Re: Appendix 3 B – Bonus Issue – released 25 March 2009

The following information is provided as a supplement to the Appendix 3B issued on 25 March 2009 regarding shares to be allotted under the company's Dividend Share Issue Plan (DSIP). On 13 May 2009, the Company will be paying an unfranked dividend of 2.5 cents per share for the year ended 31 December 2008 (the Dividend). The Dividend will comprise of a 1 cent cash component and a 1.5 cent share component. Shares will be issued to satisfy the share component of the Dividend in accordance with the DSIP. The share price under the DSIP will be equal to the weighted average 'ex dividend' market price of shares traded on ASX between Friday 24 April 2009 and Thursday 30 April 2009 (inclusive).

The Appendix 3B issued on 25 March 2009 advised that the **estimated** number of securities to be issue was 1,471,999, based on an **estimated** weighted average share price (WASP) of 40 cents.

An example of how the number of bonus shares to be issue to each shareholder will be calculated, is set out below:

EXAMPLE ONLY

Distribution amount per share	1.5 cents
WASP (estimate)	40.0 cents
The bonus issue ratio would then be calculated as	$\$0.015/\$0.40 = 0.0375$
OR	
Estimated DSIP securities to be issued/total issued capital	$1,471,999 / 39,253,315$

The bonus issue ratio would be 0.0375 bonus shares for every one share held or one bonus share for every 26.666667 shares held.

Note that this is an example only as the bonus share ratio will vary depending upon the WASP yet to be calculated. A further Appendix 3B will be released on 13 May 2009 when the distribution occurs, to advise the actual number of shares issued under the DSIP based on the actual WASP.

Karon Rogers,
Company Secretary/CFO
