

CORPORATION LTD

ADVANCED AIR PURIFICATION SYSTEMS

Announcement

For Immediate Release

02 February 2009:-

AFT Corp Ltd, through its subsidiary Artemis Building Systems Pty Ltd (Artemis) has commenced marketing of solar panel business and has received initial orders of over \$500k and anticipating similar size orders expected over the coming six months.

"we are very pleased with the response we are receiving from customers and we see a long term future in the marketing of solar and renewable products for Artemis" said Stone Wang, Chairman.

Artemis Building Systems (ABS) is a solution provider and integrator of curtain wall and Building Integrated Photovoltaic systems. ABS works with architects, project owners and contractors on the optimization of building envelopes by integrating BIPV technology into the design scheme to meet aesthetic, functional and costing requirements. ABS is a national distributor of Suntech BIPV and solar panel products
