Dear Joel

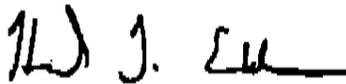

RE: iSOFT Group Limited (the "Company") Price Query

We refer to your Letter of 2 December 2009 in relation to the change in price and trading volume of the Company's securities.

In response to your queries we advise as follows:

1. The Company is not aware of any information concerning it that has not been announced which, if known, could be an explanation for recent trading in its securities.
2. Not applicable.
3. As we disclosed in our ASX Release on Update on Operations on 5 November 2009, the Company is on track to achieve 10% organic growth. However, we highlighted that currency changes, particularly in the UK pound/Australian dollar and the Euro/Australian dollar have resulted in a translation decline in our revenues over the current period. As of today, the UK pound has fallen by approximately 30% and the Euro by approximately 20% against the Australian dollar across the corresponding periods. As a result, there is a potential decline of more than 15% in Australian dollar operating profit as compared to the corresponding prior period. However, the current half year period is not yet complete and a number of material transactions are in progress.
4. There is no reason to think that the Company may record any material abnormal or extraordinary profit for the half year ending 31 December 2009.
5. The Company does not have any explanation for the change in price of its securities during the period to which you refer.
6. The Company confirms that it is in compliance with the Listing Rules and in particular, Listing Rule 3.1.

Yours Sincerely

Howard E. Edelman
General Counsel & Company Secretary
