Buderim Ginger Limited (ASX: BUG)

**Correction of media article in The Courier-Mail March 11, 2009 -  
"Profit spices up mixed results".**

Buderim Ginger Limited refers to an incorrect media report in today's Courier-Mail (11/3/09) indicating that the Company's profit result "fell \$1 million short of previous guidance".

The Courier-Mail incorrectly compared the Company's 2008 AFTER-TAX profit of \$2.006 million with the previously announced market guidance for a BEFORE-TAX profit of between \$3 million and \$3.5 million.

The actual before-tax profit for the Group was in fact \$3.187 million and well within the boundaries of the previous guidance.
