may, by general resolution of Glengarry Shareholders, alter its capital in any manner permitted by law.

(g) Variation of Rights

Under Section 246B of the Corporations Act, Glengarry may, with the sanction of a special resolution passed at a meeting of Glengarry Shareholders, vary or abrogate the rights attaching to Glengarry Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not Glengarry is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

10.13 Material Litigation

The Company or its Subsidiaries currently have no material disputes.

10.14 ASIC Relief

Glengarry has obtained from ASIC certain modifications of the application of the Corporations Act. These are set out in Annexure G to this Bidder's Statement. The effect of the modifications is to allow:

- (b) the Option Offer to offer a different consideration for each class of Centaurus Bid Option;
- (c) the Company to compulsorily acquire any Centaurus Bid Options and Centaurus Other Options that are not otherwise transferable; and

10.15 **ASX approval**

Centaurus has applied for ASX approval to vary the terms of the Centaurus Bid Options to enable the transfer to Glengarry of the Centaurus Bid Options held by the Centaurus Optionholders who accept the Option Offer, as some of the Centaurus Bid Options are not otherwise transferable.

Glengarry will appoint an ASIC approved nominee ("**Sale Nominee**") for Foreign Centaurus Shareholders who accept the Share Offer in accordance with Section 619(3) of the Corporations Act. If you are a Foreign Centaurus Shareholder who accepts the Share Offer, then despite any other provision of the Share Offer, you will receive for your Glengarry Shares a cash amount calculated under Section 1.8 of Annexure A.

For the purpose of this Bidder's Statement, you are **not** a Foreign Centaurus Shareholder if:

- (a) your address as recorded in the Centaurus register is within Australia or its external Territories, New Zealand or Singapore; or
- (b) you appoint an agent in Australia to receive and accept the Share Offer on your behalf.

Also, a person will not be a Foreign Centaurus Shareholder if Glengarry is satisfied, acting reasonably, that the laws of the country of residence of that Centaurus Shareholder (as shown in the Centaurus register) permit the issue and allotment of Glengarry Shares either unconditionally or after compliance with conditions which Glengarry in its sole discretion regards as acceptable. Notwithstanding anything else in this Bidder's Statement, Glengarry is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

certain restrictions commonly referred to as no shop, no talk and no due diligence provisions, subject to carve outs in relation to directors' duties.

- (d) **Centaurus Break Fee:** Centaurus has agreed to pay Glengarry a break fee of 1% of Glengarry's market capitalisation on the last trading date prior to the Announcement Date (\$148,722) in the event:

- (iii) Centaurus or any of the Centaurus Directors knowingly does (or knowingly omits to do) anything (whether or not it may be permitted by the terms of the Implementation Agreement) which results in any of the conditions of the Takeover Bid being breached and Glengarry does not declare the Takeover Bid free of the breached condition (which Glengarry is under no obligation to do); or
- (iv) there is a breach of the exclusivity arrangements referred to in Section 10.17(a).

Centaurus shall not be obliged to pay the break fee if at any time during the Offer Period the amount of Glengarry's total cash reserves less the amount payable by Glengarry in respect of its costs and expenses of the Offer are less than \$7.5 million.

- (iii) Glengarry or any of the Directors knowingly does (or knowingly omits to do) anything (whether or not it may be permitted by the terms of the Implementation Agreement) which results in any of the conditions on the Takeover Bid being breached and Glengarry does not declare the Takeover Bid free of the breached condition (which Glengarry is under no obligation to do).

10.18 Pre-bid Acceptance Agreements

Under the Pre-bid Acceptance Agreements, the contracting parties have agreed to irrevocably accept the Share Offer in respect of that number of Centaurus Shares that, as at the date of the Pre-bid Acceptance Agreement represents, to the nearest whole number, 19% of all issued Centaurus Shares.

GLENGARRY OPTION TERMS AND CONDITIONS

1. General

- 1.1 No monies will be payable for the grant of the options.
- 1.2 A certificate will be issued for the options.

- 1.4 Each option shall, from the date of grant, carry the right to subscribe for one fully paid ordinary share in Glengarry Resources Limited ("**Share**").
- 1.5 Options may be exercised in whole or in part. Where the options are exercised in part, they must be exercised in multiples of 1,000 on each occasion. An exercise of only some options shall not affect the rights of the Optionholder to the balance of the options held by it.
- 1.6 The Shares allotted on the exercise of these options shall be issued at an exercise price of A\$[refer to "Summary of Centaurus Bid Options and Glengarry Options" in Annexure E of this Bidder's Statement] per Share ("**Exercise Price**"), which price shall be payable in full on exercise of these options.

This will give Optionholders the opportunity to

exercise their options prior to the date for determining entitlements to participate in any such issue.

- 1.14 An option does not confer the right to a change in the exercise price or the number of underlying Shares over which the option can be exercised
