ASX / Media Release dated 23 June 2009

## GREENCAP WINS TENDER

**Brisbane, Australia 23 June 2009** - Greencap Limited (ASX:GCG) is pleased to announce that group company **Leeder Consulting Pty Ltd** has been awarded a two year supply contract for a Water, Gas, Air & Soil Sampling and Analysis programme for the coal seam gas producer **QGC** – a BG Group business.

The Supply contract is due to be finalised over the next six to eight weeks and is expected to result in a material uplift in Leeder Consulting's revenue for FY10 and beyond.

Dr John Leeder, Managing Director of Leeder Consulting, commented that "we are extremely pleased with winning the tender. Leeder has the ability to provide QGC with a diverse range of sampling and testing services rather than having to source these services from a range of different companies."

Dr Leeder added that "we have been working with QGC over the past few years and look forward to continuing our work with them. QGC is a leading Australian coal seam gas explorer and producer focused on developing its world-class reserves for domestic and international supply."

Leeder Consulting has also moved proactively to position itself as the leader in water, gas, air and soil sampling support to energy companies. Dr Leeder noted that, "we have introduced mobile field laboratories in Queensland and are establishing remote lab facilities to expeditiously handle the volume of work expected from Queensland. We are also recruiting experienced personnel to handle the increased volume of work."
